RE: Evidence of Priority

RESPONSE DEADLINE

MAY 1, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. **The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit.** The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided supporting the priority date you have claimed.**

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by **May 1, 1992**, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.

RE: Water Right Claim Returned

Dear Mr. and Mrs. Saathoff:

The Idaho Department of Water Resources (IDWR) is returning your check #3163 (\$25.00) and Notice of Claim to a Water Right because of insufficient information. All items on the claim form must be correctly completed and fees submitted before the IDWR can process the notice.

Please complete or correct the claim form items identified below and return the form to the IDWR before the Custer County filing deadline, January 12, 1990. Failure to return the required information and filing fees before the deadline may result in an assessment of a \$50.00 late-fee in addition to the regular fee for each notice.

- A separate Notice of Claim must be completed for each water right - the domestic well and the irrigation from the East Fork Salmon River.
- The domestic well must be claimed on the green "short form." The filing fee for the domestic water right is \$25.00.
- The irrigation water right must be claimed on the black "long form." The filing fee for the irrigation water right is \$50.00 plus \$1.00 per acre.

I have enclosed the forms and instructions needed to claim the two water rights. If you have any questions, please call Tony Olenichak, Water Right Agent, at (208)-525-7161.

Sincerely,

Tony Olenichak

RE: Snake River Basin Adjudication (SRBA)
Claim Number: A72-04084

Dear Mr. and Mrs. Saathoff:

This letter is in response to your reply to our Notice of Error, received in this office on December 7th, 1998. I hope that I can better explain how the proposed recommendation for your adjudication claim was arrived at.

The document that you filed with the Department on December 11, 1989, was a claim for water use in our statewide adjudication of water rights, and as so, subject to further investigation. Your claim in the Adjudication was based upon a Statutory Claim dated from 1981. Historically, Statutory Claims were not investigated by the Department. By definition, they had not been verified by a licensing field exam or substantiated by a court decree. Verification of all water rights began with the Adjudication. For example, you were required to provide us with Proof of Beneficial Use, because up until that time, we had no evidence on file to prove the priority date you had claimed.

Further investigation found that your original Statutory Claim was for the irrigation of 2 acres with a diversion rate of 0.06 cfs. This agrees with Department policy allowing 0.03 cfs (or one and one-half inches) of water per acre on parcels less than five acres, and the legal limit of 0.03 cfs per acre allowed for sprinkler irrigation. Since your Adjudication Claim is for one irrigated acre, a diversion rate of 0.03 cfs per acre would be correct. It is also probable, that given your method of application, the capacity of your diversion works is close to that legal limit.

Unless you have additional evidence to provide, I will recommend your claim in our Director's Report to the SRBA Court as it currently appears. If you still disagree with my findings, you will have an opportunity to object to your recommendation with the Court at that time. Thank you for your timely response to our mailing. I can answer any further questions, please don't hesitate to contact me.

Sincerely,

Vikie Hancock
Water Resource Agent
