IDWR/NORTHERN

Per our phone conversation regarding the Idaho property RP54N05W153200A. This property is in my name but is owned by Michael and Suzanne Davis, My son and daughter in law. It was in my name as colateral for a private loan between us. The deed has been made out to them but has not yet been filed. I was in Spokane last summer for only 3 days and we got 2 of the 3 property deeds recorded but this one was in the bank and didn't have time to do it. There is a well on that property that was drilled just over the property line on this piece of property and that well is piped to the 2 residences on the other 2 adjoining properties Mike and Suzie own.

They will be in contact with you to get the proper paper work taken care of for the water rights. I will try to get to Spokane this summer and get the other deed out of the safety deposit box.

Thank you
Anita McNary Lahue

P.S. The deed was signed over to Mike & Suzie years ago. Just never got it transferred.
