This picture is looking north northwest and shows a well and the riser housing a pump that is connected to an 8,000 gal buried tank. They are located just south of the church. The original license reflected one well 1/2 mile west of the church. The legal description for the Point of Diversion was entered incorrectly.

info from Minnie Anderson - Custodian. (Long time)
The well does not produce enough to handle peak demand
therefore a storage tank is used to buffer the demand.
The well is 20 to 30 ft SW of the buried storage tank.
