To Whom It May Concern:

In March, 1991, I purchased lake property in Moscow Bay from Connie Roth. In addition to the cabin and lot, the purchase included ownership of the water pump used to irrigate the lawn.

When I sold the property to Mark & Heather Bowlby (present owners), the irrigation pump was part of the sale.

You may contact me directly if there is a need for anything further in this regard.

Cordially,

Oscar Steinley
