Re: Water Right Nos. 37-7268, 37-7454, 37-7602 and 37-8679

Dear Mr. Peppersack and Mr. Clelland:

I appreciate the opportunity to have met with you and Steve Clelland, along with Idaho Deputy Attorneys General Meghan Carter and Emmi Blades, on April 7, 2014, to discuss the surface water remarks in the SRBA Director's Report Recommendations for Water Right Nos. 37-7268, 37-7454 and 47-7602. As you know, Steve Clelland has confirmed that those remarks originated from Transfer No. 70444, which involved the creation of a 489 acre permissible place of use for ground water Right Nos. 37-7454, 37-7602, 37-7268 and 37-8679 and the addition of approximately 31 acres in Lot 8 of Section 19, Township 6 South, Range 19 East, B.M. to the place of use for these rights.

It was through the approval process for Transfer No. 70444 that the following two (2) remarks became associated with these water rights due to the Big Wood Canal Company shares associated with the approximately 31 acres added to these water rights' place of use:

The right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under this right. The right holder shall limit the diversion of ground water under this right to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.

If the surface water right(s) appurtenant to the place of use is abandoned, forfeited, sold, transferred, leased or used on any other place of use, this right to divert ground water shall not be used without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.

Based on Transfer No. 70444, the Idaho Department of Water Resources ("IDWR") now has included these two remarks in its SRBA Director's Report Recommendations for Water Right Nos. 37-7268, 37-7454 and 37-7602. I enclose a copy of Big Wood Canal Company Stock Certificate No. 12816 provided to me by the Huysers which confirms that the only Big Wood Canal Company shares held by the Huysers are associated with the approximately 31 acres in Lot 8 of Section 19, Township 6 South, Range 19 East, B.M. As you will note from the enclosed certificate, the Huysers have only 25 shares in the Big Wood Canal Company which the certificate indicates corresponds to 1/80 of a cubic foot per second ("cfs") per share, or about 0.31 cfs for 25 shares.

As discussed at the April 7, 2014, meeting, the Huysers are concerned that the two remarks quoted above could be misinterpreted to apply to more of the 489 acre permissible place than just the 31 acres in Lot 8 of Section 19, Township 6 South, Range 19 East. At the April 7, 2014, meeting Mr. Peppersack explained that these two remarks are only intended to apply to the portion of the permissible place of use that also has surface water rights associated with it. Accordingly, Mr. Peppersack further explained that under the wording of these remarks, ground water Right Nos. 37-7268, 37-7454, 37-7602 and 37-8679 may be used on any acreage of the permissible place of use not having surface water rights, whether or not surface water is available for the approximately 31 acres having surface water rights.

For the record, I would request that IDWR includes copies of this letter in both IDWR's adjudication and water right files for all four of the above-referenced water right numbers. Thank you for your attention to this matter.

Sincerely,

HOFSTETTER LAW OFFICE, LLC
