Case No. 39576	)

_____	)	WATER RIGHT

THIS FORM MAY ONLY BE USED IF ALL PARTIES HAVE STIPULATED TO ALL ELEMENTS OF ONE WATER RIGHT AND MAY BE SUBMITTED AT ANY TIME FOLLOWING THE CLOSE OF THE STATUTORY RESPONSE PERIOD.

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; and they have been served with sufficient process, according to the law; and that they have appeared, prosecuted and defended their positions with regard to this water right dispute.

Instructions For Use

A copy of this water right as recommended in the director's report shall be submitted with this form. A statement shall accompany **each** element of a water right.

Elements where there has been no objection should be listed exactly as they appear in the director's report. The statement as to these uncontested elements shall state "as recommended in the director's report."

Contested elements that are the result of an objection filed with the court shall be accompanied by a statement fully describing all facts, documents, expert opinions and law which support the element of the water right (attach additional pages if necessary).

17876 US HWY 30
BLISS ID 83314

STOCKWATER	0.02	CFS
TOTAL QUANTITY:	0.15	CFS

THE APPROPRIATOR IS ENTITLED TO THE QUANTITY OF WATER DESCRIBED FOR STOCKWATER PURPOSES AT A POINT OF MEASUREMENT WHERE THE DELIVERY DITCH ENTERS THE PLACE OF USE, SO LONG AS THE QUANTITY DIVERTED AT THE POINT OF DIVERSION DOES NOT CONSTITUTE UNREASONABLE WASTE.

Required Statement: As recommended in the director's report, except that this SF5 provides for measurement of the quantity for stockwater at the place of use instead of the point of diversion. The description of the right in the director's report previously sought to quantify stockwater use outside the irrigation season at the point of diversion.

Required Statement: As recommended in the director's report.

On June 12, 1996, Special Master Haemmerle issued the Special Master's Recommendation Re: Basin-Wide Issue 12, which held that this further description was not necessary to define and/or administer de minimis stockwater rights; a motion for reconsideration is pending and efforts by the special master and the parties to identify an appropriate alternative to the further description of stockwater uses are currently underway. IDWR recommends portions of rights that meet the de minimis stockwater definition, such as the stockwater portion of this right, in the same manner as the de minimis stockwater rights. Pending the resolution of Basin-Wide Issue No. 12, this Standard Form 5 includes the description of stockwater uses by type and number of head above.

7. The period of year when the water is to be used is:

IRRIGATION	Irrigation Season
STOCKWATER	01-01 TO 12-31

Required Statement: As recommended in the director's report, except that the period of use for irrigation is described per the Court's decision on Basin-Wide Issue 5.

8. The legal description of the place of use or of the reservation is:

Review By IDWR

To speed up entry of a decree, the parties are encouraged to talk to the Idaho Department of Water Resources about their proposed settlement and have IDWR indicate its concurrence by signing the Standard Form 5.

Where all parties have signed, a Standard Form 5 may be filed with the court without the concurrence of IDWR. However, the parties must certify that they have served IDWR with a copy of the Standard Form 5 and that they have made a good faith attempt to resolve the matter with IDWR.

Within 14 days of filing a Standard Form 5 not containing an IDWR concurrence, IDWR shall file a statement of its position with the court.

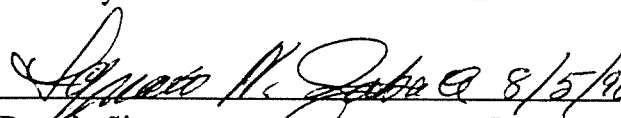

If IDWR has not concurred by signing below, signing parties certify that they have served a copy of this document on the Idaho Department of Water Resources and have made a good faith attempt to obtain IDWR's concurrence, but have failed.

The stipulation of the parties is attached hereto and incorporated herein by reference.
