Subject: version 2 recommendations

Hi Don,

I created a couple of version 2 recs for rights 72-2147B and 72-2147C per an agreement reached at a settlement conference in Challis last week. When I went into water right reporting to print off a report for them, the pod and source did not show up. I went back into the ecvr and made sure I'd "saved" those two tabs, yet when I went back into reporting, it still wouldn't print the pods or sources. Any suggestions?

Thanks,
Jeanie

On the same subject...

I went into court reporting for these two recs and the pods show up but not the source...go figure...?

Subject: 72-2147A,B,&C (GREEN, BUTTS, & PHILPS)

Hi Nick,

I've created new recommendations for 72-2147B (BUTTS) and 72-2147C (PHILPS). I changed the storage volume for Butts to the 15.75 AFA everyone agreed upon at the meeting and put in C18. All I needed to do for Philps was to change the Condition Code to C18 from C16, as the storage volume of 47.25 was what was originally claimed and recommended. I didn't need to make any changes to Green's version 3 recommendation.

(One thing you might want to run by Don is whether he wants to take out the other Remarks in Butts and Philps about **the storage is in Challis Creek Lakes** and being **controlled by the watermaster of district 72C** because he took them out of Roberta's when we did her version 3 recommendation.)

Otherwise, these are ready for SF5's!

Thanks,
Jeanie

STANDARD FORM 2

RESPONSE TO OBJECTION

INSTRUCTIONS

This form must be used to file a response to any objection filed against a water right recommended in a Director's Report. Forms may be obtained from the SRBA Court, the Idaho Department of Water Resources (IDWR), or you may copy or reproduce this blank form. If you copy or reproduce this form, please copy on both sides with the even-number pages upside down.

The water right number listed as the "Subcase" on the objection you are responding to must be inserted above as the "Subcase." You may respond to all objections filed against one water right using one response form. But you must use a separate form for each different water right. If you choose to file one form to respond to all objections filed against the same water right, your response should cover every issue raised in all the objections.

You must file your response by the deadline shown in the notice that IDWR mailed to you. The response must be received by the court on or before the deadline specified. Instructions for mailing this response are found at Page 5 and must be strictly followed.

This form has been adopted by the court in *SRBA Administrative Order 1, Rules of Procedure* (amended Sept. 30, 1996), Section 4, which may be consulted for further information.

Any party physically filing 25 or more responses must contact the Clerk of the SRBA Court no later than 14 days prior to the filing deadline and arrange for an appointment to file multiple responses.

By filing a response form, you are certifying that the response is well-grounded in fact; that it is warranted by existing law or a good-faith argument for the extension, modification or reversal of existing law; and that it is not filed for any improper purpose, such as to harass, cause unnecessary delay, or needlessly increase in the cost of litigation.

I. GENERAL INFORMATION

Please fill in the following information:

1. *Party/Claimant responding:*

Name: THOMAS A. BUTTS
Address: P.O. Box 6
CHALLIS, ID 83226
Phone: Work: 208-879-5049 Home: 208-879-5049

Briefly describe your interest in this water right:

Deadlines will be set either at or soon after the hearing on mtn for late objs in 12/00, so we will know then when the amd DRs for all the rights are due. When I calendar the deadlines here, I will also calendar for you. This is something I have been doing for the agents in Eastern and it has been working better than an e mail. Later and thanks for the info - that is exactly what Nick will need at the hearing!!

She didn't notice the diversion rate problems at that time, not until Butts showed her his recommendation giving him more water than her (his predecessor had claimed too much). She is not related to Butts but the property he now owns was owned by an aunt. Philps is a cousin, I believe. I have no problem with her objections and will change the diversion rates accordingly as she explained the split to me and gave me some documentation when she was in. She and her late husband and her parents developed the right. She was entitled to 1/2 and then when her parents died, she inherited another 1/3 of the remaining half. Butts now has 1/3 of the remaining half and Philps the last 1/3 of the remaining half. Got that? Anyway, I believe it's true and neither Butts nor Philps has responded so they probably know it's true also...guess eventually I'll have to change my recommendations on all of them, but when? Please let me know when something is due in plenty of time so I can fit it in! Thanks...

Hi Jeannie!! No, there is nothing you need to do, however, would like your input for our legal files. Do you have any problem with her objections, or how she wants to amend her claims? I see she amended 2147A in 3/00. What is her relationship to Butts [2147B] and Philps [2147C]? Why didn't she do them all together in 3/00? Thanks!!

Hi Vicky,

Roberta Green filed late objections on the first three of these rights (cause the split of the diversion rate was wrong and she wants the PoU to include all three of her different parcels in case she needs the water at any of them)) and on the last one because she wants the PoU to include all of her parcels. I see on IWTRS that there is a **hearing on motion to file late objection** on December 19th. Is this anything that I will need to be involved in? She will need to amend her claims but I know what she wants and needs to do...just wondering when this might be due?? Thanks, Jeanie

Subject: 72-02147A, 72-02147B, 72-02147C, & 72-02149E

Roberta Green was in today to file Objections on the above mentioned rights.

I know that we had just finished a new recommendation on 72-02147A, but she then realized that the "diversion rate" was wrong and she had never noticed. that before. She provided documentation that showed she owned 126 AFA. She then had to object to the B and C portions' diversion rates as well.

She also objected to the Place of Use on 72-02147A and 72-02149E, claiming that historically, the different storage rights had been used on either of her properties, as needed...

Anyway, I kept copies of the Objections for my files and sent her to the court with the originals and copies to mail to the other parties. I just wanted to let you they'll be coming.

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

Original License was for 189 AF in Challis Creek Lake. Appears Clyde Green and Ethel Philps each owned half of the right, or 94.5 AF each. Then Philps assigned half interest back to Green, leaving 47.25 AF for Philps (as claimed in part C) and 141.75 AF to Green (or three-quarters of the right.) At some point, Corrigan (part B) or a predecessor must have been assigned half of the original right (or 94.5 AF), leaving Green (part A) with 47.25 AF.
