RE: Evidence of Priority

RESPONSE DEADLINE

MAY 1, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. **The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit.** The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided supporting the priority date you have claimed.**

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by **May 1, 1992**, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.

AFFIDAVIT IN SUPPORT OF PRIORITY DATE: CLAIM A72-04121

STATE OF IDAHO)
 :ss.
County of Ada)

R. JOHN INSINGER, being first duly sworn under oath, deposes and says the following:

1. I am one of the owners, and the duly authorized representative of the Insinger Ranch (Boulder Creek Ranch which Claim No. A72-04121 pertains to. I made the statements in this Affidavit of my own personal knowledge as evidence of a May 1, 1963 priority date for the said claim of water right.

2. In June of 1974 after purchasing the property, it was obvious that the attachment, diversion and transfer system then in use for this claimed water right was inefficient and in need of serious repair. The system and water was still used in 1974, but the decision was made to make necessary repairs and upgrades the following year.

3. In the early summer of 1975 other family members and myself personally repaired and restored the two subject catch basins at the spring source, fitted a new pipe system and supplemental delivery system to the domestic use area, and constructed a new storage and bathing pool. We also designed

drainage from the storage pool to then be implemented and diverted for irrigation of the surrounding areas which had only been marginally effective prior to that time.

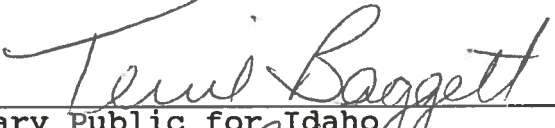

4. The poor condition of the diversion pools and delivery system in the summer of 1974 were obviously a result of degeneration over time and were consistent with statements of the prior owner that the subject spring had been used as a source of water for the ten (10) years prior to our purchase of the property in 1973; from my personal knowledge, I am able to state that the application and diversion of water as set forth in this claim has been undertaken on a continuous basis since June 10, 1974.

DATED This 24 day of April, 1992.

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

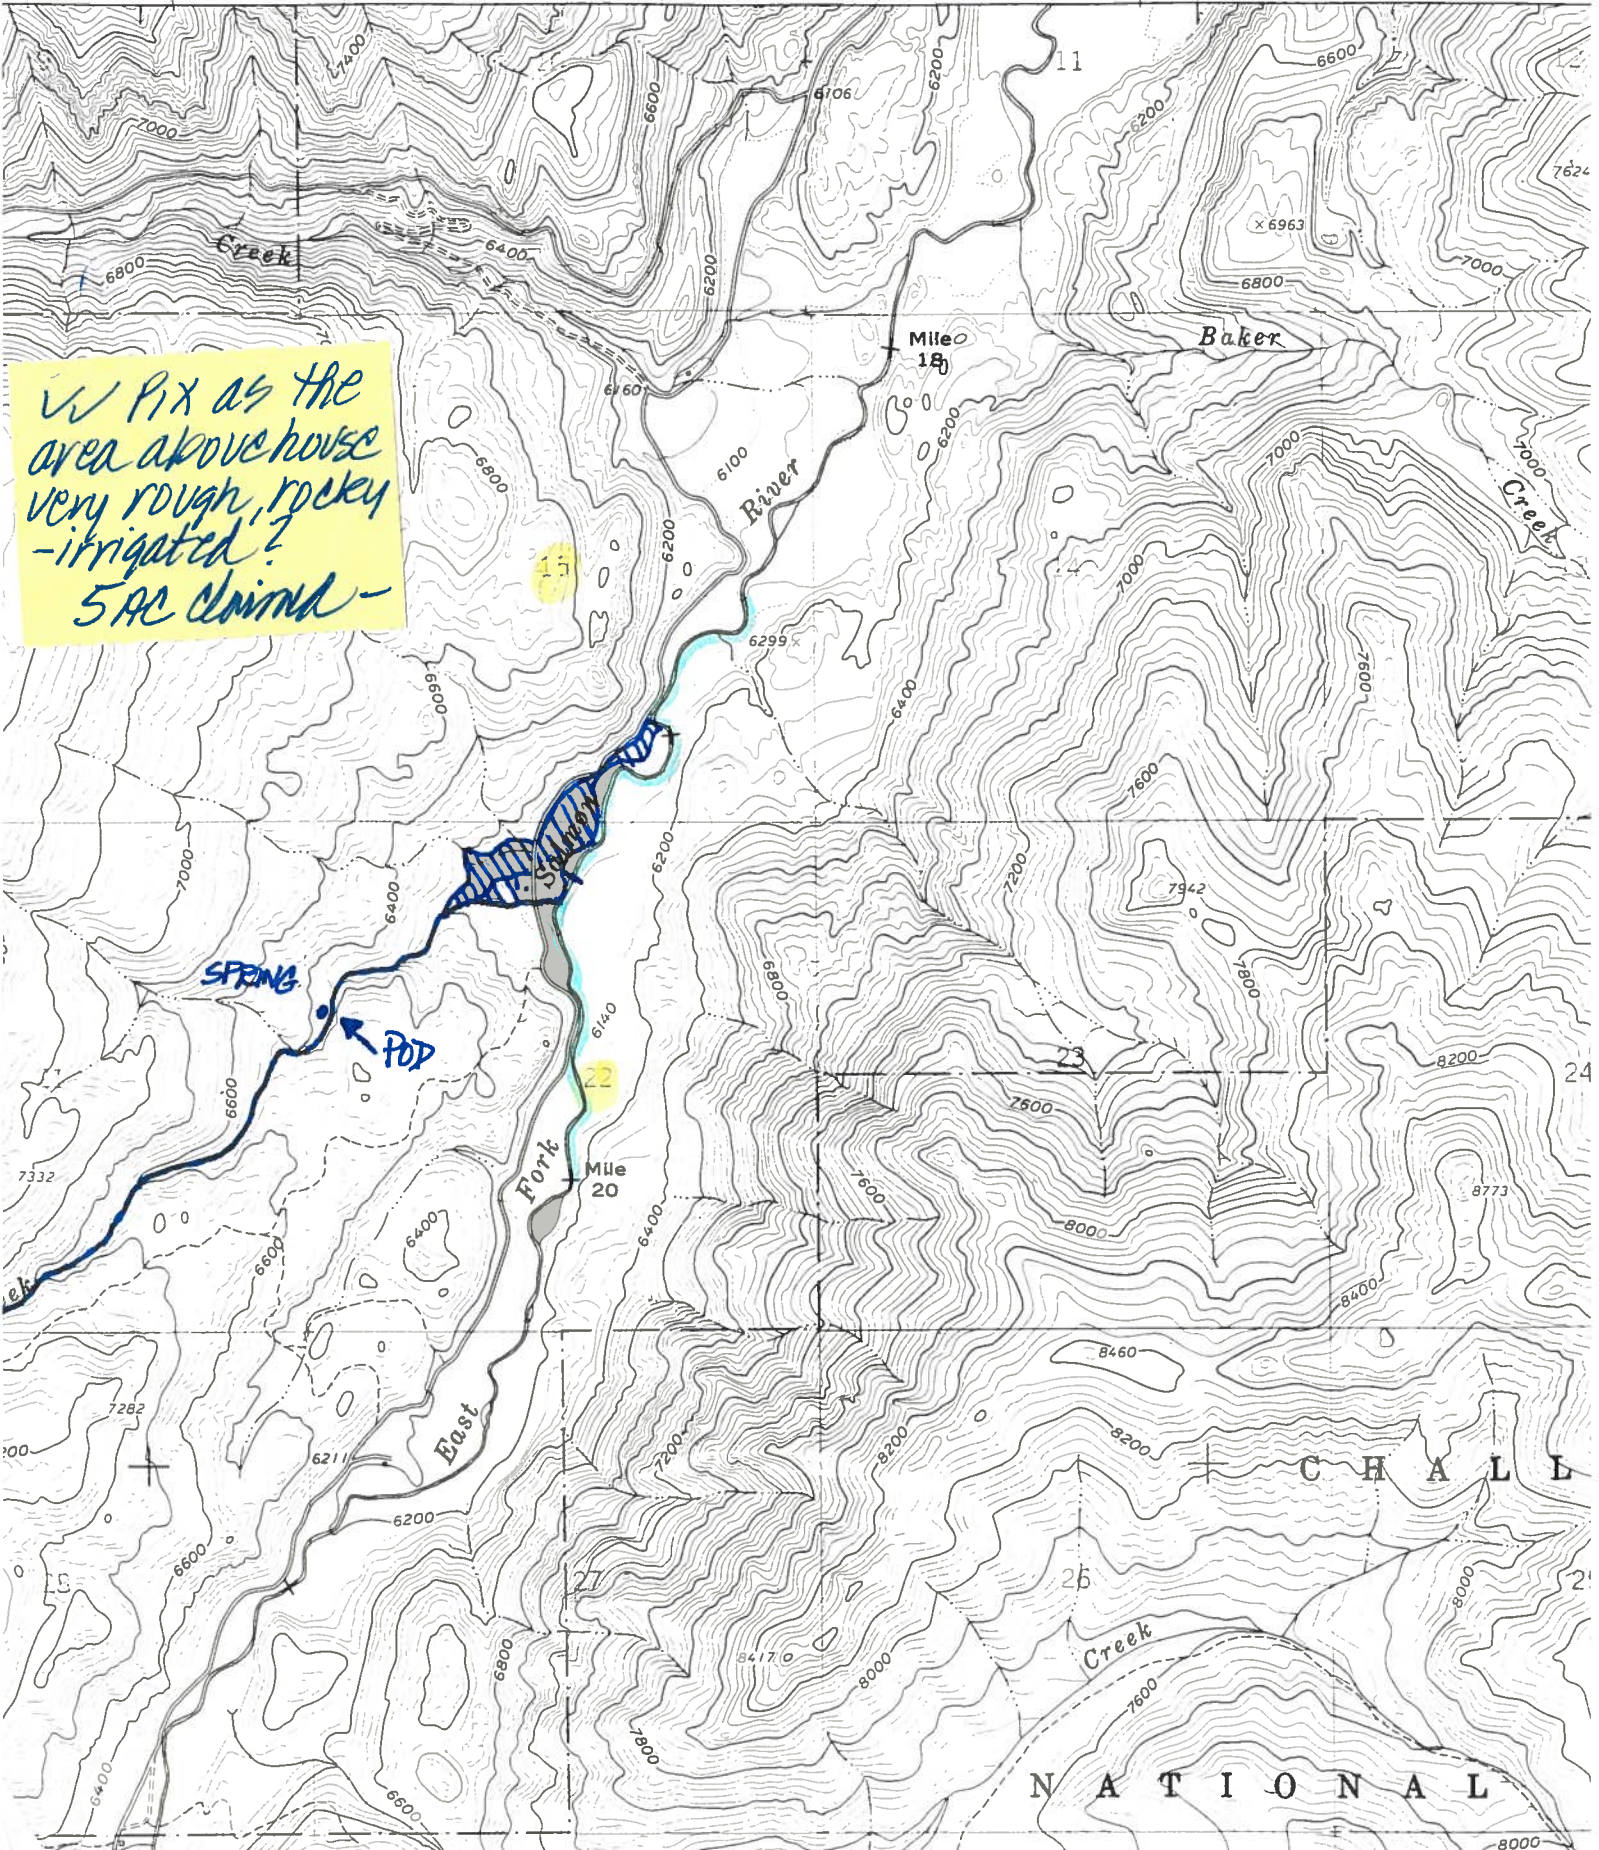

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.
- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
Unnamed Warm Spring tributary to Little Boulder, East Fork Salmon
