WHEREAS, the named owners wish to enter into an agreement to govern the operation, maintenance, repair, improvement or replacement of a certain common well and related pipes, pump and delivery system within the described subdivision, and

WHEREAS, the parties wish to set forth their agreements regarding

MICROFILMED

these matters in this document, in full and in a fair degree of detail,

NOW, THEREFORE, In consideration of ^{18.500}~~20.00~~ in hand paid each party to the other, and in further consideration of the agreements and understanding herein contained, it is understood and agreed as follows, to-wit:

1. That the owners agree that they own or control the lands and lots or parcels to be affected by this agreement all as set forth above.
2. That the parties further agree that the well and pump which are the subject matter of this Agreement is located on Tract "A", Block 1, according to the Plat referred to above.
3. That a copy of a portion of the described Plat is attached as Attachment "A" with modifications which, for the purpose of this Agreement, show the well location and the approximate locations of certain of the delivery pipe or system. It is agreed that such copy is included in this Agreement as a part thereof, and shall govern the interpretation of any matters where appropriate.
4. That in most cases, the pipes are located within approximately ten (10) feet of the property boundary lines as illustrated, but if not so located, are still controlled by this Agreement.
5. That the parties agree that each gives to the other as needed or appropriate and reasonable an easement and right to all users to go upon his or her property for the purpose of the maintenance and repair or replacement of the well and lines as well as to monitor the proper operation of the same.
6. That the parties agree to establish a Homeowners Association to administer these agreements. Such Association shall have authority to set forth charges to be made by its membership and the method and means of payment of bills and all like matters relating to repair and maintenance of the system or day-to-day operation. That a majority of the lots represented that are other-

wise qualified to vote shall govern or determine all matters of day-to-day operation or repair and maintenance or replacement.

7. It is agreed that the parties shall be considered as owning the well on a pro-rata basis per lot and shall own and control the deliver system pro-rata with the others using the same system or portion of the system.

8. That the members shall have one vote for each platted lot owned or controlled by a member within those described so long as the owner thereof regularly contributes to the operating expense fund of the Association. It is agreed that the Association may permit certain lot owners to remain non-voting and inactive in regard to all lots which are not regularly in use. Such inactive lots may be classed active and voting within the Association at such time as they are using the facilities of the Association and start paying on a regular basis. Payment may be made a pre-requisite by the Association prior to hookup or use.

9. That portions of the delivery system in need of repair or replacement shall be repaired or replaced at the expense of those owners using such system on a per-lot basis only. Once the system extends beyond a party's hookup it shall become the responsibility of those using such system, and only those parties having responsibility of the upkeep on a portion of the system shall have a vote or say in the manner and method of the work done or to be done on that portion of the system.

10. That new members or lots may be brought into this Agreement on such rules and terms as the Association determines by proper vote so long as such agreements are set forth in writing and executed with some formality as this document. A majority vote shall rule.

11. That the Association may determine by majority vote all matters of operation including, but not limited to, the method of charging for water used, need for metering, allocation of costs, repair work to be done, the time
