Subject: Re: Dale Property up at Bear Creek...

Hi Jean,

Boy you got quite the job, when you took on Custer County. Looking back in the records I see that Joyce Smith sold Tract 87-18 and Tract 77-27 to Connie. Tract 87-18 was 27.710 acres and considered the whole thing. Tract 77-27 was a 1.5 homesite acre. Later Connie had another parcel split out, called Tract 94-29 (10 ac) which left 3 parcels. 77-27, 94-29 and the original 87-18. In February of 1996, Mr. Dale approached Bob Savage and ask him to combine the entire group, so he did. Everything was moved back to one parcel number called 87-18 for 29.21 acres. ONLY IN CUSTER COUNTY. Hope this helped.

Have a nice day.

RE: Evidence of Priority

RESPONSE DEADLINE

MAY 1, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. **The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, proof must be provided supporting the priority date you have claimed.**

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by **May 1, 1992**, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.
Water Rights Supervisor

Dear Mr. and Mrs. Dale,

Enclosed is your revised Director's preliminary recommendation of the right listed above based on the amendment of the original claim.

I have also removed reference to the point of diversion in the NESWNE of Section 6 (lower ditch) from your other recommendations as it appears you only divert from the upper ditch.

If you have any questions, please feel free to contact me at the office.

SPECIAL CLAUSES

18. #(A-6) Late Payment Interest Charge

Pursuant to the Federal Claims Collection Act of 1966, as amended, 31 USC 3101, et seq., and regulations at 7 CFR Part 3, Subpart B, an interest charge shall be assessed on any payment not made by the payment due date. Interest shall be assessed using the most current rate prescribed by the United States Department of the Treasury's Fiscal Manual (TFM-6-8025.20). Interest shall accrue from the date the fee payment was due. In addition, certain processing and handling administrative costs may be assessed in the event the account becomes delinquent and added to the amounts due.

A penalty of 6 percent per year shall be assessed on any payment overdue in excess of 90 days from the payment due date.

Payments will be credited on the date received by the designated collection officer or deposit location. If the payment due date(s) falls on a nonworkday, the interest and penalty charges shall not apply until the close of business of the next workday.

19. #(A-9a) Fees

The fees due the United States for this use shall be deposited with the Unit Collection Officer, Forest Service, Intermountain Region, File 61657, P.O. Box 60,000, San Francisco, CA 94160-1657, in the form of check, draft, or money order made payable to "Forest Service, USDA". Payment is due December 31 of each year and is not subject to refund.

20. #(B-8) Indemnification of United States

The holder shall indemnify the United States against any liability for damage to life or property arising from the occupancy or use of National Forest lands under this permit.

21. #(B-24) Risks and Hazards

Avalanches, rising waters, high winds, falling limbs or trees, and other hazards are natural phenomena in the Forest that present risks which the holder assumes. The holder has responsibility of inspecting the site, lot, right-of-way, and immediate adjoining area for dangerous trees, hanging limbs, and other evidence of hazardous conditions and, after securing permission from the Forest Service, of removing such hazards.

22. #(B-26) Health, Safety, and Environmental Protection

Holder shall take all measures necessary to protect the health and safety of all persons affected by its activities performed in connection with the construction, operation, maintenance, or termination of the right-of-way, and shall promptly abate as completely as possible any physical or mechanical procedure, activity, event, or condition, existing or occurring at any time: (1) that is susceptible to abatement by the holder, (2) which arises out of, or could adversely affect the construction, operation, maintenance, or termination of all or any part of the cultivated area, and (3) that causes or threatens to cause: (a) a hazard to the safety of workers or to public health or safety, or (b) serious and irreparable harm or damage to the environment (including but not limited to areas of vegetation or timber, fish or other wildlife populations, or their habitats, or any other natural resource). Holder shall immediately notify the authorized officer of all serious accidents which occur in connection with such activities.

23. #(B-31) Area Maintenance

The permitted area will be maintained to present a clean, neat, and orderly appearance. Trash, debris, unusable machinery, improvements, etc., will be disposed of currently. Building materials, firewood, etc., will be neatly stacked.

24. #(D-1) Refuse Disposal

The holder shall pack out or otherwise remove from National Forest lands and waters all refuse resulting from operations under this permit.

25. #(D-3) Esthetics

The holder shall protect the scenic esthetic values of the area under this permit, and the adjacent land, as far as possible with the authorized use, during construction, operation, and maintenance of the improvements.

26. #(D-8) Erosion Control, Cultivation

Cultivation practices satisfactory to the District Ranger will be employed in order to provide suitable rotation and other measures for prevention of erosion and preservation of soil fertility.

27. #(D-23) Pesticide Use

Pesticides may not be used to control undesirable woody and herbaceous vegetation, aquatic plants, insects, rodents, trash fish, etc., without the prior written approval of the Forest Service. A request for approval of planned uses of pesticides will be submitted annually by the holder on the due date established by the authorized officer. The report will cover a 12-month period of planned use beginning 3 months after the reporting date. Information essential for review will be provided in the form specified. Exceptions to this

schedule may be allowed, subject to emergency request and approval, only when unexpected outbreaks of pests require control measures which were not anticipated at the time an annual report was submitted.

Only those materials registered by the U. S. Environmental Protection Agency for the specific purpose planned will be considered for use on National Forest System lands. Label instructions will be strictly followed in the application of pesticides and disposal of excess materials and containers.

28. #(E-2) Long-Term Use

Unless sooner terminated or revoked by the authorized officer, in accordance with the provisions of the authorization, this authorization shall expire and become void on December 31, 1998, but a new special-use authorization to occupy and use the same National Forest System land may be granted provided the holder will comply with the then-existing laws and regulations governing the occupancy and use of National Forest lands and shall have notified the authorized officer not less than two months prior to said date that such new authorization is desired.

29. #(H-1) Fencing Permission

No fences shall be erected upon the premises, except by written permission of the authorized officer.

30. #(H-3) Live Trees and Fencing

All fences constructed under this permit will only be attached to posts and not to live trees.

31. #(X-3) Implied Permission

Nothing in this permit shall be construed to imply permission to build or maintain any structure not specifically named on the face this permit, or approved by the authorized officer in the form of a new permit or permit amendment.

32. #(X-14) Services Not Provided

This permit is for the occupancy of land for the purposes stated and does not provide for the furnishing of road maintenance, water, fire protection, or any other such service by a Government agency, utility, association, or individual.

33. #(X-18) Superseded Permit

This permit supersedes a special-use permit designated to James B. Smith on July 23, 1970.

34. #(X-19) Area Access

The holder agrees to permit the free and unrestricted access to and upon the premises at all times for all lawful and proper purposes not inconsistent with the intent of the permit or with the reasonable exercise and enjoyment by the holder of the privileges thereof.

35. #(X-33) Improvement Relocation

This permit is granted with the express understanding that should future location of United States Government-owned improvements or road rights-of-way require the relocation of the holder's improvements, such relocation will be done by, and at

the expense of, the holder within a reasonable time as specified by the authorized officer.

36. #(X-43) Notification of Sale and Transfer of Ownership of Improvements

The holder is not required to obtain the consent of the Forest Service to the sale of permitted improvements. However, the holder shall immediately notify the Forest Supervisor when a sale and transfer in ownership of the permitted improvements is planned. There is no obligation on the part of the Forest Service to issue a special-use authorization to the person(s) acquiring the improvements.

37. #(X-49) Nonexclusive Use

This permit is not exclusive; that is, the Forest Service reserves the right to use or permit others to use any part of the permitted area for any purpose, provided such use does not interfere with the rights and privileges hereby authorized.

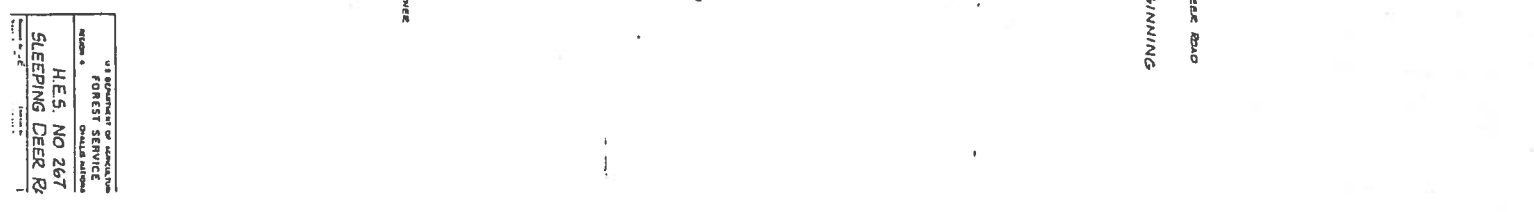

38. #(X-96) Disputes

Appeal of any provisions of this authorization or any requirements thereof shall be subject to the appeal regulations at 36 CFR 251, Subpart C (54 FR 3362, January 23, 1989), or revisions thereto.
