I'll print them for her. I have talked to her about that yesterday. For future reference, I distinguish a difference between Challis Creek Lakes and Mosquito Flat Reservoir. The latter has the source Challis Creek and the remark is helpful, whereas the remark for the former is redundant with the source.

Thanks for taking of these for me,

Don

Okay, these are ready again. (I noticed that 72-2149E still had the Remark about storage water being in Mosquito Flat Reservoir, even though the Number code was blank, but it still printed out. I removed it since I thought that was what you said you intended, if not, put it back, I guess.)

Should I send **Word Documents** of the Recommendations to Vicki again in an email, or do you just want to print them out up there?

Yes mam', the morning is fine. Vicki M knows the plan and goes along. The report must be filed tomorrow, however. If you must get sidetracked, let me know please.

Yes, it probably should. The 79.4 acres in -2149E are within the 216.1 acres of -2147A. I guess I was thinking that she would use either of the storage rights, but not both at the same time. Also that **too** many limiting remarks tend to confuse the issue, but I guess they probably should be included...do you want to add them, or do you want me too?

Jeanie, at this hour of the day I presume you are at lunch. My take is these two storage rights (2147A and 2149E) overlap in Sec 17 and 28. Yet the POU remarks for limited acres does not reference these among the combined rights. Should it? I'll have your reply when I return from lunch.

Thanks,

RE: AMENDED CLAIMS 72-02147A, 72-02149E

Dear Roberta,

As promised, here are the amended claims. I have amended 72-02147A (source Challis Creek Lakes) to include the places of use for all three properties; the cabin at Mosquito Flat, and the "Home" and "Gossi" places. I have also added the points of diversion appurtenant to each place, where necessary.

As for 72-02149E (source Mosquito Flat Reservoir), I have included the places of use for the "Home" and "Gossi" places only, along with the points of diversion appurtenant to each property, where necessary.

Please look these amended claims over carefully and sign and notarize them if you agree with the amendments. There are two SF4 forms included, one for each right. Please follow the instructions with the forms and send the originals to the court and copies to all parties. (I have included some address labels for your convenience).

Please call if you have any questions or I can be of any further assistance.

Sincerely,

Jeanie Robertson

Deadlines will be set either at or soon after the hearing on mtn for late objs in 12/00, so we will know then when the amd DRs for all the rights are due. When I calendar the deadlines here, I will also calendar for you. This is something I have been doing for the agents in Eastern and it has been working better than an e mail. Later and thanks for the info - that is exactly what Nick will need at the hearing!!

She didn't notice the diversion rate problems at that time, not until Butts showed her his recommendation giving him more water than her (his predecessor had claimed too much). She is not related to Butts but the property he now owns was owned by an aunt. Philps is a cousin, I believe. I have no problem with her objections and will change the diversion rates accordingly as she explained the split to me and gave me some documentation when she was in. She and her late husband and her parents developed the right. She was entitled to 1/2 and then when her parents died, she inherited another 1/3 of the remaining half. Butts now has 1/3 of the remaining half and Philps the last 1/3 of the remaining half. Got that? Anyway, I believe it's true and neither Butts nor Philps has responded so they probably know it's true also...guess eventually I'll have to change my recommendations on all of them, but when? Please let me know when something is due in plenty of time so I can fit it in! Thanks...

Hi Jeannie!! No, there is nothing you need to do, however, would like your input for our legal files. Do you have any problem with her objections, or how she wants to amend her claims? I see she amended 2147A in 3/00. What is her relationship to Butts [2147B] and Philps [2147C]? Why didn't she do them all together in 3/00? Thanks!!

Hi Vicky,

Roberta Green filed late objections on the first three of these rights (cause the split of the diversion rate was wrong and she wants the PoU to include all three of her different parcels in case she needs the water at any of them)) and on the last one because she wants the PoU to include all of her parcels. I see on IWTRS that there is a **hearing on motion to file late objection** on December 19th. Is this anything that I will need to be involved in? She will need to amend her claims but I know what she wants and needs to do...just wondering when this might be due?? Thanks, Jeanie

Subject: 72-02147A, 72-02147B, 72-02147C, & 72-02149E

Roberta Green was in today to file Objections on the above mentioned rights.

I know that we had just finished a new recommendation on 72-02147A, but she then realized that the "diversion rate" was wrong and she had never noticed that before. She provided documentation that showed she owned 126 AFA. She then had to object to the B and C portions' diversion rates as well.

She also objected to the Place of Use on 72-02147A and 72-02149E, claiming that historically, the different storage rights had been used on either of her properties, as needed...

Anyway, I kept copies of the Objections for my files and sent her to the court with the originals and copies to mail to the other parties. I just wanted to let you they'll be coming.

Dear Mrs. Green,

This letter is in response to the Notices of Error (NOEs) you recently filed with IDWR regarding the Director's proposed recommendations of the claims listed above. Your NOEs questioned the size of the Places of Use, and being able to use your storage rights at either location (Section 17 or 28).

I have re-drawn the areas on the GIS maps as we discussed. This allowed me to change my recommendations and include some additional acreage.

As for your storage rights, they were not claimed showing both properties so could not be recommended that way. After the Director's Report is issued, you can file a motion with the court (SF4 enclosed) to amend the claims and we may be able to change our recommendations after the amendments are filed. (If this will be a new use and hasn't been used this way before, you may be able to accomplish the same thing by filing a transfer.)

I have enclosed new GIS print-outs for your records and also copies of profile reports showing the changes. You should be receiving the actual Director's Reports around the first part of February, which will reflect these corrections.

The two springs up at Mosquito Flat (72-10249 and 72-10252) are still being recommended for disallowal. If you disagree with any of our recommendations to the court, you may file an objection. The process will be explained with your Final Recommendation.

Sincerely,

Jeanie Robertson
Senior Water Resource Agent

of Section 28 was irrigated with sprinklers under gravity
pressure of only about 5-7 psi. The water distribution was
very poor and the irrigation was inadequate.
