I. FINDINGS OF FACT

Notices of claim were filed for the above-captioned water rights pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources (IDWR) examined the water system for this reporting area. The *Director's Report* contained a recommendation for the elements of these water rights.

On November 14, 2007, the claimant Wolf Springs Ranch filed an objection to the *Director's Report* for 37-13160. Water right claim 37-02066 was identified as an uncontested claim that may be affected by the outcome of a contested matter. On September 28, 2012, IDWR filed *Amended Director's Reports* for both claims. No objections were filed to the *Amended Director's Reports* and the time for objecting has expired.

It should be noted that the *Special Master's Recommendation* for 36-02066 attached hereto varies from the *Amended Director's Report* in that the *Recommendation* contains language regarding the Basin 37 Part 2 General Provision 1.A or 1.B. Water right 36-02066 is listed in the General Provision as being subject to separate administration. The language that has been added is the standard provision that has been placed on similarly situated water rights. Any party disagreeing with the addition of this language must timely file a *Motion to Alter or Amend* within 21 days from the date this *Special Master's Report* appears on the Docket Sheet. See *Administrative Order One*, section 13(a).

II. CONCLUSIONS OF LAW

Therefore based on the file and record herein, IT IS RECOMMENDED that water rights 37-02066 and 37-13160 be **decreed** with the elements as set forth in the attached *Recommendation for Partial Decree Pursuant to I.R.C.P. 54(b)*.
