RE: FILING NEW CLAIM & PROOF OF PRIORITY DUE

NAME OF PARTY

MELISSA S. DuBois

(Doo-Burn)

She came in to the DWR office to submit change of ownership for A72-00032 E, A72-02147 B and A72-02149 H. She discovered this claim for "High Water" was not filed and chose to file it now.

I found some evidence of priority type information in the file for A72-00032 E and gave copies of the note from Laura Bishop to Mrs. DuBois. I gave her a pamphlet on Evidence of Priority and explained some of the examples of proof I have seen submitted.

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.
