RE: **Evidence of Priority**

RESPONSE DEADLINE
MAY 1, 1992
****

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. **The date of first use, known as the priority date**, has not been confirmed by a License, Decree or Permit. The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided supporting the priority date you have claimed.**

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled **"Evidence of Priority"**. The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date"**.

Please submit the required evidence supporting the priority date(s) by **May 1, 1992**, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.

CHARLIE HONSINGER	**CALLS**	**TRANS. & SF5 72-4144x**

We have spoken several time over the last couple days, and I have discussed these claims with Sara Denniston, trying to resolve the Obj. and prepare a valid SF5. It was agreed the only change needed to the parts of 72-04144 (A-C-D) in order to sign off a SF5. Once the SF5 is done the rights are to be transferred to the Gini Ditch POD. I finished the data entry to the records and faxed them to Charlie at 342-4657. Sara will followup with the SF5 tomorrow after the record updates on our computer system.

It is my understanding all Objections are resolved for the Chesters & Lavertys.

11. **I object because:**

This water right should not exist.

This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION(S):

Claimant's reasons for claiming this priority date are as follows: Claimant and Claimant's predecessors in interest have historically irrigated the property in question since April 1, 1900.

Claimant's reasons for claiming this place of use and quantity are as follows: This water right was recommended as 12.2 acres and .85 cfs, which is approximately .07 cfs/per acre. Claimant has historically irrigated and continues to irrigate a total of 15 acres rather than the 12.2 acres recommended. Based on 15 acres, the quantity should be 1.0 cfs. (.07 cfs x 15).

Township 13 N Range 19 E Section 10 SW NW 13 acres; NW SW 2 acres; NE NW 15 acres; SE NW 10 acres; SE NW 9 acres. From Leaton and Hammond Ditch renamed Jose Ditch, Identification Number 72-04144.

I further certify that I am familiar with these farming grounds situated in Custer County, Idaho which are now owned and operated by the Ray & Gladys Laverty Family Trust; that I have been familiar with the said farming grounds for approximately 88 years and have witnessed the farming operations on this ground on numerous and varied occasions. During the course of my life in Custer County I have had the opportunity to observe this farm at least two to three times a week and it has always been irrigated during the irrigation season and it has always been green.

I have a special interest in this farm, I was born on this farm in 1910, my father Charles Barrett Jenson purchased this farm in 1898. He was married in 1890 and he and my mother resided on this farm, where he farmed and used the water described in ID # 72-04144 and ID # A72-10086 from the Salmon River. In 1920 through 1922 I personally irrigated this farm with water from the Salmon River. I further certify that in the years, I was growing up, I heard my parents discussing the usage of the irrigation water described above. I have lived in Custer County Idaho for 88 years, and have always been interested in the changes made to this piece of farm property.
