EXHIBIT A 72-7193

I-9395

The United States of America

To all to whom these presents shall come, Greeting:

WHEREAS, In pursuance of the provisions of the Revised Statutes of the United States, Chapter Six, Title Thirty-two, and legislation supplemental thereto, there are now deposited in the Bureau of Land Management of the United States the Plat and Field Notes of Survey and a Certificate of the Land Office at Boise, Idaho, accompanied by other evidence whereby it appears that

Tuscarora Mining Corporation

has entered and paid for the CM#2, CM#3, CM#4, CM#5, CM#11, CM#12, CM#13, CM#14, CM#19, CM#20, and CM#21 lode mining claims, designated as Survey No. 3617, embracing a portion of Sections 34 & 35 in Township 12 north of Range 16 east and Sections 2 & 3 in Township 11 north of Range 16 east of the Boise Meridian, Custer County, Idaho, the said claims being more particularly described in the official field notes and depicted on the official plats which are expressly made a part of this patent and copies of which are attached hereto.

The lands involved contain 215.188 acres.

NOW KNOW YE, That there is therefore, pursuant to the laws aforesaid, hereby granted by the United States unto the said

Tuscarora Mining Corporation

the said mining premises hereinbefore described, and not expressly excepted from these presents, and all that portion of said veins, lodes, or ledges, and of all other veins, lodes, and ledges throughout their entire depth, the tops of apexes of which lie inside of the surface boundary lines of said granted premises in said survey extended downward vertically, although such veins, lodes, or ledges in their downward course may so far depart from a perpendicular as to extend outside the vertical side lines of said premises: PROVIDED, That the right of possession to such outside parts of said veins, lodes, or ledges shall be confined to such portions thereof as lie between vertical planes drawn downward through the end lines of said survey so continued in their own direction that such planes will intersect such exterior parts of said veins, lodes, or ledges; AND PROVIDED FURTHER, That nothing herein contained shall authorize the grantee herein to enter upon the surface of a claim owned or possessed by another.

TO HAVE AND TO HOLD said mining premises, together with all the rights, privileges, immunities, and appurtenances of whatsoever nature thereunto belonging, unto the said grantee above named and to its successors and assigns forever; subject nevertheless to the following conditions and stipulations:

FIRST. That the premises hereby granted shall be held subject to any vested and accrued water rights for mining, agricultural, manufacturing, or other purposes, and rights to ditches and reservoirs used in connection with such water rights, as may be recognized and acknowledged by the local laws, customs, and decisions of the courts. And there is reserved from the lands hereby granted a right-of-way thereon for ditches and canals constructed by the authority of the United States.

SECOND. That in the absence of necessary legislation by Congress, the Legislature of Idaho may provide rules for working the mining claims or premises hereby granted, involving easements, drainage, and other necessary means to its complete development.

IN TESTIMONY WHEREOF, the undersigned authorized officer of the Bureau of Land Management, in accordance with the provisions of the Act of June 17, 1948 (62 Stat. 476), has, in the name of the United States, caused these letters to be made Patent, and the Seal of the Bureau to be hereunto affixed.

WHEREAS

176719

Cyprus Thompson Creek Mining Company

is entitled to a mineral patent pursuant to the General Mining Laws, R.S. 2325, as amended; 30 U.S.C. 29, for the Debit and Debit No. 3 lode mining claims designated as Mineral Survey No. 3650, embracing a portion of Sections 34 and 35 in Partially Surveyed Township 12 North, Range 16 East, and Section 3, Township 11 North, Range 16 East, Boise Meridian, Idaho, the said claims being more particularly described in the official field notes and depicted on the official plat which are expressly made a part of this patent and copies of which are attached hereto; expressly excepting and excluding from these presents all that portion of the ground hereinbefore described embraced in CM #19, CM #20, and CM #21 lode claims, Mineral Survey No. 3617, and also all veins, lodes, and ledges, throughout their entire depth, the tops or apexes of which lie inside of such excluded ground.

The premises herein granted contain 40.145 acres.

NOW KNOW YE, that there is, therefore, pursuant to the laws aforesaid, hereby granted by the United States unto said Cyprus Thompson Creek Mining Company, the said mining premises hereinbefore described, and all the portion of said veins, lodes, or ledges, and of all other veins, lodes, and ledges throughout their entire depth, the tops or apexes of which lie inside of the surface boundary lines of said granted premises in said survey extended downward vertically although such veins, lodes, or ledges in their downward course may so far depart from a perpendicular as to extend outside the vertical side lines of said premises: PROVIDED, that the right of possession to such outside parts of said veins, lodes, or ledges shall be confined to such portions thereof as lie between vertical planes drawn downward through the end lines of said survey so continued in their own direction that such planes will intersect such exterior part of said veins, lodes, or ledges; AND PROVIDED FURTHER, that nothing herein contained shall authorize the grantee herein to enter upon the surface of a claim owned or possessed by another.

TO HAVE AND TO HOLD said mining premises, together with all the rights, privileges, immunities, and appurtenances of whatsoever nature thereunto belonging, unto the said grantee above-named and to its successors and assigns forever:

EXCEPTING AND RESERVING TO THE UNITED STATES a right-of-way thereon for ditches or canals constructed by the authority of the United States pursuant to the Act of August 30, 1890, 26 Stat. 391; 43 U.S.C. 945.

RE: Change in Notice of Appearance of Counsel on the Snake River Basin Adjudication Claims for Owen Ranches, Pioneer Irrigation District, Cyprus Thompson Creek Mining Company, Conversion Industries U.S.A., Inc. and Settlers Irrigation District

Dear Scott:

The five computer reports enclosed confirm the change in firm and address you requested in your letter dated February 13, 1992. By comparing these reports to the list you supplied with your letter, you will see not all of the water right claims listed in your attachments were changed. Those claim records not changed are filed by persons other than your client(s).

The possibility of questions I raised in our telephone conversation last week were resolved for my part. If you have any questions or need some points clarified, please feel free to contact me.

Thank you for supplying the claim lists in an orderly fashion.

Sincerely,

Donald V. Shaff
Manager, Adjudication Section

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

In Re SRBA	)	Subcase No. 72-07414
	)	
	)	MOTION TO AMEND LICENSE
Case No. 39576	)	
_____	)	

Thompson Creek Mining Company ("Thompson Creek") by and through its attorneys of record Elam & Burke, P.A., and in accordance with IDAPA 37.01.01.260 (IDWR Rule of Procedure 260) and Idaho Code § 42-224, hereby moves the Idaho Department of Water Resources ("IDWR") for an order amending the license for water right number 72-07414. Specifically, Thompson Creek seeks amendment of Condition Number 8 of the license for water right number 72-07414, which limits the total combined annual diversion volume for water rights 72-07414, 72-07193, and 72-07257 to 2916.0 acre feet.¹ Thompson Creek's position is that the

¹Thompson Creek is also filing a Notice of Change of Ownership for water right 72-07414.

combined annual volume limitation should pertain to the consumptive use component of the water rights, not diversion volume.

I.

PROCEDURAL BACKGROUND

On May 26, 1995, when permit number 72-07414 was licensed (License at Exhibit A to *Affidavit of Counsel*, filed concurrently herewith), the permit for that right had been assigned to N M Rothschild & Sons, Ltd. (Exhibit B to *Affidavit of Counsel*, filed concurrently herewith), solely as incidental collateral for a loan which was quickly repaid. When the license issued, the collateral assignment of the permit had not been removed, despite the loan repayment. Therefore, when the right was licensed, Thompson Creek did not have the opportunity to review and move to amend the license at that time. The Director/Manager of N M Rothschild & Sons Ltd., recently executed a quitclaim deed for water right number 72-07414, deeding the same to Thompson Creek Mining Company. (Exhibit C to *Affidavit of Counsel*, filed concurrently herewith).

Water right number 72-07414 was licensed on May 26th, 1995. (Exhibit A to *Affidavit of Counsel*, filed concurrently herewith). Thompson Creek filed its SRBA notice of claim for water right number 72-07414 in early 1990. (Exhibit D to *Affidavit of Counsel*, filed concurrently herewith).

II.

LICENSE NUMBER 72-07414 SHOULD BE AMENDED

Thompson Creek first became aware of Condition Number 8 to the license for 72-07414 during the course of SRBA proceedings regarding the SRBA claim for that water right, as well as

for SRBA claim numbers 72-07193 and 72-07257. On or about January 25, 1999, the IDWR Director issued his Director's Reports for those three rights. The Reports contained the following limitations regarding the quantity element:

SRBA Claim Number 72-07257: "Use of this right with right no. 72-07193 is limited to a total combined annual volume of 2916 AF."

SRBA Claim Number 72-07193: "Use of this right with right no. 72-07257 is limited to a total combined annual *diversion* volume of 2916 AF." (Emphasis added).

SRBA Claim Number 72-07414: "This right when combined with rights 72-07193 and 72-07257 is limited to a total combined annual *diversion* volume of 2916.0 AFY." (Emphasis added).

(Director's Reports at Exhibit E to *Affidavit of Counsel*, filed concurrently herewith).

A. Water Right Numbers 72-07193 and 72-07257

Counsel for Thompson Creek has reviewed the IDWR files pertaining to water rights 72-07257, 72-07193, and 72-07414 (*Affidavit of Counsel*, p. 2, filed concurrently herewith), and discovered several items which support Thompson Creek's argument that the combined annual diversion limitation on license 72-07414 should be amended to limit annual *consumptive use* volume instead of *diversion* volume.

Water right number 72-07193 was licensed on January 6, 1989. Condition Number 5 to that license provides that "[t]he maximum combined annual volume under this right & Right 72-7257 shall not exceed 2916.0 acre feet." (Exhibit F-1 to *Affidavit of Counsel*, filed concurrently herewith). Thus, the license is not clear which volume is to be limited. However, the Adjudication Claim Profile Report dated January 10, 1994, for the right includes a remark that "use of this right with right no. 72-07257 is limited to a total combined annual *consumptive use* volume of 2916 af." (Exhibit F-2 to *Affidavit of Counsel*, filed concurrently herewith) (emphasis

added). Similarly, the Adjudication Claim Verification Report dated June 6, 1992, refers to “*consumptive use* combined with right 72-07257, 72-07414. . .” (Exhibit F-3 to *Affidavit of Counsel*, filed concurrently herewith) (emphasis added). That Verification Report also contains a hand-written note on page 10 of the Report under a column titled “Rec. Cons. Use” which provides “in Remarks combined 2916.0 AF.” (*Id.*)

Similarly, the license for water right 72-07257 was licensed on January 6, 1989, and contains a condition that “[t]he maximum combined annual volume of water under this right & Right 72-7193 shall not exceed 2916.0 acre feet.” (Exhibit G-1 to *Affidavit of Counsel*, filed concurrently herewith).² Moreover, the Adjudication Claim Profile Report, dated December 21, 1993, includes a remark that “Use of this right with right no. 72-07193 is limited to a total combined annual *consumptive use volume* of 2916 af.” (Exhibit G-2 to *Affidavit of Counsel*, filed concurrently herewith) (emphasis added). On page 13 of the Adjudication Claim Verification Report for 72-07257, the “consumptive use” amount (right hand side of page) is 2916.0 AFA. That number is circled, and there is a note which states “to remarks as combined.” (Exhibit G-3 to *Affidavit of Counsel*, filed concurrently herewith). On page 14 of that document, “Item 8” provides “consumptive use combined with right no. 72-07414, 72-07193.” There is a handwritten note with an arrow pointing to those words, and the note states “rewrite as variation of E09 c.u. only.” (*Id.*)

All of those items, while pertaining more to the adjudication claim than to the license, show that IDWR’s intent, has been to limit the combined annual *consumptive use* volume, not

²As noted above, the limitation on the Director’s Report for 72-07257 was “total combined annual volume” and did not specify “diversion volume.”

diversion volume for those rights. Most telling, however, is a document entitled “Analysis of Water Requirements: Permits 72-7193 and 72-7257”, which seems to pertain to the permitting and licensing procedure. It discusses flow and consumptive use, and states in part that “[t]otal volume consumed per year: 2916 acre-feet.” (Exhibits H-1 and H-2 to *Affidavit of Counsel*, filed concurrently herewith). In fact, on the version of the analysis which is from the file regarding water right number 72-07257, the words “2916 acre-feet” are circled, with the words “consumptive use” written next to the circled text. (Exhibit H-2 to *Affidavit of Counsel*, filed concurrently herewith). Thus, with regard to 72-07193 and 72-07257, the combined annual volume limitation was intended to be a limitation on *consumptive volume*, not *diversion* volume.

B. Water Right No. 72-07414

The license for water right number 72-07414, which was issued on May 26, 1995, does provide that “[t]his right when combined with rights 72-07193 and 72-07257 is limited to a total combined annual diversion volume of 2916. af.” (Exhibit A to *Affidavit of Counsel*, filed concurrently herewith). The beneficial use report for 72-07414 is somewhat unclear. Item H therein is the “remarks and overlap review analysis”, and contains a statement that the right is “not to exceed 2916 AFA when combined with 72-7193 & 72-7257.” (Exhibit I to *Affidavit of Counsel*, filed concurrently herewith). However, it seems logical that if the volume limitation for 72-7193 and 72-7257 was for consumptive use, not diversion volume, that limitation would be the same for 72-07414.

C. Timing Issues

Had the license for 72-07414 been issued in Thompson Creek’s name, Thompson Creek could have moved at that time to have the license amended. However, the right was licensed in

the name of the entity to which Thompson Creek collaterally assigned the permit. It was only when the Director's Reports for the three rights discussed herein were issued that Thompson Creek became aware of the limitation. Due to the fact that N M Rothschild is headquartered in London, it took some time for Thompson Creek to secure the necessary quitclaim deed in order to have the ownership properly reflect Thompson Creek's name. Thompson Creek assumed that in order to move to amend a license, one must be the entity or individual listed as the owner of the right.

III.

THOMPSON CREEK REQUESTS A HEARING

Should the Department rule that it will not amend the license for 72-07414, Thompson Creek hereby requests a hearing, in accordance with the provisions of Idaho Code § 42-224.

CONCLUSION

The intent of IDWR has traditionally been that there be a 2916.0 acre feet combined annual *consumptive use* limitation for 72-07414, 72-07193, and 72-07257, rather than a combined annual diversion volume limitation. Therefore, Thompson Creek respectfully requests that the license for water right number 72-07414 be amended so that Condition Number 8 be amended to provide that "[t]his right when combined with rights 72-07193 and 72-07257 is limited to a total combined annual consumptive use volume of 2916.0 af."

OF THE STATE OF IDAHO

In Re SRBA	)	Subcase No. 72-07414
	)	
	)	AFFIDAVIT OF COUNSEL
Case No. 39576	)	
	)	
_____	)	

ANGELA D. SCHAER, being first duly sworn upon oath, deposes and says:

1. I am one of the attorneys of record providing legal representation to Thompson Creek Mining Company ("Thompson Creek") in its water right matters before the Idaho Department of Water Resources ("IDWR") and the courts of the State of Idaho. I have knowledge of the files pertinent to this matter, and I make this affidavit based upon personal knowledge.

2. On or about May 14, 1999, I traveled to the IDWR Southern Region office in Twin Falls and examined the IDWR files pertaining to Thompson Creek's water rights. I made or caused copies to be made of certain documents contained in those files. Certain documents were already contained in Thompson Creek's files at Elam & Burke.

3. Appended hereto as Exhibit A is a true and correct copy of the water right license for water right number 72-7414, issued on May 26, 1995, in the name of N M Rothschild & Sons Ltd.

4. Appended hereto as Exhibit B is a true and correct copy of the "Assignment of Permit", received in IDWR offices on February 23, 1994. By this document, Thompson Creek assigned permit number 72-07414 to N M Rothschild & Sons, Ltd.

5. Appended hereto as Exhibit C is a true and correct copy of the Quitclaim Deed executed by the Director/Manager of N M Rothschild & Sons Ltd. By this document, N M Rothschild quitclaimed State of Idaho Water Right Number 72-07414 to Thompson Creek. This document was executed in London, England, and a notary public was not available.

6. Appended hereto as Exhibit D is a true and correct copy of the Notice of Claim to a Water Right Acquired under State Law, filed for water right number 72-07414 by Cyprus Thompson Creek Mining Company.

7. Appended hereto as Exhibit E are true and correct copies of the individual Director's Reports for SRBA Claim Numbers 72-07414, 72-07257, and 72-07193. These Director's Reports were sent to counsel for Thompson Creek Mining Company.

8. Appended hereto as Exhibit F-1 is a true and correct copy of the Water Right License for water right number 72-07193. Counsel for Thompson Creek either copied or caused to be copied that document from the files of the Southern Region office of IDWR.

9. Appended hereto as Exhibit F-2 is a true and correct copy of the Adjudication Claim Profile Report for SRBA Claim Number 72-07193. Counsel for Thompson Creek either copied or caused to be copied that document from the files of the Southern Region office of IDWR.

10. Appended hereto as Exhibit F-3 is a true and correct copy of the Adjudication Claim Verification Report for SRBA Claim Number 72-07193. Counsel for Thompson Creek either copied or caused to be copied that document from the files of the Southern Region office of IDWR.

11. Appended hereto as Exhibit G-1 is a true and correct copy of the water right license for water right number 72-07257. Counsel for Thompson Creek either copied or caused to be copied that document from the files of the Southern Region office of IDWR.

12. Appended hereto as Exhibit G-2 is a true and correct copy of the Adjudication Claim Profile Report for SRBA Claim Number 72-07257. Counsel for Thompson Creek either copied or caused to be copied that document from the files of the Southern Region office of IDWR.

13. Appended hereto as Exhibit G-3 is a true and correct copy of the Adjudication Claim Verification Report for SRBA Claim Number 72-07257. Counsel for Thompson Creek either copied or caused to be copied that document from the files of the Southern Region office of IDWR.

14. Appended hereto as Exhibit H-1 is a true and correct copy of a document entitled "Analysis of Water Requirements: Permits 72-7193 and 72-7257. Counsel for Thompson Creek either copied or caused to be copied that document from the files of the Southern Region office of IDWR. Specifically, the document was copied from the file pertaining to water right/SRBA Claim number 72-07193.

15. Appended hereto as Exhibit H-2 is a true and correct copy of a document entitled "Analysis of Water Requirements: Permits 72-7193 and 72-7257. Counsel for Thompson Creek either copied or caused to be copied that document from the files of the Southern Region office of IDWR. Specifically, the document was copied from the file pertaining to water right/SRBA Claim number 72-07257.

16. Appended hereto as Exhibit I is a true and correct copy of the Beneficial Use Field Report for Permit No. 72-7414. Counsel for Thompson Creek either copied or caused to be copied that document from the files of the Southern Region office of IDWR.

EXHIBIT A

State of Idaho
Department of Water Resources

WATER RIGHT LICENSE

WATER RIGHT NO. 72-07414

Priority: July 28, 1988

Maximum Diversion Rate: 1.11 CFS
Maximum Diversion Volume: 803.6 AF

This is to certify, that N M ROTHSCHILD & SONS LTD

NEW COURT

ST SWITHINS LN

LONDON ENGLAND UK C4U 4-DU

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated July 28, 1988; and has submitted Proof of Beneficial Use on January 18, 1991. An examination indicates that the works have a diversion capacity of 1.110 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
INDUSTRIAL	01/01 To 12/31	1.11 CFS	803.6 AF
<u>LOCATION OF POINT(S) OF DIVERSION:</u>		SWNW , Sec. 2, Township 11N, Range 16E CUSTER County	

PLACE OF USE: INDUSTRIAL

TWN RGE SEC

11N 16E 12

NWNE

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. When water used under this right is discharged into the natural channel, settling ponds must be maintained which are capable of reducing the silt load to such a level that the quality of water will not be impaired for other beneficial uses.
6. Water used under this right if discharged into a natural channel or subsurface system shall meet Idaho Water Quality Standards.

State of Idaho

OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM

CIVIL CASE NUMBER: 39576
Ident. Number P-72-07414 A72-07414
Date Received 1-12-90
Receipt Number 0013965

NOTICE OF CLAIM
TO A
WATER RIGHT
ACQUIRED UNDER STATE LAW

Please type or print clearly

1. Name of Claimant (s) Cyprus Thompson Creek Mining Company Phone (208) 338-2200
Mailing Address c/o Bert Doughty, P.O. Box 62, Clayton, ID Zip 83227
2. Date of Priority (Only one (1) per claim) July 28, 1988
3. Source of water supply (a) Groundwater
which is tributary to (b) _____
4. a. Location of existing point of diversion is: Township 11N Range 16E Section 2,
NE 1/4 of SW 1/4 of NW 1/4, Govt. Lot, _____ B.M., County of Custer
Additional points of diversion if any: _____
b. If instream flow, beginning point of claimed instream flow is:
Township _____ Range _____ Section _____, _____ 1/4 of _____ 1/4 of _____ 1/4,
Govt. Lot _____ B.M., County of _____
ending point is: Township _____ Range _____ Section _____, _____ 1/4 of _____ 1/4 of _____ 1/4,
Govt. Lot _____ B.M., County of _____
5. Description of existing diversion works (Dams, Reservoirs, Ditches, Wells, Pumps, Pipelines, Headgates, Etc),
including the dates of any changes or enlargements in use, the dimensions of the diversion works as
constructed and as enlarged and the depth of each well. Sump on pit floor with pumps and 3"
pipeline to booster station. From there distributed to mine or mill for use as
freshwater through 3" metal pipeline. See Exhibit A

6. Water is claimed for the following purposes:

(both dates are inclusive)

(cfs)

(acre feet)

For industrial purposes from Jan 1 to Dec 31 amount 4 or _____

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

7. Total quantity claimed (a) 4 (cfs) and/or (b) _____ (acre feet)

8. Total consumptive use claimed is 2196 acre feet per annum. Combined with right
No. 72-07257, 72-07193

9. Non-irrigation uses; describe fully (eg. Domestic: Give number of households served; Stockwater: Type and number of livestock Etc.) Industrial use is associated with mining and milling of molybdenum ore.

10. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RNG	SEC	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals

REMARKS:

Failed to claim Storage component.

OK as claimed - Need to Notify Claimant & Lawyer.

Hawkes & Berg mentioned during exam

that the Co. was moving away from the use of Salmon L. water due to the
vertical expense of pumping. Could have intentionally left Storage paid out.

CLAYTON, ID 83227

has complied with the terms and conditions of the permit issued pursuant to Application for Permit dated March 11, 1983, and has submitted proof to the Department of Water Resources on July 11, 1983, that water has been applied to a beneficial use; an examination by the Department indicates that the works have a diversion capacity of 9.620 cfs of water from:

BRUNO CREEK tributary to SQUAW CREEK

source and that a water right has been established as follow:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>VOLUME</u>
INDUSTRIAL	01/01 to 12/31	9.62 CFS	
INDUSTRIAL STORAGE	01/01 to 12/31		1600.0 AFA
INDUSTRIAL FROM STORAGE	01/01 to 12/31		1600.0 AFA
	Totals	9.62 CFS	1600.0 AFA

LOCATION OF POINT OF DIVERSION(S): NESW , Sec. 25, Township 12N, Range 16E
CUSTER County

PLACE OF USE: INDUSTRIAL

TWN RGE SEC

11N 16E 12 NENE NWNE

PLACE OF USE: INDUSTRIAL STORAGE, same as INDUSTRIAL use

PLACE OF USE: INDUSTRIAL FROM STORAGE, same as INDUSTRIAL use

CONDITIONS/REMARKS:

1. The right to the use of water hereby confirmed is limited to the amount which can actually be beneficially used and is restricted and appurtenant to the lands or place of use and to the purpose herein described, as provided by the laws of Idaho.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

State of Idaho
Department of Water Resources

WATER RIGHT LICENSE

WATER RIGHT NO. 72-07257

CONDITIONS/REMARKS:

4. When water used under this license is discharged into the natural channel, settling ponds must be maintained which are capable of reducing the silt load to such a level that the quality of water will not be impaired for other beneficial uses.
5. The maximum combined annual volume of water under this right & Right 72-7193 shall not exceed 2916.0 acre feet.
6. Industrial use is for milling of ore.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 6th day of January, 1987.

Acting for the Director

POOR ORIGINAL

ANALYSIS OF WATER REQUIREMENTS
PERMITS 72-7193 AND 72-7257

Flow and Consumptive use

The two permits represent the water supply for the operation of the ore concentrator. At its maximum capacity of 35,000 tons of ore per day (per Jamie Sturgess during exam) the concentrator requires a water flow of approximately 30 cfs. In normal operation, all flows of Bruno Creek are diverted into the tailings impoundment and the concentrator uses water reclaimed from the tailings and seepage return ponds. The Salmon River pumping plant supplies water to make up the difference between the process requirements and the water supplied from Bruno Creek. If no water is available from Bruno Creek or in a startup situation, the Salmon River pumps have the capacity to supply the entire operating requirement until sufficient water is stored in the impoundments to operate the plant on reclaimed water.

Water balance information developed during the design of the tailings impoundment is based on a capacity of 25,000 tons per day. Adjustment of the water amounts estimated to be absorbed by slimes and sands by a factor of 1.4 gives the following estimates of water consumption at an operating capacity of 35,000 tons of ore per day:

WINTER OPERATION (274 days)

Flow consumed: 1890 gpm (4.21 cfs)
Volume consumed: 2239 acre-feet

SUMMER OPERATION (91 days)

Flow consumed: 1558 gpm (3.47 cfs)
Volume consumed: 627 acre-feet

Total volume consumed per year: 2916 acre-feet

Stored volume

The tailings impoundment is designed to be able to store a probable maximum flood event (PMF). This is estimated to be 1530 acre-feet in the design report. Additionally, the impoundment has capacity to store 160 acre-feet over any 10-day period. The design storage quantities justify licensing a quantity of 1600 acre-feet for industrial storage.

H. REMARKS AND OVERLAP. REVIEW ANALYSIS

site. all water used in the milling plant is cycled through the tailing pond. This permit water is a small part of the 9,000 gpm used in the mill under rights 72-7193, 72-7219, 72-7220 and 72-7257. The mill and this system operate 24 hrs per day. The system T&H varies at times depending on the operation. The pumping system was designed and rated at 500 gpm at 83' GPH. Recommended diversion is based on the rated flow and the volume on 24 hrs a day; 365 days a year. Diversion point is in different 10-acre tract than permitted, but is in same 40 - no amendment required. Not to exceed 2916 AFA when combined with 72-7193 & 72-7257. Recommend measuring-device requirement be waived; pump curve is adequate to determine flow rate.

I. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use From	To	Rate of Diversion Q (cfs)	Annual Volume V (afa)
Industrial	1-1	12-31	1.11 cfs	803.6 afa
Totals:			1.11	803.6 afa

2. Recommended Amendments

- ☐ Change P.D. as reflected above
 ☐ Add P.D. as reflected above
 ☒ None
- ☐ Change P.U. as reflected above
 ☐ Add P.U. as reflected above
 ☐ Other

SRBA CLAIM NUMBER 72-07414

**STANDARD FORM 1
OBJECTION
ATTACHMENT A**

The limitation stating that “use of this right with Right No. 72-07193 and 72-07257 is limited to a total combined annual diversion volume of 2916 AF” should be amended or eliminated.

SRBA CLAIM NUMBER 72-07414

**STANDARD FORM 1
OBJECTION
ATTACHMENT B**

This water right, as decreed, should include a remark confirming that water may be used for industrial, industrial storage, and industrial from storage purposes throughout the mine site.

SRBA CLAIM NUMBER 72-07414

**STANDARD FORM 1
OBJECTION
ATTACHMENT C**

Quantity

The Director's Report for this water right states that "[u]se of this right with Right No. 72-07193 and 72-07257 is limited to a total combined annual diversion volume of 2916 af." That limitation should be deleted or amended for the following reasons: (1) When Thompson Creek filed its Amended Notice of Claim for this water right, it listed the total consumptive use at 2916 acre feet per year. The requirement that a notice of claim include the annual consumptive use has now been deleted from Idaho Code section 42-1409. (2) Before it was amended in 1997, Idaho Code section 42-1411 stated that the Director's Report could include the annual volume of consumptive use and the annual volume of diversion of water. Obviously, the two were considered to be different elements. In 1997, Section 42-1411 was amended, as was Section 42-1409, to delete any reference to the annual volume of consumptive use. However, that does not mean that annual volume of consumptive use then became the same as the annual volume of diversion. (3) Similarly, the annual volume of consumptive use is not necessarily the same as the annual diversion volume. More water may need to be diverted than that which is actually consumed.

Place of Use

The water under this right is used throughout the mine site. Although the legal description for the place of use as set forth in the Director's Report is correct, Thompson Creek is requesting that the water right as decreed include a remark confirming that water may be used for industrial, industrial storage, and industrial storage uses throughout the mine site.

Re: Notice of Error for SRBA Claim Nos. 72-00133, -00135, -00136, -00137, 72-04159F, 72-07193, 72-07220, 72-07257, 72-07414 & 72-10488

Dear Mr. Campbell,

This letter is in response to the Notice(s) of Error (NOE) you recently filed with IDWR regarding the Director's preliminary recommendation of the claim(s) listed above.

Your NOE indicates the preliminary recommendations are incorrect but fails to point out the specific errors made in each right you addressed. Therefore, I am unable to respond to your NOE reply with any corrections or revisions due to the vague generality of the errors described on such a variety of claims.

Since it appears you are objecting to the right being recommended, your complaints may be better addressed in the Objection phase of the process. If you still disagree with IDWR's recommendations, you will have an opportunity to file an objection to the Director's Report with the court. When the Director's Report is filed with the court, you will be mailed a notice that will contain more information about the objection process.

Please feel free to contact this office or me if you have further questions or need additional assistance.

Sincerely,

A handwritten signature in black ink, appearing to read 'Steve Clelland', is written over the 'Sincerely,' line.

RE: Snake River Basin Adjudication (SRBA)
Change of Firm Affiliation of Counsel and
Change of Company Name for Thompson Creek
Mining Company

Dear Mr. Campbell:

A copy of a report documenting your change of address and affiliation is enclosed.

To process the name change for the company, please supply a copy of the document filed with the Secretary of State or other document verifying the change. If the property was conveyed to new owners, a change of ownership form (enclosed) could be completed and filed in lieu of any copy above.

IDWR records indicate a claim A72-04151 for Cyprus Thompson Creek Mining Company that was not included on the list you supplied. Please notify us if you will also represent your client for this claim also.

Thanks for keeping us informed. If you have any questions, please give me a call.

Sincerely,

Donald V. Shaff
Manager, Adjudication Section

Water right number - 72-07414

Prefix Translation:

WATER RIGHT

(Condition continued from previous page)
- and shall proceed diligently until the project is complete.

004 - The issuance of this right in no way grants any right-of-way or easement across the land of another.

016 - Prior to the diversion of water under this right a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

06A - In the event that water used under this right should be discharged into a natural channel, settling ponds will be required which are capable of reducing the silt load to such a level that the quality of the water would not be impaired for other beneficial uses.

09E - Water used under this right if discharged into a natural channel or subsurface system shall meet Idaho Water Quality Standards.

016 - See remarks for additional conditions of approval.
