RE: Evidence of Priority

RESPONSE DEADLINE
MAY 1, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, proof must be provided supporting the priority date you have claimed.

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by May 1, 1992, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.
Water Rights Supervisor

RE: Transfer Application for 72-07383 & 72-10171 (72-04228)

Dear Mr. & Mrs. Dowton,

Enclosed is the Application for Transfer for the above listed rights along with your check #2917 for the fees due. I discussed this Transfer with an agent here in our office who processes the applications and after reviewing the details it appears the situation can be resolved in the SRBA recommendation. I have also discussed the proposal at length with our staff attorney and we agree a SF5 should resolve all issues.

I can recommend all three claims as used within a Permissible Place of Use (PPU). This PPU will allow you to use the rights anywhere within the farming area as designated by the GIS shapes. It will not result in any less water being recommended. This was the end result of the transfer process but this is quicker and cheaper for everyone.

I will be calling Bill Myers to tell him of the change in the resolution of the Objections. If you have further questions on your water right then please feel free to call me.

Sincerely,

A handwritten signature in black ink, appearing to read 'Steve Clelland'.

COMMUNICATION DOCUMENTATION

From: Vikie Hancock

October 4, 1999

Regarding:

Sidney Dowton Claims Basin 72

Customer:

Gloria Romero
BLM

[illegible]

Gloria Romero, of the BLM, called to get information on some BLM land in Basin 72 that she believed was being irrigated by Sidney Dowton. They had served Mr. Dowton with a notice of trespass, and he was appealing. I found several claims in Mr. Dowton's name in the area that Ms. Romero was inquiring about, including a license issued by the Department in 1994. I sent her profile reports of the following AJ claims: 72-04069, 72-04228, 72-07383, 72-10171 as well as WR 72-07506. She said that the BLM thought that there was an irrigation well on BLM land that was supplying water to a pivot. I told her that all the claims we had in the area she identified as being close to the well claimed the Salmon River as source. She thought then that maybe what they were seeing was a pump, but not a well. I told her that Steve Clelland, of this office, had reviewed the claims and that if she had more questions about the system, he may be able to help her.

—

COMMUNICATION DOCUMENTATION

This form is to be used to document public record information requests regarding any SRBA claim or claims. The form may also be used to document IDWR communications requesting information regarding any SRBA claim or claims when the request is not made in writing or the claim verification report is not readily available to document the request. This form is to be filed in all relevant claim files or a central office file.

STOCK AMENDMENT

She wants to add a stockwater use to the Ellis Creek right, 72-04069. I told her the process and the need to file a SF4 with the amended claim. She can use a copy of the form I gave to her yesterday at our meeting. I will prepare the amended claim form and fax it to her. I told her how to edit the document if she finds errors in the form she receives via fax. Her fax is the same as the voice line, 876-4225.

Ellos Creek

72-4069

1/11/00
su

We agreed to add this ϕ_{01} 
to the Ellis Creek right 72-4069
and it will remain overlapped to some
degree with the license (7383) and the enlargement (10171).

$$Q = 21.2'' \quad (.42 \text{ cfs})$$

as per design of conservation plan of system.

COMMUNICATION DOCUMENTATION

She wants to meet with me to resolve the issues surrounding their claims... I agreed and told her I was currently reviewing their files to sort out what we discussed in Challis earlier. I welcome the chance to review this with them again to be sure I get the details accurate. We set an appt. for 1/11/00 at 8:30 am.

COMMUNICATION DOCUMENTATION

From: Vikie Hancock

Regarding:

Sidney Dowton Claims Basin 72

Customer:

Gloria Romero
BLM

[illegible]

Gloria Romero, of the BLM, called to get information on some BLM land in Basin 72 that she believed was being irrigated by Sidney Dowton. They had served Mr. Dowton with a notice of trespass, and he was appealing. I found several claims in Mr. Dowton's name in the area that Ms. Romero was inquiring about, including a license issued by the Department in 1994. I sent her profile reports of the following AJ claims: 72-04069, 72-04228, 72-07383, 72-10171 as well as WR 72-07506. She said that the BLM thought that there was an irrigation well on BLM land that was supplying water to a pivot. I told her that all the claims we had in the area she identified as being close to the well claimed the Salmon River as source. She thought then that maybe what they were seeing was a pump, but not a well. I told her that Steve Clelland, of this office, had reviewed the claims and that if she had more questions about the system, he may be able to help her.

Jones, Doug

Subject: dowton
Entry Type: Meeting 
Start: Wed 5/5/99 9:00 AM
End: Wed 5/5/99 1:30 PM
Duration: 4.5 hours

Claimants came in to talk to Steve about the recommendations for 72-04228, 72-04069, 72-10171, and 72-07383. They were referred to me.

We began by reviewing each right with regard to elements and possible problems. Each right appeared to have a concern with acreage and/or acre distribution. They also expressed some concern with priorities and point of diversion description.

I showed them where we had recommended the Salmon River PoD, since their layout did not show it. They described the point as where the headgate and side-channel spill are located. The recommended PoD appears to represent that point. The ditch which was extended upriver from the gate in the 70's or 80's to eliminate a check structure across the river. They were concerned about whether the gate or the ditch entrance was the "point of diversion". I had Allen Merritt consult with them on the matter. The Dowton's were concerned that work on the entrance of the ditch was not protected under IDWR rules governing the Stream Channel Alteration program. Allen provided a memo dated 1/14/1999 explaining that work in the ditch and entrance to the ditch appears to be exempt from SCA permit requirements. The Dowton's preference is that the PoD remain at the control structure so that the exorbitant losses between the ditch entrance and the control structure are not part of their right.

The priority date questions were apparently answered to their satisfaction except for the enlargement right - 72-10171. This right they feel may have partially been completed before the 1971 mandatory permit dates. I explained their burden to provide evidence of priority, etc. I suggested that they do their homework and at the first settlement conference indicate to us how they want their right(s) described.

The biggest area at issue is the number and distribution of acres in each 40-acre tract and under which right. I developed an alternative set of GIS polygons to describe their place. I attempted to isolate areas by delivery mechanism (flood vs sprinkler) and source. I believe they concur with the overall place of use included and boundaries for the polygons. We did not calculate acres per 40 yet. The layout is attached to file 72-04228.

The Dowtons wanted me to complete their objections for them. I explained the limitations I have in doing something like that and we talked about the form in general. I encouraged them to object to all the recommendations so that the whole picture could be fitted together. Some areas will be adjusted claim-to-claim so each is a contested matter.

CLAIM TO A WATER RIGHT

AUG 27 1980

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

The filing of this claim does not confirm the water right claimed by the claimant.

Notice is hereby given that Sidney M. & W. Karen A. Dawson
(Name of Claimant)
Box 1, Ellis, Idaho 83135 Telephone No. 876-2525
(Mailing Address) (Zip Code)

The nature of said claim is as follows:

follows:

(1) Date of priority: (When was the water first applied to a beneficial use) June 1, 1915

(2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
Ellis Creek tributary to Salmon River
 _____ has been used and the time during the year when you have used the right

(cfs, gpd, AFA)		(Domestic, Irrigation, Stock, Etc.)		(Mo., Day)		(Mo., Day)	
Quantity	1.15 cfs	Use	Irrigation	Period of Use From	April 1	To	Nov. 1
Quantity		Use		Period of Use From		To	
Quantity		Use		Period of Use From		To	
Quantity		Use		Period of Use From		To	
Quantity		Use		Period of Use From		To	
Quantity		Use		Period of Use From		To	

(4) Quantity 1.15 cfs TOTAL QUANTITY USED.
(cfs, gpd, AFA)

(5) A) Point of diversion: (Location of point where water is diverted from its source)
SW ¼ NW ¼, Sec. 26 Twp. 16N Rge. 26E B.M., County of Custer
 Additional points of diversion: _____

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change. ditch diversion from creek; private ditch, flood

(6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

[illegible]

No. of acres 29

B) If water is used for other than irrigation, fully describe that use, being as specific as possible:

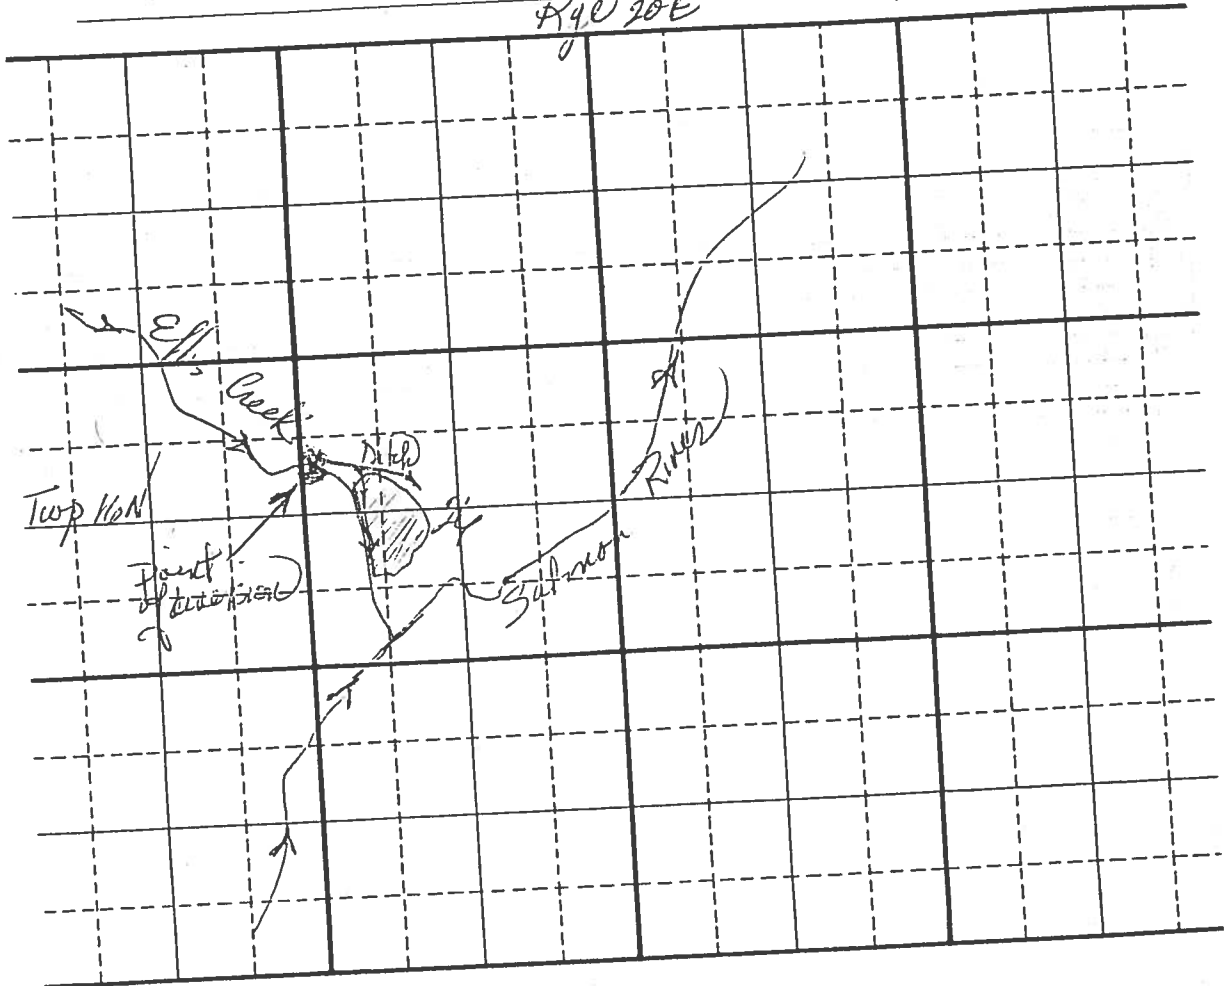

NOTE: Include here the type and number of stock watered:

(7) If you are claiming water as a member of an organization, list name of organization: _____

5/4/99 ~~TX~~

(8) Remarks

R4C 20E

Scale: 2 inches equal 1 mile.

Map should show the location of the point of diversion and the place of use of the water by 40-acre subdivisions, section, township and range of the public land survey system.

RE: Notice of Error/Objection for SRBA claims 72-04228, 72-04069, 72-07383 & 72-10171

Dear Mr. & Mrs. Hansen,

This letter is in response to the Notice(s) of Error (NOE) and the Director's recommendation of the claim(s) listed above. As I said during our phone conversation on 3/26/99 that due to the limited response time, you and I were unable to coordinate a resolution of your concerns before the Director's Report was filed with the SRBA court.

The recommended place of use (POU) was determined from aerial photos, field examinations and documents relating to your water right. I am still willing to review the details of the recommendation of your water rights whenever you and I can schedule another appointment.

If you still disagree with IDWR's recommendations, you should file an Objection to the Director's Report with the court. This Objection form is enclosed for your use. IDWR will work with you to resolve these disputed issues, including efforts to obtain additional data or information.

Please feel free to contact me at our office if you need further information.

Sincerely,

STEVE CLELLAND
Sr. Water Resource Agent

ENC:

COMMUNICATION DOCUMENTATION

This form is to be used to document public record information requests regarding any SRBA claim or claims. The form may also be used to document IDWR communications requesting information regarding any SRBA claim or claims when the request is not made in writing or the claim verification report is not readily available to document the request. This form is to be filed in all relevant claim files or a central office file.

APPT. FOR OBJECTION

She called to ask about the right listed from Ellis Creek... I told her how the rights were based on the claim and the field exam for statutory claims and how the recommendation can be objected to by her and her husband. She told me they are coming to TF on Monday and would like to meet and resolve these water rights; she says others are wrong also. I told her that would be the best way to discuss the claims and I am willing to review all the information they have to offer. I apologized for the short time available for responses in the NOE process but offered to meet with them and resolve the rights in the Objection phase. Claims: 72-04228, 72-04069, 72-07383 & 72-10171.

1/12/99
SC

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

SOIL TYPE	OPTIMAL ROTATION / (chart)	ACTUAL ROTATION / (field)	ACRES PER SOIL TYPE (field)	RATE PER ACRE (chart)	TOTAL DIVERSION RATE

RE: SECOND REQUEST EVIDENCE OF PRIORITY - CLAIM A72-04069

DEAR Mr. & Mrs. DOWTON,

YOU WERE ASKED TO SUBMIT SOME EVIDENCE OF PRIORITY FOR THE ABOVE WATER RIGHT AND THE INFORMATION HAS NOT BEEN RECEIVED IN THE INITIAL REVIEW OF YOUR CLAIM INVESTIGATION.

YOUR CLAIM IS CURRENTLY RECOMMENDED FOR DISALLOWAL DUE TO LACK OF EVIDENCE SUPPORTING THE PRIORITY DATE CLAIMED. AS EXPLAINED IN OUR PREVIOUS LETTER, BEFORE THE DEPARTMENT CAN MAKE A RECOMMENDATION TO THE COURT TO DECREE THE CLAIM, SOME EVIDENCE OF THE PRIORITY DATE MUST BE SUBMITTED. WE REQUEST THAT YOU SUBMIT YOUR EVIDENCE OF PRIORITY AS SOON AS POSSIBLE. IF WE DO NOT RECEIVE THE REQUESTED DOCUMENTATION, YOUR CLAIM WILL BE RECOMMENDED FOR DISALLOWAL IN THE DIRECTOR'S REPORT DUE TO LACK OF EVIDENCE SUPPORTING ANY PRIORITY DATE.

PLEASE SUBMIT THE REQUIRED EVIDENCE SUPPORTING THE PRIORITY DATE **WITHIN 30 DAYS OF THIS DATED LETTER**. PLEASE REFERENCE THE CLAIM NUMBER ON YOUR CORRESPONDENCE. IF YOU HAVE QUESTIONS OR NEED OTHER ASSISTANCE PLEASE CONTACT THIS OFFICE.

SINCERELY,

STEVE CLELLAND

AFFIDAVIT - WATER USE

RE: WATER RIGHT NO. A72-04069
SYDNEY M. AND/OR KAREN A. DOWTON

RECEIVED

JUN 28 1993

Department of Water Resources
Southern Region Office

STATE OF IDAHO)
 : ss.
County of Custer)

The undersigned, first being duly sworn, deposes and says as follows:

1. That I have resided all of my life in North Custer County, Idaho. I was born in 1907.

2. That I have a good knowledge of the area where the Sydney M. Dowton and Karen A. Dowton property is located. I lived on this property as a child. My parents did much of the initial clearing and development of the property. I can recall from my own recollection that Ellis Creek was being fully utilized by the year 1915. I have reviewed the attached Notice of Claim and believe it to be accurate to the best of my recollection and belief.

3. As a child I can recall the use of these waters for production of hay and other crops on the lands claimed and I am certain that this had been accomplished by the time I reached eight (8) years of age, and more likely the work was finished prior to that time. I state that from my personal knowledge the acreages and priority dates claimed appear to be accurate.

4. I state that the above is true and accurate.

DATED: June 8, 1993.

Anna E. Bennetts
Anna E. Bennetts

SUBSCRIBED and SWORN TO before me this 17th day of June, 1993.

James W. Bennett
