RE: Coeur d'Alene-Spokane River Basin Adjudication Claim No. 94-7951

Dear Mr. Reynolds:

I'm writing in regard to our telephone conversation of Monday, March 31, 2014 which we discussed your claim number 94-7951 and how it relates to the mailing you received on the filing of the federal reserved water rights.

I've enclosed a copy of the claim for your records. Nothing more needs to be done on this claim at this time. We anticipate that the Director's Report will go out on the claims in Basin 94 in approximately June of 2015 and we'll contact all the claimants in that basin prior to that time. This will give you the opportunity to ensure that it's being reported correctly.

In regard to the ¼ acre pond used for wildlife purposes – the source of water and method of construction will help determine whether it's necessary to file an application for permit. Depending on the situation; you may wish to file an application for permit because the permit system for establishing a water right became mandatory for uses developed from surface water after May 20, 1971 (except for watering stock directly from streams).

An Application for Permit form with instructions is enclosed. You may also access the Application for Permit form as a "fillable" PDF file on IDWR's website under Water Right Forms at the URL shown below.

http://www.idwr.idaho.gov/RulesStatutesForms/WaterRights/PDFs/Application_for_Permit.pdf

Please do not hesitate to contact me at (208) 762-2802 or by email at linda.werner@idwr.idaho.gov if you have any questions on your adjudication claim. I've also included a business card for Mr. Keith Franklin. He will answer any questions you have on the pond.

Sincerely,

Linda A. Werner
Water Resource Agent

Enclosure(s): Application for Permit Form w/Instructions
