Re: Ownership Change for Adjudication Claim #A72-02104B
HILL/LOTT

Dear Mr. Lott:

Pursuant to notification that you presently own the property in which the above referenced Adjudication Claim is appurtenant, the Department has changed the record of the current owner as you requested. Please find enclosed a copy of the computer record of the claim noting the change in claimant.

Please review the record and if you have any corrections or questions, please feel free to call this office.

You mentioned you also had purchased the adjoining lot (#22) and wondered if you might be able to obtain some water rights for it and how. It appears the original license (72-02104) was appurtenant to this lot also, but the right may have been lost due to non-use for five or more consecutive years and thereby forfeited according to Idaho code. There is a moratorium on new surface water diversions in your area but new groundwater permits are still being issued. So your options would be either a new permit and drilling a well for your irrigation or you might try to buy a water right from someone and transfer it to this lot.

If you have any questions or would like me to send you the proper forms, please let me know and I'll be glad to send them to you.

Sincerely,

Jeanie Robertson

Re: Ownership Change for Adjudication Claim #A72-02104B
CLARK/HILL

Dear Mr. Hill:

First of all I would like to apologize for the length of time it has taken to process your ownership change. Your forms were tucked away in a file and I just came across them. I have made the ownership change as you requested and have enclosed your copy of the claim for your records.

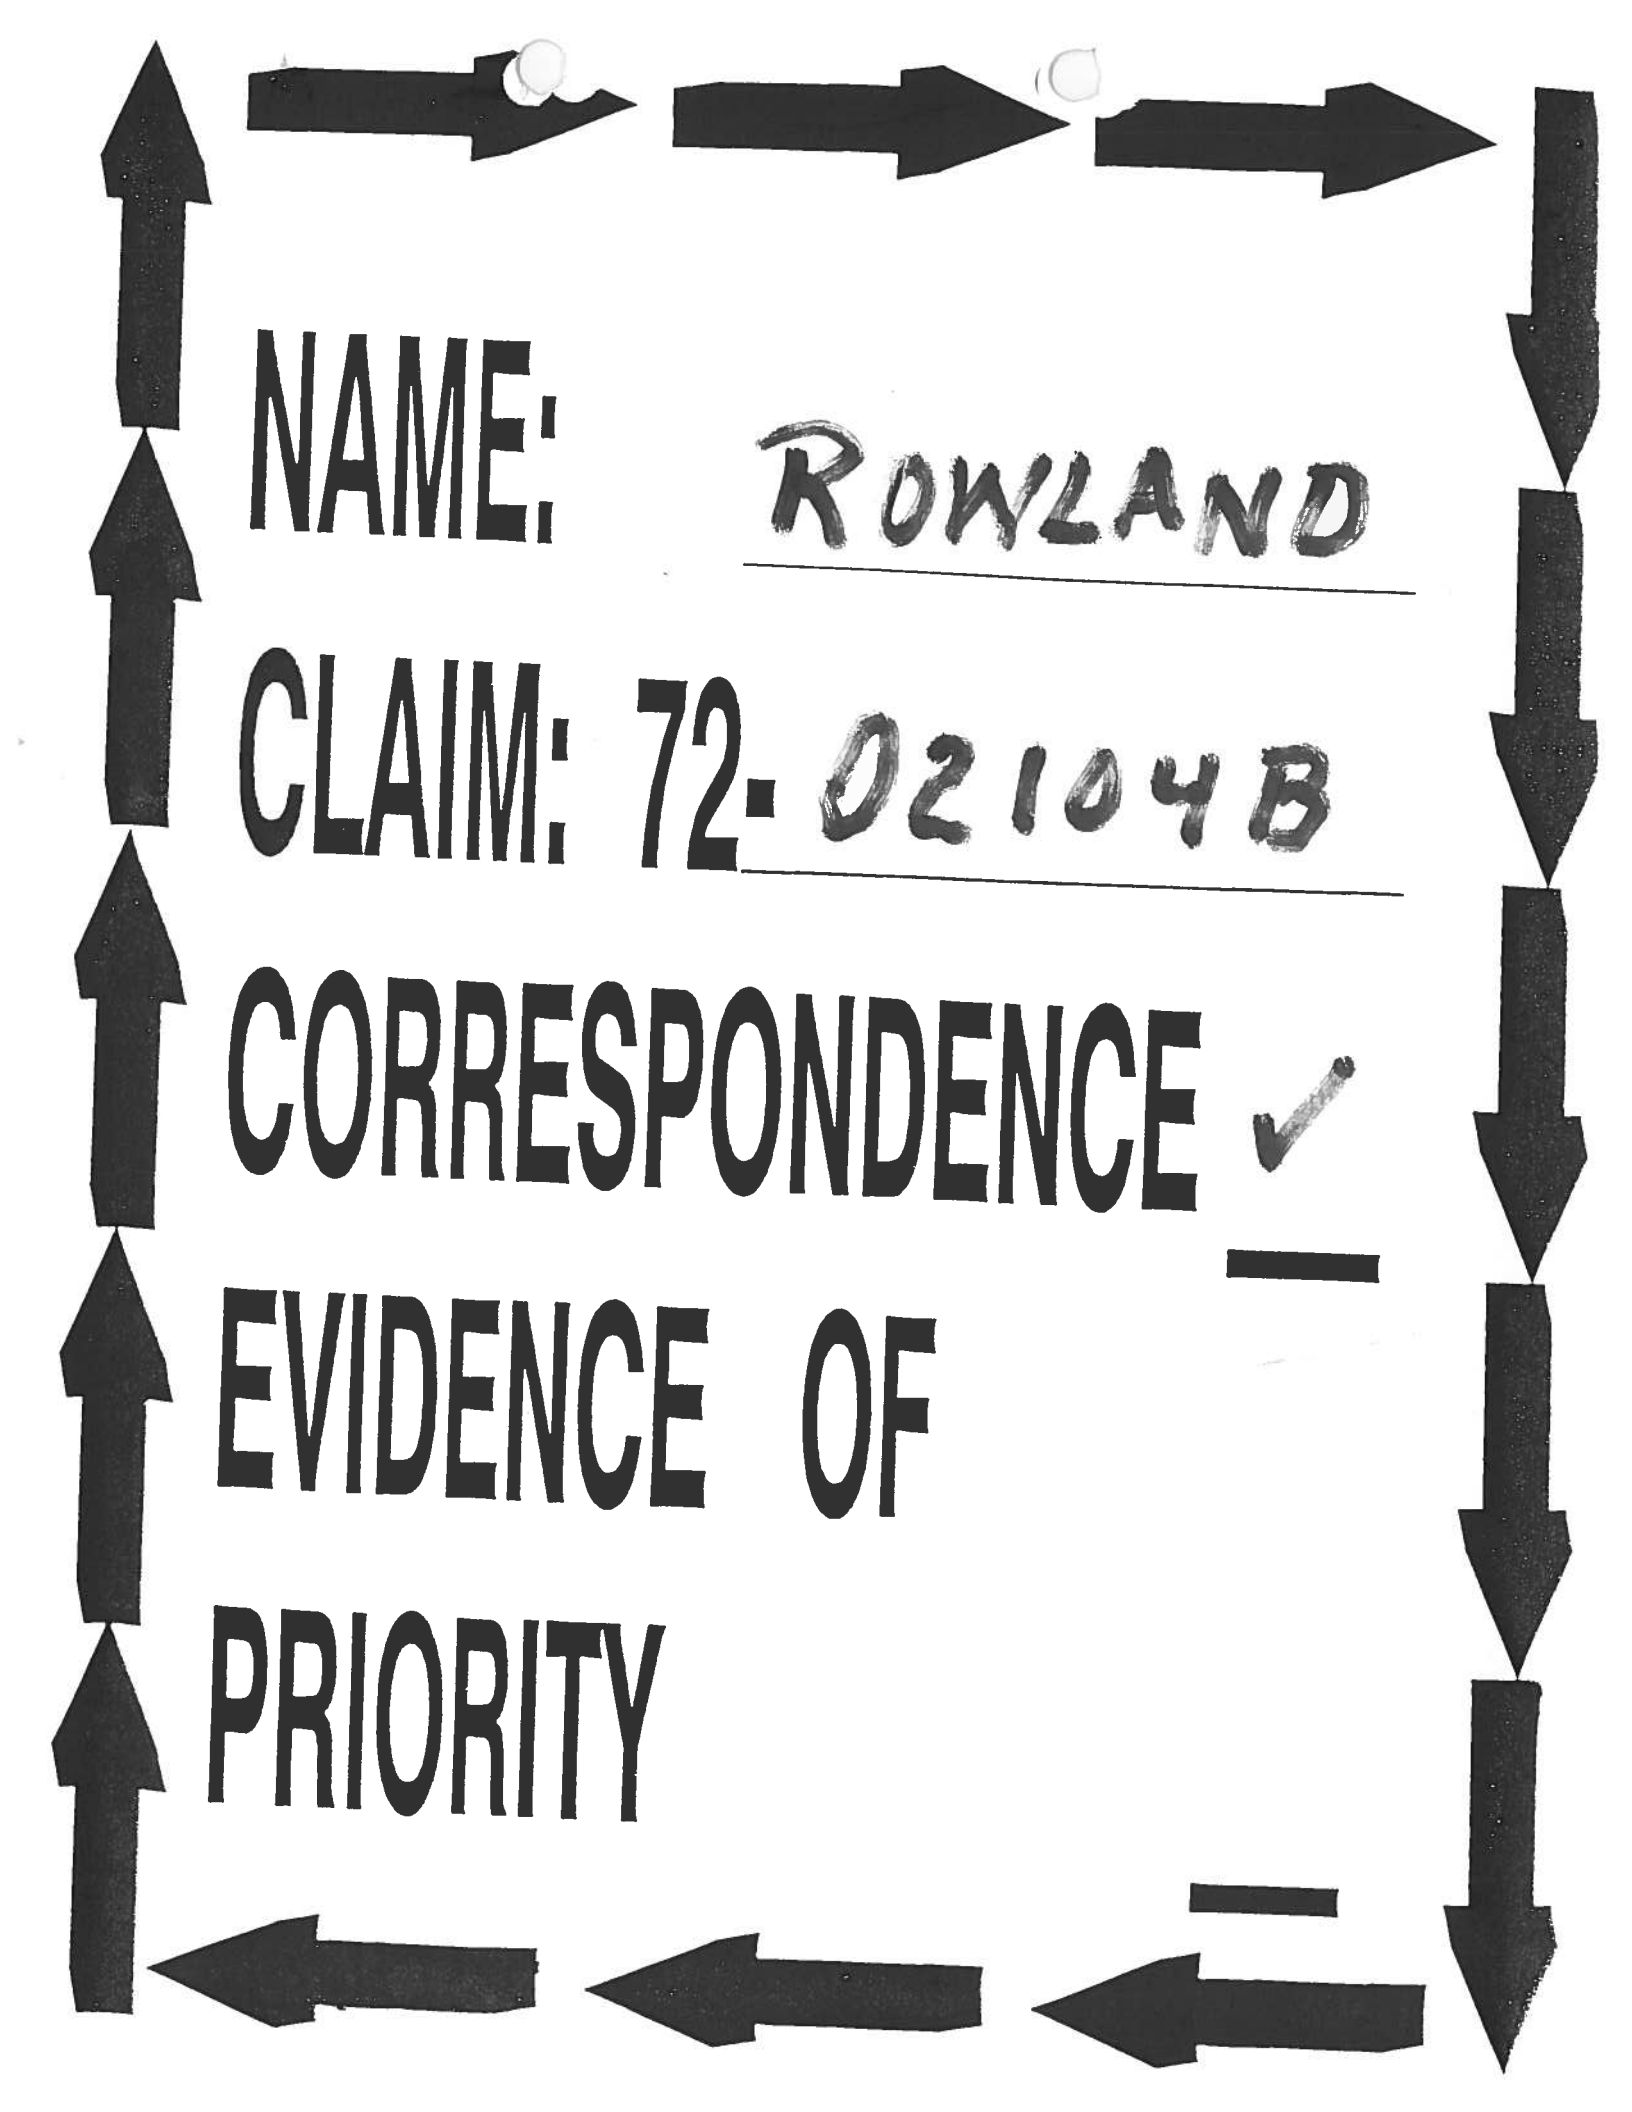

There is another issue with your claim which I would like to make you aware of, however. A previous employee of our department (Bob Worstell) was in the Challis area several years ago verifying the adjudication claims and talked with the former owner, Carroll Rowland. Mr. Rowland said that he doesn't use the water anymore and did not plan to use it in the future and that he may eventually apply for a permit to irrigate up to 4 acres from his domestic well. (I have enclosed a copy of his remarks for your review.) Based on this conversation, this claim was recommended for "disallowal". If you wish to preserve your water right you will need to provide the department with information that you are using the water and that the water use did not go for a period of five years or more without being used. Perhaps the local watermaster, Bud Hamilton, could help you.

If you have any questions, please call the office.

Sincerely,

Jeanie Robertson
Water Right Agent

RE: Adjudication Claim A72-02104B

Dear Mr and Mrs Rowland;

I contacted Mr Rowland by phone on August 22, 1993 to arrange for a time to meet with him to make a field examination of your Adjudication Claim A72-02104B (dated 1/4/1990) for irrigation water for your property north east of Challis. At that time you felt you would not be using this claimed source and did not wish to pursue it further. You felt you might eventually apply for a permit to irrigate up to 4 acres from your domestic well.

I am enclosing a Form 25a, Request for Withdrawal of Claim, for your use to withdraw this claim and complete our record. If you do so you may request a refund of the \$57 fee that you paid when you submitted the claim (see receipt #S010841). When I receive the completed and signed Request for Withdrawal Form, I will fill out another form to apply to our State Office for this refund. Send this form addressed to my attention.

Please contact this office if you have any questions.

Respectfully,

Robert V. Worstell
Sr. Adjudication Agent

Subject: Challis Creek right questions...

In answer to your questions:

72-00004D

I found no ownership change records from Don and Cori Henderson to Don Odom

72-00020E, 72-02147A

I found a letter I had sent to Mrs. Green last September telling her she needed to file a late objection in order for me to be able to make any changes to the point of diversion. I guess she never did...

72-00029B

I sent a letter to Mr. Rankin last September telling him he needed to file a transfer to reduce the place of use to 32.5 acres, which would match right 72-10044A. Apparently he has not done so. This right was originally recommended with 43 acres in the place of use. The 'R' record in this case is how it should look IF and WHEN a transfer is filed. We filed a Notice of Administrative Proceeding on 12-27-1999 with the court in hopes Mr. Rankin would contact us...

72-02104B

I found no ownership change records showing Jolley has sold this...

Hope this helps...Jeanie

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

Mr. Lott:

This letter is a follow-up to our meeting at your property on June 05, 1997 and subsequent telephone conversation on June 09, 1997.

We had discussed the possibility of you irrigating from a ditch which ends on the upper portion of your property located in the NWNW S10 T14N R19E. At the time of my visit I had assumed, based on information from you, the ditch was a common delivery system for water rights A72-00012H & 00012J owned by Ray and Falma Cullinane and water right A72-02104B owned by you.

A further investigation and a check of department records has determined the above mentioned water rights do not share a common delivery system, point of diversion, or source. I have have enclosed a map showing the points of diversion for these water rights as well as computer generated reports of the water rights. Based on this information you would be restricted to using the source and the point(s) of diversion described in water right A72-02104B.

If you have further questions concerning this matter feel free to contact me at the above address or Jeanie Robertson in our Twin Falls office at (208) 736-3033.

SUBJECT: ?? ON USING WATER FROM DITCH UP BY ROAD??

phone call (X) walk-in (.)

Transfer #3581 was filed to ADD a point of redirection for this subdivision lot (#23) back in 1989. It allowed him to pump out of the creek. He wondered if he was still able to use the ditch up by the road to irrigate the upper portion of his property? I looked over the transfer application and conferred with Allen Merritt and he agreed that this transfer did not limit the right to the pump in the creek and that, although it is rather vague, he can still use the upper ditch. His neighbor, Mrs. Moye, said he had no water right out of that ditch anymore and didn't want to move her canvas damns. He said he irrigated this way last year though and there wasn't any problems... I told him to talk to her and hopefully, they could work it out amongst themselves...

RE: Permit No. 26145

Millie Bradbury
Challis
Idaho

Dear Madam:

We now have on file the report of our field engineer on examination for beneficial use on your Permit No. 26145 which shows that you have irrigated 94 acres of land in the S $\frac{1}{4}$ SW $\frac{1}{4}$ Section 3; N $\frac{1}{4}$ NW $\frac{1}{4}$ Section 10; and the E $\frac{1}{4}$ NE $\frac{1}{4}$ Section 9, Township 14 North, Range 19 East, B.M., with the waters of an un-named stream (waste water), with point of diversion in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 9, same Township and Range.

However, since the NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 10 was not included in your original Permit, the enclosed application for amendment to the land list should be completed and returned to this department for record.

A License can then be issued for 1.88 second feet of water upon receipt of the statutory license fee of \$12.00, being at the rate of \$2.00 for each 40 acre subdivision in which the land is located.

Very truly yours,

REPORT OF ENGINEER

Permit No. 1754

This proof is for Beneficial Use

In Water District No. _____

1. Name of applicant Willa Bradley
 2. Source of water supply: Waste waters which naturally drain off real property owned by Ella Bradley
 3. Location of point of diversion: Is in the SW 1/4 of Section 2
 T. 14 N. R. 12 E., 7th County of Quincy

1. Describe works as they exist, giving dimensions and capacities of same: Natural drainage and waste water collect in the unnamed stream which is actually an old channel of Challis Cr. It does not now have a distinct connection to the present channel but at the P.D. all the water is turned into the ditch and flows to fields by gravity. Ditch is 2 to 3 foot w. in bottom and is fast flowing.

5. Water is used for: Irrigation

6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

35 acres in the SW 1/4 of Sec. 2., 35 acres in the SE 1/4 of Sec. 3.,

15 acres in the NW 1/4, SE 1/4, 10., 10 acres in the SE 1/4 of Sec. 9.,

15 acres in the NW 1/4 of Sec. 2., all in Twp. 14 N., R. 12 E., 7th.

Water is sluiced across the stream in a board flume 2' w. x 1' h. 25' long

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks:

In abundance of water is used on this ground most of it returns to the stream flow eventually

SUBJECT: QUESTIONS ON NEW APPLICATION FOR PERMIT

phone call (X) walk-in (.)

Received the application form and instructions I'd sent him and had a few questions on filling it out. He also wondered if he might transfer some of his diversion rate from A72-02104B since it was for 7.2 acres and .14 cfs yet he actually only irrigates about 3 to 3.5 acres. I told him that that right would probably be limited to 3 to 3.5 acres and the diversion rate reduced accordingly since those other acres were never irrigated and there really wouldn't be any water available to transfer. He decided to go with the new permit and asked if I'd send him a couple of maps to use and I included a plastic overlay to help determine his legal description.

RE: APPLICATION FOR PERMIT

Dear Cal,

Enclosed is an Application for Permit and a set of instructions. As we discussed earlier on the phone, new permits can still be issued in the Challis area for groundwater development. New surface water diversions may be permitted if they fall under the domestic guidelines, which would limit the irrigation of up to 1/2 acre only.

If you have any questions or need help with the form, feel free to give me a call and I'll try to help or set you up with an allocation agent.

Sincerely,

A handwritten signature in cursive script that reads 'Jeanie'.

Re: Ownership Change for Adjudication Claim #A72-02104B
HILL/LOTT

Dear Mr. Lott:

Pursuant to notification that you presently own the property in which the above referenced Adjudication Claim is appurtenant, the Department has changed the record of the current owner as you requested. Please find enclosed a copy of the computer record of the claim noting the change in claimant.

Please review the record and if you have any corrections or questions, please feel free to call this office.

You mentioned you also had purchased the adjoining lot (#22) and wondered if you might be able to obtain some water rights for it and how. It appears the original license (72-02104) was appurtenant to this lot also, but the right may have been lost due to non-use for five or more consecutive years and thereby forfeited according to Idaho code. There is a moratorium on new surface water diversions in your area but new groundwater permits are still being issued. So your options would be either a new permit and drilling a well for your irrigation or you might try to buy a water right from someone and transfer it to this lot.

If you have any questions or would like me to send you the proper forms, please let me know and I'll be glad to send them to you.

Sincerely,

Jeanie Robertson
Water Right Agent

Said he has purchased the property from Brent Hill and will be sending the form to me soon. Asked if I'd check and let him know his options on the adjoining lot #22, which he also bought and which doesn't have any water rights. Told him I'd let him know. It appears that since there is no moratorium for groundwater permits up in that area, he may either need to drill a well or buy some water rights from someone else and transfer them to his property...

RE: ADJUDICATION CLAIM NO. A72-02104B

Dear Mr. Lott:

As we talked about in our phone conversation this morning, I have enclosed a NEW PROPERTY OWNER NOTICE OF CHANGE OF WATER RIGHT OWNERSHIP form. Please complete it, attach proof of ownership (Warranty Deed or some other strong evidence of mutual intent) if necessary, or the signature of the former owner, and return them to me. I will then make the changes in our computer records and forward copies back to you.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Jeanie', written over the typed name.

Said he had bought out Brent Hill on this property and wanted to change water rights to his name. Sent him an ownership change form to 600 Henderson, Blackfoot, ID 83221.

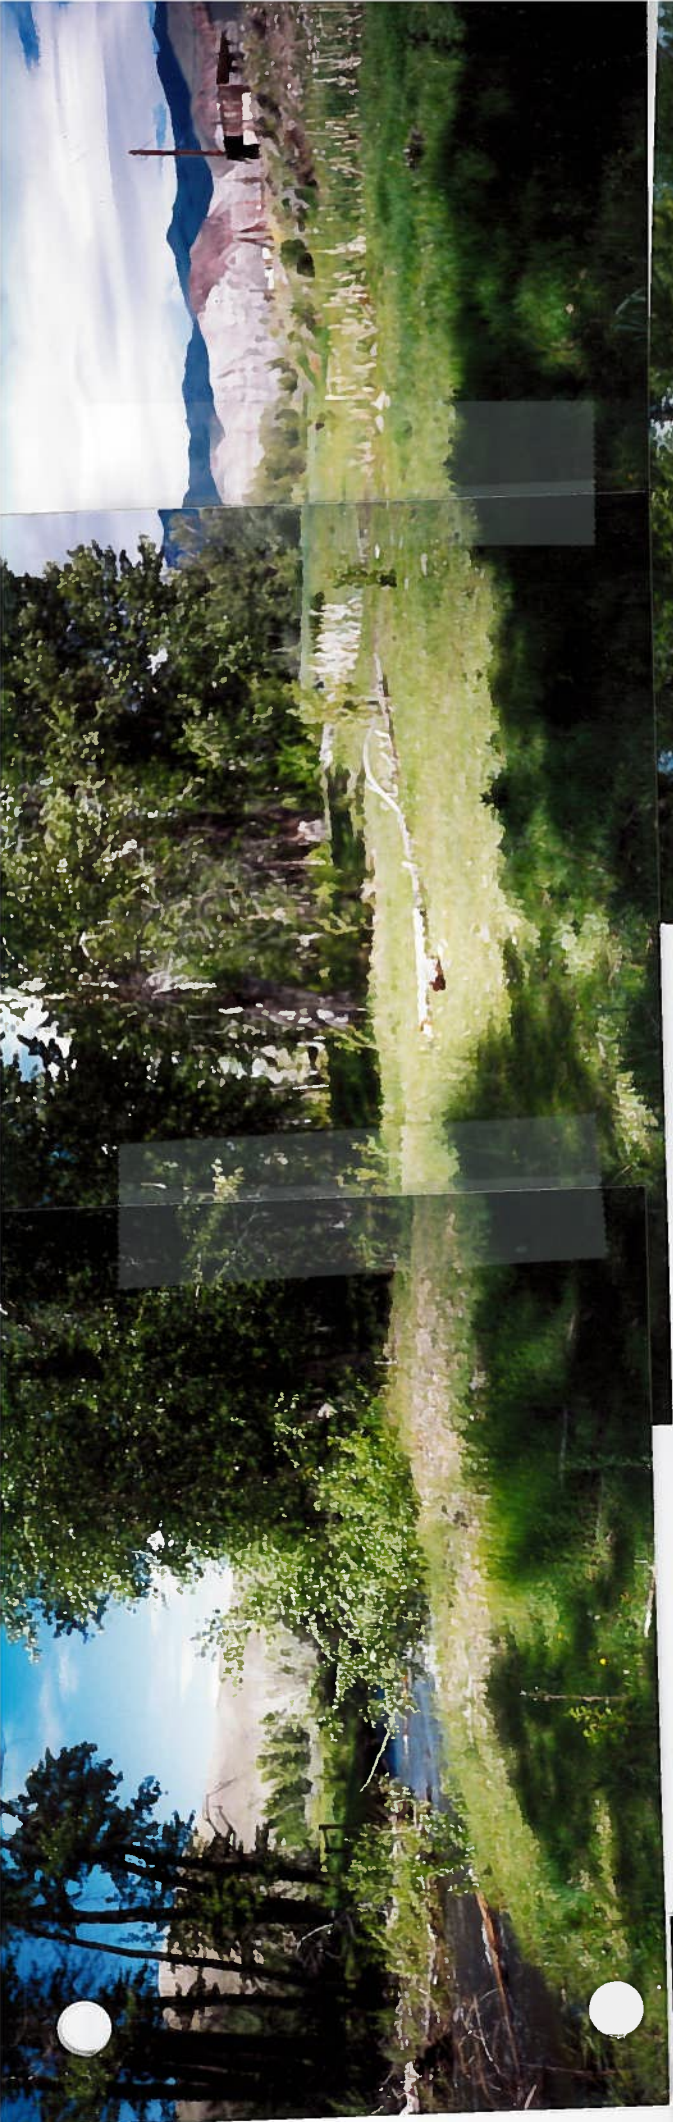

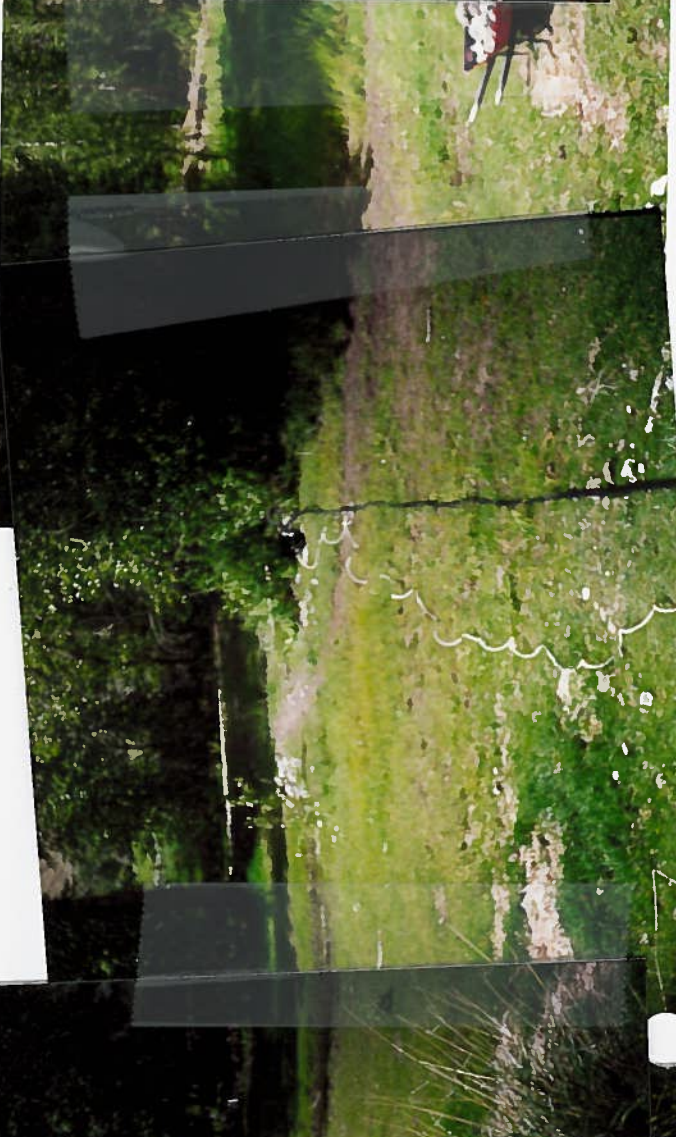

Brent Hill A72-02104B

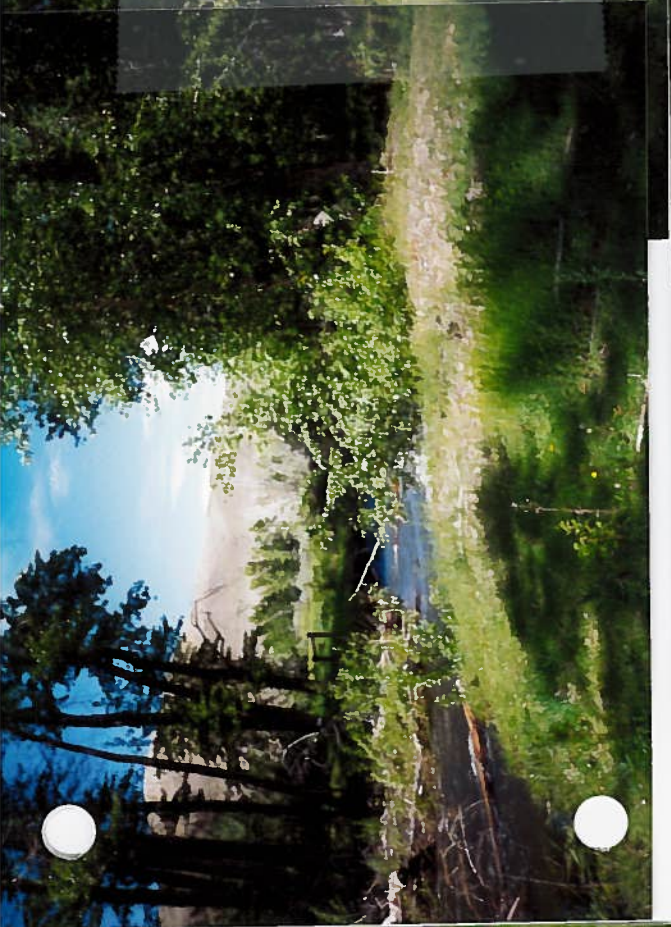

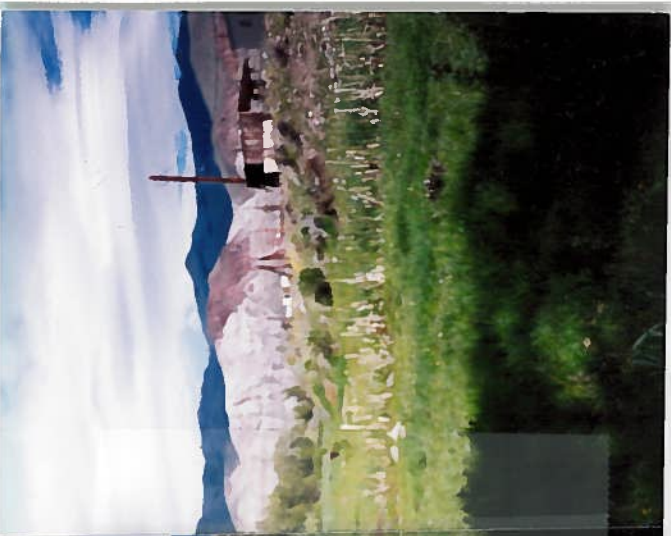

- irrigates about 5-6 acres
- ditch runs 150' through his property
- roads in summer & may be hard to reach.

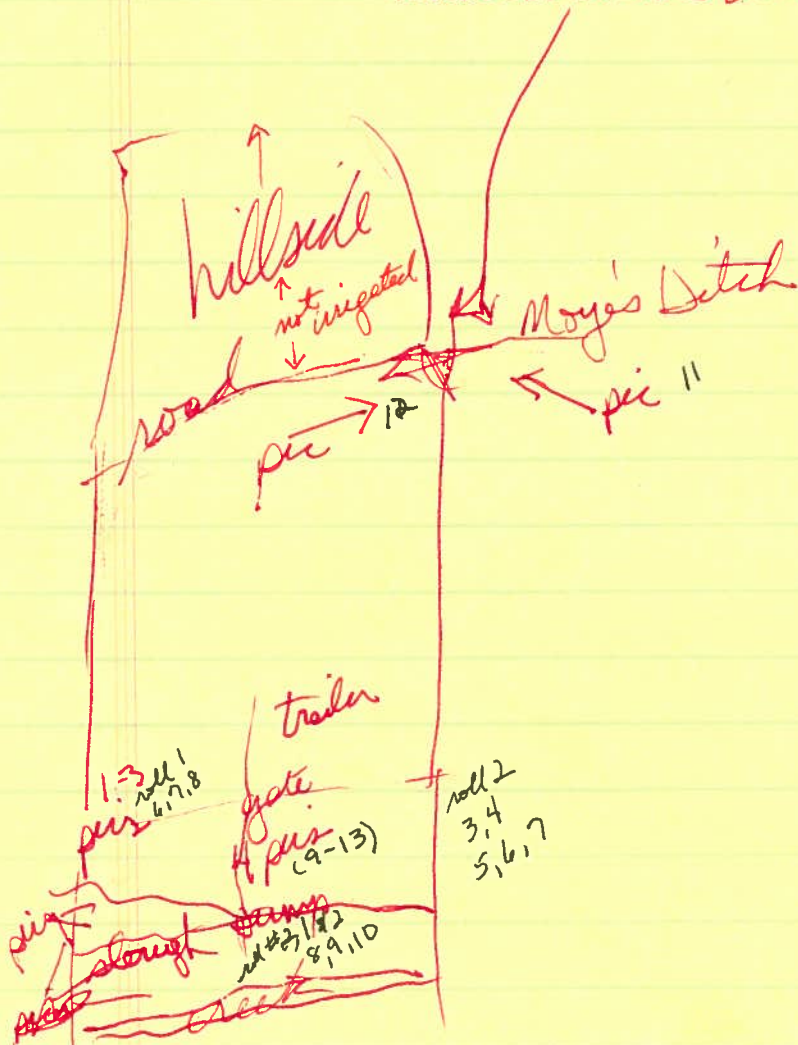

6/12/95

Brent Hill

-said he irrigates about 5 acres. Some property above the road not irrigated - owns to other side of Hell's Creek - and where buildings are is not irrigated. Plowed up ground & was watering with sprinkler out of ditch below house the day I was there. Ditch from Moye's needs cleared out but he could flood irrigate from it if it was cleaned out. It's been too wet to get back-hoe in to clean it out yet, but he intends to soon. Asked about possibly transferring P/D to Creek pics - roll 1 & 2. Told him he'd need a transfer - ended with ditch pics

BRENT HILL A72-02104B

SUBJECT: OWNERSHIP CHANGE, CLAIM REC. FOR DISALLOWAL
phone call (.) walk-in (.)

We received an O/C form about a year ago and I just came across it. Problem is that this claim has been recommended for Disallowal based on a conversation Bob Worstell had with the previous owners. They said they no longer used the water out of the ditch and didn't intend to in the future, said they might get a permit to irrigate 4 acres from their domestic well. Bob sent them a Withdrawal Form in December of 1993, but they never responded. Talked with Nick Spencer and he said he didn't think it would be right not to inform this new owner of the status of his claim. I sent him a letter...

May 24, 1995

He called about the letter and said he does still want the water and is using it right now. Said it was also used last year, apparently he is the last one on the ditch and he gets what he gets. Carroll Rowland, with whom Bob Worstell spoke, is now the ex-husband of Mary Rowland Clark, from whom Brent bought the property. He is sure Mary is unaware of this conversation with Bob and will try to get an affidavit from her about the water use. I told him that I will schedule a field exam for his property since Bob never completed one after his conversation with Mr. Rowland. Said he irrigates about 5 or 6 acres and the ditch runs approximately 150' through his property. He rodeos in the summer and is gone a lot, but I told him I will try to get hold of him and let him know when I am coming up...

Application for Amendment
To Permit to appropriate the Public Waters
of the State of Idaho, No. 26145

Comes now Millie Bradbury and represents to the State
Reclamation Engineer of the State of Idaho.

That he is the owner and holder of Permit to appropriate the Public Waters of the State of
Idaho, No. 26145, and requests that the list of lands to be irrigated, as described in said
permit, be changed to read as follows:

NE 1/4 NW 1/4, NW 1/4 NW 1/4 Section 10:

SW 1/4 SW 1/4, SE 1/4 SW 1/4 Section 2:

NE 1/4 NE 1/4, SE 1/4 NE 1/4 Section 9:

Township 14 North, Range 19 East, 4th.

making a total of 94 acres.

That an additional amount of water is not asked for, and that the rights of others will not be ad-
versely affected by such change.

Signed at W. Waller this 8th day of November 1956
