RE: Evidence of Priority

RESPONSE DEADLINE

MAY 1, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, proof must be provided supporting the priority date you have claimed.

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by May 1, 1992, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.

Re: Your Correspondence Dated March 2, 1992 to Carole
Sorensen

Dear Mr. Merritt:

This letter will confirm our telephone conversation earlier this morning regarding your March 2, 1992 correspondence to Carole Sorensen, at P. O. Box 146, Stanley, Idaho 83276, wherein you requested evidence of priority regarding water right claim numbers A72-04092, A72-04093, and A72-04094. You indicated that there would be no problem if the May 1, 1992, response deadline was not met, except that if there is no evidence of the priority date when you do the field review, you are obligated to disallow the claims. Specifically, said there would be no problem in extending the deadline to June 1, 1992.

You also indicated that you would insert a memo in your file regarding our conversation. In addition, so that our file will contain similar information, you agreed to countersign this letter. If this letter accurately reflects the substance of our telephone conversation this morning, please countersign it below and fax it back to our office at the number indicated on this letterhead. If this letter does not accurately reflect our conversation, please give me a telephone call or correct the letter as necessary and fax it back to me with your corrections.

AFFIDAVIT OF CAROLE K. SORENSEN
REGARDING NOTICE OF CLAIM NO. A72-04092
Department of Water Resources
Southern Region Office

STATE OF IDAHO,)
County of CLUSTER) ss.

CAROLE K. SORENSEN, being first duly sworn, deposes and states as follows:

1. This Affidavit is submitted to the State of Idaho, Department of Water Resources, in response to correspondence from Allen Merritt, dated March 2, 1992, regarding the need for evidence of the priority date corresponding to Notice of Claim Number A72-04092;

2. I make this Affidavit on my own personal knowledge;

3. The claimed priority date of January 1, 1916, is based on the following:

a) A Chronological Listing of Historical Highlights, Robinson Bar Vicinity, Upper Main Salmon River, Idaho, compiled by Art Selin, Recreation and Interpretive Specialist, Sawtooth National Forest Supervisor's office, dated January 1982, (a copy of which is attached hereto as Exhibit "A"). Therein it is noted that the hot springs and other water sources on my property were being put to beneficial use prior to December 8, 1894. Specifically, I call your attention to the entries dated December 11, 1894, December 14, 1897, August 25, 1900, January 7, 1902, and September 16, 1902. As is generally evidenced in those entries, the hot springs, well water and Warm Springs Creek water were being put to a beneficial use and, in fact, had been quite well developed, along with the rest of the resort, far in advance of the claimed priority date of January 1, 1916.

b) The U.S. Department of Agriculture, Forest Service, Field Notes, of Homestead Entry Survey No. 419 (copies of pertinent pages of which are attached hereto as

MICROFILMED

MAR 18 1993

Exhibit "B"). As you will note, the application for the survey was dated July 21, 1915; the survey was then actually commenced September 29, 1916, and completed September 30, 1916. As is indicated on page 10 and 11 of said Field Notes, in September of 1916 there were at least five irrigation ditches on the property. Accordingly, the Field Notes constitute further evidence that irrigation water was being put to beneficial use on my property sometime prior to September of 1916.

c) U.S. Patent, dated September 26, 1919, conveying the land described in the Homestead Entry Survey No. 419 (a copy of which is attached hereto as Exhibit "C"), again referencing "any vested and accrued water rights for mining, agricultural, manufacturing, or other purposes and rights to ditches and reservoirs used in connection with such water rights, as may be recognized and acknowledged by the local customs, laws, and decisions of courts").

4. This Affidavit and the above-cited documents constitute evidence that water was being put to beneficial use on my property for stock water, irrigation, heating, domestic and recreation purposes prior to the January 1, 1916 priority date which I have claimed. Although I obviously have not owned the property since 1916, it is my understanding that said water has been employed in the above-stated beneficial uses continuously since its use was initially established sometime prior to 1916.

DATED this 27 day of May, 1992.

INTRODUCTION

I spent January 6 and 7 in the Idaho State Historical Society reviewing microfilm of early newspapers that might contain information on early activities and transportation routes associated with Robinson Bar and Warm Springs Creek.

The following information is a chronological summary obtained through original research and from material previously compiled by Staff Historian, Larry Jones.

I have also included some additional material I compiled in April 1980 for another research report concerning the upper main Salmon River.

Exerpts are included in this chronological summary. Detailed information can be obtained from the Idaho State Historical Society newspaper files.

October 25, 1879 - The Yankee Fork Herald - Refers to hunting party "Their route lay down Yankee Fork and the Salmon to Robinson's Bar; thence up to the head of Warm Spring Creek, where they killed most of their big game".

May 1, 1880 - The Yankee Fork Herald - An article titled The River Trail describes a contract "to bridge the Yankee Fork at its junction with the Salmon". It goes on to state that "this will enable pack trains to come over the River trail much earlier than they can get across the range".

May 8, 1880 - The Yankee Fork Herald - An article refers to Robinson's Bar as also having returned many thousands of dollars since it was struck sixteen years ago. (The reference is to placer gold.)

October 2, 1894 - Challis Silver Messenger - "The stage is now making regular trips by wagon on the up-river route to Custer and Bonanza - the road having been put in repair".

November 6, 1894 - Challis Silver Messenger - "The state wagon road in Custer County is completed". It also states "the stage road from Challis to the Fork (Yankee Fork) is in good repair and stages get in on good time".

December 11, 1894 - A letter from Yankee Fork dated December 8, 1894, to the Challis paper states "the Medical Hot Springs near the town are famous for their many cures of rheumatism and other diseases incident to mining regions, and are a recognized sanitorium of many years standing".

August 27, 1895 - Challis Silver Messenger - The editor's trip to the various mines states "We took a seat in the Morrison and Waller stage line coaches, running from Challis to Custer, which makes close connections, etc..".

April 20, 1897 - Challis Silver Messenger - "John Mullen is out from Custer, and informs us that the stage wagon is running to Robinson Bar now, and in a few days will be able to run to the Jerry Flat, below Bonanza".

December 14, 1897 - Challis Silver Messenger - The article, A Trip to Custer, states "Our late trip to Custer was made on the Morrison and Co. Stage Line, where Nels, Sill and Joe Preston are driving, and when either of these men have the lines you feel a good degree of safety and will enjoy yourself as well as possible on a mountain road in winter. The roads in going up were

exceptionally fine for a coach up to the mouth of Yankee Fork, where we met snow enough for a sleigh,----". The same article describes a return trip "On the 6th we left Custer and went to the Robinson Bar Springs and enjoyed a bath in its waters. These Springs are of a superior quality, even for our mineral springs of Idaho. There, are on a small space of ground, three different kinds of hot mineral water, alkali, iron and sulphur. There is no other place in our State, that we know of, where such a splendid variety of medical water exists; and really, this is the finest resort for invalids, especially in summer - that we have ever seen; and, then, Mr. and Mrs. Williams, who are keeping it know just how to care for such a place. The iron water is better mixed than any of your druggists can do it, and the other kinds are strong in the qualities they carry. After enjoying the benefits of this resort for a day and night we boarded the Morrison stage and came down Salmon River to the Sullivan Springs--".

August 25, 1900 - The Blackfoot News - An article states "Two mineral springs, bathing resorts, have been built near Clayton and at Robinson Bar postoffice".

January 7, 1902 - Challis Silver Messenger - This ad runs for 1902 through 1904 as a minimum in the Challis newspaper. It is a Medical Hot Springs ad that describes "This pleasant mountain resort is situated at Robinson Bar at the junction of Warm Spring Creek, on Salmon River 18 miles above Clayton and 14 miles below Custer. These springs are of a nice temperature and of superior MEDICAL PROPERTIES----The advertisement goes on to include the statement "The sportsman will find better fishing and hunting grounds than in any portion of the nation, and those seeking pleasure will find this a very desirable spot. There will always be courteous attendants, and the proprietors invite all to come and see for their own satisfaction." The proprietor is identified as K. D. Williams.

March 4, 1902 - Challis Silver Messenger - A map appears on the front page which shows routes to the new Thunder Mountain mining discoveries. One of the routes is shown as the Salmon River route via Robinson. It is identified on the route map.

July 8, 1902 - Challis Silver Messenger - An article which tells about a "millionaire" living in the Stanley Basin refers to his postoffice as being at Robinson Bar. The article also describes the location of Robinson's Bar as being "where Warm Spring Creek, flowing from the south joins the Salmon River in the heart of Custer County."

September 16, 1902 - Challis Silver Messenger - "The new addition to the hotel at Robinson Bar is completed. The place now offers the best accommodations of any place of resort in Custer County. With an elegant dining room, commodious apartments, the table filled with the best of the market affords; game and fish abundant; "bar tracks" within a mile of the house; "best of the tap" at the bar, etc., and the finest hot baths in the land, all tend to make this the choice stopping place on the road."

February 9, 1904 - Challis Silver Messenger - An article on mining states "The group of mines mentioned lie near the source of Warm Spring Creek where over \$100,000 in placer gold was taken out in the early days at Robinson Bar".

State of Idaho Map, 1905 - This map is a Department of Interior General Land Office map, which was compiled under the direction of Frank Bond, Chief of Drafting Division. The map shows the wagon road system and it includes a route from Challis to Crystal to Clayton to Robinson and on toward Stanley Basin.

SHE WANTED TO KNOW WHAT OUR CURRENT POSITION WITH THESE RIGHTS WERE... I TOLD HER NEW EVIDENCE HAS BEEN SUBMITTED TO INDICATE THE BOARDWALK SPRING HAS BEEN IN USE AND IDWR DOES NOT HAVE ANY THING TO CONTRADICT THAT NEW EVIDENCE. WE DO NOT FEEL THERE IS SUFFICIENT RECORD TO SHOW FORFEITURE. I TOLD HER THE RECORD HAS CHANGED SINCE I SPOKE TO MR. JOHNSON WHEN THIS ALL BEGAN; IT COULD CHANGE AGAIN AS THE EVIDENCE IS PRESENTED UP UNTIL THE TIME IT IS DECREED.

Subject: CAROL KLEIN - SORENSON BASIN 72

TELEPHONE CONVERSATION MEMO:

YESTERDAY, 4/16/97, LATE AFTERNOON I RECEIVED A CALL FROM JEFF FEREDAY OF EVENS PUSLEY REGARDING A CHANGE OF NAME AND ADDRESS OF THE ABOVE MENTIONED PERSON. (I HAVE NOT LOOKED UP HER CLAIM NUMBERS). ANYWAY, TARA HAS BEEN SENDING CORRESPONDENCE TO HIM REGARDING WHAT HE NEEDS TO DO TO GET THE DOCUMENTS SENT TO HIM AND A GET THE CLAIMANTS NAME AND ADDRESS CORRECT.

JUST FOR YOUR INFO, THE CLAIMANT IS "THE" CAROL KING.

APPARENTLY THE ORIGINAL PAPERS FILED BY JEFF WERE CONFUSING SO THIS IS WHAT I TOLD JEFF FEREDAY TO DO, AFTER CHECKING WITH DON SHAFF (TECHNICAL) AND PETER ANDERSON (LEGAL).

THE INTENT OF THIS ATTORNEY AND CLAIMANT IS TO CHANGE HER NAME FROM SORENSON (SOLE OWNERSHIP) TO HER MAIDEN NAME OF KLEIN AND GET A CORRECT MAILING ADDRESS ON THE CLAIMS. JEFF WILL BE SENDING A NEW CHANGE OF ADDRESS FORM WITH SOME AFFIDAVIT OR LEGAL DOCUMENT SHOWING CAROL'S LAST NAME AS KLEIN. NO OWNERSHIP CHANGE HAS EVER BEEN DONE....NAME ONLY. PROBLEM 1

WHEN JEFF HAS ALREADY FILED A NOTICE OF APPEARANCE ON THE CLAIMS, HE IS ADDITIONAL COUNSEL ALONG WITH MILLEMAN & PITTENGER. MILLEMAN REPRESENTS CAROL ON ALL MATTERS AND JEFF WILL CO-COUNSEL ON WATER LAW ONLY. THAT MEANS WE WILL HAVE TO SERVE TO LEGAL FIRMS, BUT GUESS THAT IS COMMON. JEFF WILL EXPLAIN THIS IN HIS LETTER. PROBLEM 2

LAST, BUT NOT LEAST CAROL HAS FILED OBJECTIONS TO BASIN 72 FEDERAL INSTREAM FLOW CLAIMS. JEFF FEREDAY WILL BE CONTACTING THE ATTORNEY GENERAL'S OFFICE TO FIND OUT HOW TO HANDLE THE NAME AND ADDRESS CHANGE ON THE OBJECTIONS WITH THEM AND THE COURT. OUR LEGAL SECTION DOES NOT KEEP RECORDS OF THOSE FILED. CLAIM OBJECTIONS. PROBLEM 3

HOPEFULLY, JEFF FEREDAY WILL SEND THE LETTER AND PROOF OF NAME CHANGE IN THE NEXT FEW DAYS. I DID TELL HIM HE COULD SEND THE CORRESPONDENCE TO YOU. SINCE HE IS ADDITIONAL COUNSEL AND NO OWNERSHIP CHANGE HAS OCCURRED, BOTH DON AND PETER SAID THIS DOCUMENTATION SHOULD BE SUFFICIENT.

IF YOU DISAGREE OR HAVE QUESTIONS, PLEASE CALL ME AT 327-7931.

THANKS FOR YOUR TIME. HAVE A NICE DAY!

RE: BOARDWALK SPRING INFORMATION; CLAIM NO. A72-04112

Dear Eric,

First, let me apologize for messing up your last name. I hope I have it right now... if not, please forgive me again and let me know the correct spelling.

Enclosed is the information relating to the Boardwalk Spring as we discussed by phone on 10/10/97. I have included the following copies from the file A72-04112:

1. Proposed recommendation of claim A72-04112. Limited to the heating use in the main lodge and the spring which supplies the water for this use.

2. Page 2 of the Claim Verification Report (CVR). Notes from the field exam on 6/14/1993.

3. Copy of the orthophoto quad map showing the recommended uses and located on the map. (These maps do not copy very well.)

4. Sketch by Steve Clelland. Shows the general layout regarding the springs observed during the field exam.

5. Two pages of scanned copies of the photos in the claim file. The first shows the Boardwalk Spring, the second shows the broken pipeline which carries some of the water from the spring to a meadow area.

If you have further questions or need additional information please feel free to contact me.

Sincerely,

STEVE CLELLAND

RE: Complaint of illegal water diversion from Boardwalk Spring

Dear Wateruser:

Our office has been notified of a potential illegal water diversion from a hot spring (locally known as Boardwalk Spring) located in SW $\frac{1}{4}$ NE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 34, Twp.11N, Rge.15E, B.M. (Please find copy of written complaint for reference) Our office understands the spring and diversion works are located on federal lands but the use is located on the Kline property.

We have researched our water right records and reviewed the Snake River Basin Adjudication (SRBA) field exams for the Sorensen (Klein) claims. Our review finds no water right or SRBA claim for this diversion. Since no right or permit exists in our records I request your cooperation in:

-identifying what water right covers the use of this spring if our records are not correct.

-do not divert water for use of this spring if you do not have a water right.

-&/or obtain a valid permit or water right for your use of this water.

Please respond to our office within 14 days of the date of this letter as to the status of the use of this water.

Please also note that to divert water in Idaho without a valid water right is illegal pursuant to §42-351, Idaho Code and subject to civil penalties of up to \$100 per day.

If you have questions regarding this matter please feel free to contact our office.

Sincerely,

Allen Merritt, PE

CALLBACK

RE:
HOT SPRINGS

HE WANTED TO KNOW IF CAROL KING HAD FILED FOR THE USE OF THE HOT SPRING AT THE "BOARDWALK" UPSTREAM FROM THE RANCH; HE SAYS THERE IS A NEW DIVERSION OF THE WATER VIA A 6 INCH PIPE. I TOLD HIM I DID NOT RECALL EXACTLY WHAT WAS RECOMMENDED FOR THE HOT SPRINGS TO MS. KING. I QUERIED THE WR DATABASE FOR ANY NEW APPLICATION AND COULD NOT FIND ANYTHING FOR THE NAMES SORENSON, KING OR KLINE, POSSIBLE NAMES USED BY MS. KING IN THE PAST. I TOLD HIM I NEEDED TO REVIEW THE AJ FILES TO SEE WHAT MY MAPS SHOW AND WHAT I HAD FOUND.

I CALLED HIM BACK AND TOLD HIM THERE WAS A SPRING BETWEEN THE "BOARDWALK" AND THE POOL THAT SUPPLIED HEAT TO THE LODGE AND THE OTHER RIGHT WAS FOR THE POOL ITSELF, CLAIMS A72-04112 & A72-04092. THERE WAS A SPECIFIC NOTE ON MY SKETCHES STATING NO CLAIM WAS FILED FOR THE "BOARDWALK" SPRING AND NO USE WAS FOUND THERE.

He wanted to know if the department has completed the "Claimants Notice of Name Change". The name of Sorenson will be changed to Kline.

I asked Trish if she rcvd. the above document. She said she remembers something along those lines and that the correction would be completed within 6-8 weeks (more or less). I conveyed this information to Eric.

RE: SORENSON PROPERTY

Dear Mr McMahan,

I have completed my research of the water rights and SRBA claims appurtenant to the Sorenson property. The following is a summary of what was claimed and is contained in the preliminary recommendation for the claims. Please recall that I cautioned about misconstruing the content of the preliminary recommendations for the SRBA claims.

In answer to your question about the place of use discrepancy on A72-04112, I spoke with Mr Clelland about it and he found only heating use and recommended the system capacity from the warm spring source for that system. He also stated that he was with the ranch manager at the time and is confident that he was shown the entire ranch and various water systems.

Enclosed are computer printouts of the Water Right database record (WR), adjudication claim (AJ), and preliminary recommendation (Prelim Rec) for each right stapled together. I have verified that your firm is the attorney of record for these claims (though it is not listed in the reports I have enclosed) and will receive any correspondence sent by IDWR or the court. However, I would ask that you review the mailing address for Carole Sorensen and forward corrections required under I.C. 42-1409(6). I have enclosed a form for this purpose.

If you have further questions please get in touch with me.

Takes 36 Hours to fill on average.

Small pool: 15' x 25' •
3' to 4' even, full slope.
fill time is 12 Hours.

We also discussed the timing of the AS process.

I informed him of the change in not allowing the
Flume Ditch as we discussed last summer and
I generally explained why.

$15' \times 25' \times 3.5' = 1312.5 \text{ ft}^3$
 Fill Time: 12 Hrs
 $Q = \frac{1312.5 \text{ ft}^3}{12 \times 3600} = 0.03 \text{ cfs}$

$30' \times 60' \times 4.5' = 8100 \text{ ft}^3$
 Fill Time: 36 Hrs
 $Q = \frac{8100 \text{ ft}^3}{36 \times 3600} = 0.06 \text{ cfs}$

GENERAL FORMULA:
 $Q = \left(\frac{\text{FILL HRS}}{\pi \text{ ft}^3} \right) \left(\frac{\text{hr}}{60 \text{ min}} \right) \left(\frac{\text{min}}{60 \text{ sec}} \right)$
 TOTAL FACILITY VOLUME = 9412.5 cu.ft.

Recommend the greater flow. $Q = 0.06 \text{ cfs}$

Pools were connected to the source in a series set up. Unknown why flow rates would be different. Eng G. said there were general estimates.
