(see instructions on back of page)

DATE OF CLOSING: 11/4/92

LEGAL DESCRIPTION OF PROPERTY: Township _____ Range _____
Section _____, 1/4 of _____ 1/4 of _____ 1/4, Govt. Lot _____, BM. } See Attached
Lot _____, Block _____, Subdivision/Townsite _____.
If you have additional legal descriptions, please attach separate sheet.

☐ Served Only by a Public Service Water Supply (all water is received from a city or company who maintains water supply system, owns the water right, and bills the customer on a regular basis)

☐ Water Right Number(s)
Assigned by IDWR: See Attached 492-001224 492-001225
492-040615 492-001111

☐ Name and Address of Former
Owner/Claimant(s)(Seller): _____

☒ New Owner/Claimant
(Purchaser): DAVID M. + DEBORAH K. WOOD

☒ New Mailing Address: P.O. Box 946
Challis Idaho 83226

☐ New Telephone Number: (208) 879-5360

☐ Does the change in ownership result in a splitting of the water right owned/claimed? yes ☒ no
If yes, then describe the portion of the water right that is now owned/claimed by the new owner:

☐ Attach proof of
ownership, describe
proof attached: Copies of Warranty Deed + Water Rights

(proof of ownership must describe either the property conveyed or include the claim number. Proof of ownership is not required if this form is signed by the former owner/claimant.)

☐ Signature of New
Owner/Claimant(s) David M. Wood Date 11/11/92
Deborah K. Wood Date 11-11-92

☐ Signature of Former
Owner/Claimant(s): _____ Date _____
_____ Date _____

(Signature of former claimant(s) is not required if proof of ownership is attached.)

RE: SNAKE RIVER BASIN ADJUDICATION CLAIMS: A72-00126A,
A72-04061B, & A72-07041B – NOTICE OF ERROR RESPONSE

Dear Deborah

RESPONSE TO A72-00126A

The point of diversion legal description that I recommended was based upon field verification of the physical location for this delivery system. Mike Shannon accompanied me for a portion of the field verification. Mike and the others sharing the ditch did not indicate that the location I identified was incorrect. Based upon the evidence I have, I do not expect to change the legal description of that point of diversion. If you wish to pursue this further you may wish to contact the other individuals that share the system as any changes that would be made would also affect them.

RESPONSE TO A72-04061B

The change in priority date from 4-1-52 to 4-15-52 was based upon the irrigation season standard that was in effect at the time the claim was originally recommended. The department has reviewed the season of use for the entire state and has made changes in some areas. Therefore, I am changing the season of use back to 4-1-52 as this is in conformation with department standards.

The point of diversion for this claim is the same as the one recommended above and the same issues that affect that right will affect this right. I do not expect to change the legal description at this time.

Page 2
Wood
December 22, 1998

RESPONSE TO A72-07041B

During my field examination I found a ditch that collects the waste water from the Shannon property beginning at the southern border of the Armbruster property. It was my understanding that this was the point where the waste water was first controlled and subsequently delivered to Armbruster's and your property. The correct point of diversion for water rights is the point where you first take control of the water. If I have missed something about Armbruster's and your system please explain what elements were missed. You may wish to work with the Armbrusters as any changes to your recommendation will likely affect their recommendation also.

Sincerely

Kelly K Christensen
Senior Water Resource Agent

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

SOIL TYPE	OPTIMAL ROTATION / (chart)	ACTUAL ROTATION (field)	ACRES PER SOIL TYPE (field)	RATE PER ACRE (chart)	TOTAL DIVERSION RATE

REMARKS:

The system does not exist as licensed. The original P/D has been split. and the delivery systems licensed does not currently exist. P/D is considered to be the point where the waste re-enters the abandoned property and the contour ditch that eventually enters the road property. The beginning of that ditch is where road initially takes control of the waste with the.

FIELD EXAMINER

FOU COUNTY: CUSTER

Total irrigated ground for Mr Wood was determined to be ~~2.5~~ ^{2.5} acres. (in Ambrose)
 The system is a collection ditch fed by runoff from Ambrose and
 a 6" pipeline from the end of the lower ditch to the collection ditch
 (All in Ambrose) the ditch enters the wood property at the south west corner
 & the property is flood irrigated from that ditch. He stated that he has
 irrigated the ~~2.5~~ acres with his domestic ground water system at times.

Mike Shannon

He was not sure how the decreed rights were transferred to the Johnny Smith Place. He would check around & obtain affidavit if he could.

We discussed his claims in general & he felt that he probably would not try to substantiate the 51M claim as there is more water claimed under 57 than there is acres. The rate for that claim alone will prob. be reduced. I did not do a field verification of the P/A for those claims at this time.

I took pictures of the dis points for the 'Klug' property. The first pictures were of the Dis point that supplied water to the Northern Part of the P/A. The second set covers the "lower" ditch on the south side of the P/A. This ditch also supplies water to Armbruster, Wood, King, Herbers rights.

The third P/D is the 'upper' ditch on the south side. The ditch was recently cleaned and was running at capacity; Both the ditch and the Parshall. This ditch is the original source for the waste water license for Wood/Armbruster.

Two pic of Johnny Smith div. diverting
.6" on staff gage. The ditch to Shannon's was not full,
9" throat. 5-18-93

POOR ORIGINAL

The exclusion specifically
identifies the P/A & 0.30 CFS
was owned by Hurler & King
warranty deed recorded
on 8-28-73

System description based upon diversion points to P/U.

Three P/Ds from Garden Creek were found.
(see map for numbering system) All three ditches supply water for the Shannon Claims with Garden Cr. as a source (A72-00124, A72-10297, & A72-04052).
Each Diversion also supplies water to another user or group of users.

P/D # 1 also supplies water to Bob Andrews (claim not filed as of 6-22-93)

P/D # 2 supplies water to the following users in order of use:

Hurless - A72-00125C

King - A72-00125B

Armbruster - A72-10017

A72-04061A

Wood - A72-00126A

A72-04061B

P/D # 3 is the original source for waste water claimed & previously licensed for:

Armbruster A72-07041A

Wood A72-07041B

The system from P/D # 3 that generated the waste water for A72-07041A & B is now being converted to sprinkler irrigation making the waste water no longer available. However this claim is being recommended as 5 years of non-use has

MICROFILMED
NOV 01 1999

not occurred. the ditch systems has the capacity to carry the combined total of each right, therefore, no capacity limitation is required. Some wastewater may be available from P/D #2 (end of ditch).

System Analysis for the Shannon Prop only:

Garden Cr. Claims A72-00124, A72-10297, & A72-04058.

John Gulch Claim A72-11763

As of commencement, all of the P/U covered by P/D #1 was under flood irrigation and the analysis for this ground was based upon flood irr. The ground east of the farmstead is currently being converted to gravity pressure, sprinkler irr with plans to add additional ground in the future to Gravity sprinkler. Spring water originating on the property west of the farmstead is also used for irrigation but was not claimed.

P/D #2 delivers water to a majority of the P/U South of Garden Creek. Approx 17 acres (see map) have historically been sprinkler irrigated (originally via a portable pump & now by gravity pressure) and has been recognized as such in the div rate analysis. The balance has historically been flood irrigated.

The ground on the east side of the P/U & south of Armbruster/Wood is now irrigated via gravity flood from this P/D but does not cover a lot of ground (has not determined). Some of this water would be available to Wood/Armbruster as waste water for their use.

MICROFILMED
NOV 01 1994

P/D #3 irrigates the ground furthest south and the pump system for sprinkler ire originated from this ditch. the end of this ditch has been converted to a pipeline (see map) in 1992 and the majority of the Ground (the 18 Acres in the NE SW Sec 31 is now sprinkler irrigated (gravity pressure).

Where the ditch crosses John Gulch is also the P/D for A72-11763. That system is that the ditch merely catches any water originating from John Gulch & carries the water east. Making the P/U for John Gulch water that Ground east of that point & South of Garden Creek. The Gulch ~~is~~ has several small seeps that generate water and reaches the ditch. As the ditch has the capacity to carry a greater rate than claimed, the claimed rate is the limiting factor. Mike Shannon stated that the seeps go down by the end of the season.

MICROFILMED
NOV 01 1994

Analysis of Unrecorded transfer & Preliminary Recommendations

Based upon warranty deed information. Watson Perry transferred more 1910 decreed water (72-00125 & 72-00126) than was originally decreed. The recording dates are as follows.

County recording date

10-14-89 Perry to Robinson for .20 cfs (deed 127800)

now Armbruster A72-10017 Recommended at .10 cfs

Wood A72-00126 A " " .10 cfs

7-17-73 Perry to McKissie for .30 cfs

based upon quit claim deed 135633

From Klug to Perry for the current claim 1/6

Now Hurless A72-00125C Recommended at .15 cfs

King A72-00125B Recommended at .15 cfs

8-28-73 Perry to Peck (deed 136037)

Now Shannon A72-10297 Recommended at 2.16 cfs

see also the attached flow chart.
