Re: Order Appointing Lateral Manager for Warm Spring Canal

Dear Gentlemen:

The Department of Water Resources (the department) has issued the enclosed preliminary order. Pursuant to Section 67-5243, Idaho Code, it can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

The enclosed order appoints Jack Challis of Challis, Idaho as the lateral manager. Mr. Challis currently serves as watermaster for Challis and Garden Creeks in Challis. Department staff familiar with the Warm Spring Canal will visit with Mr. Challis at the site sometime within the next several weeks. Mr. Challis has advised me that he will be in Boise on August 2nd for some minor surgery. As a result, Mr. Challis may not be able to begin duties until the second week of August.

Please contact me directly at 327-7864, or e-mail at tluke@idwr.state.id.us if you have questions or need further assistance concerning this matter.

Sincerely,

Tim Luke
Water Allocations

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF THE)
APPOINTMENT OF A LATERAL)
MANAGER FOR THE WARM) PRELIMINARY ORDER
SPRING CANAL)
_____)

The Director of the Department of Water Resources (Department), being charged with the duty of enforcing certain statutes of the state of Idaho and the rules of the department relating to appropriation and distribution of water, finds and orders as follows:

FINDINGS

1. The water users on the Warm Spring Canal diverting from Warm Spring Creek, located south of Challis in Custer County, have been unable to select a lateral manager as provided by law.
2. The water users are unable to distribute the water among themselves in a peaceful manner that is agreeable by all parties.
3. Idaho Code § 42-1308(1) provides that the Director of the Department of Water Resources may appoint a lateral manager upon written petition of a water user alleging that water is not being apportioned and distributed properly among the users from the ditch.
4. On April 18, 2000, the Department received a petition from Al Morganroth, a water right holder and user on the Warm Spring Canal, requesting appointment of a lateral manager for the ditch.

5. The Director has reviewed the petition and has provided written notice of the petition to all other persons having rights or an interest to the use of water from the ditch.
6. Representatives of the Department of Water Resources have inspected the Warm Springs Canal and have held a conference with the water users on the ditch to discuss the appointment of a lateral manager. The water users on the ditch support the appointment of a lateral manager. Recommendations based on investigation by Department staff further support the appointment of a lateral manager.

ORDER

NOW THEREFORE, pursuant to Idaho Code § 42-1308, I Norman C. Young, Administrator of the Department of Water Resources, do HEREBY ORDER and APPOINT Jack Challis, to serve as lateral manager on the ditch until November 1, 2000.

The lateral manager shall have the power to require the installation or maintenance of measuring devices for all water right diversions, and/or installation of monitoring devices, head gates and checks reasonably necessary to distribute the water between the waterusers.

IT IS FURTHER ORDERED that the lateral manager be compensated for services as follows: An amount of \$15.00 per hour plus mileage at 30 cents per mile. The manager's time shall not exceed 100 hours per month unless the users provide written consent for additional hours. Compensation to the lateral manager shall be divided evenly among the users and payable on a monthly basis as determined by the manager. Costs associated with installation or maintenance of measuring or monitoring devices shall be borne by the respective user for which such devices are necessary.

IT IS FURTHER ORDERED that the lateral manager may hire individuals to make measurements of the Morganroth pump and gravity flow pipeline systems on the canal above the Morganroth's upper hydro plant using portable flow meters that are not owned by or available to the manager. Pipeline measurements should be measured once to obtain information regarding system capacity, but may be made more frequently if necessary to ensure proper delivery of water. Compensation of individuals to measure the pipeline systems shall be divided

evenly among the users but shall not exceed a rate of \$75 per occurrence.

Dated this 27TH day of July, 2000.

Norman C. Young, Administrator
Idaho Department of Water Resources

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board ("Board") is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the

CERTIFICATE OF SERVICE

I do hereby certify that on this 28th day of July, 2000, the preceding Preliminary Order was served upon the following individuals by placing a copy of the same in the United States Mail, postage prepaid, certified with a return receipt and properly addressed as follows:

This form is to be filed in all relevant claim files or a central office file.

MORGANROTH

He called to remind me of the hearing on Friday and asked what we are going to do... I told him I have not been able to go over the info submitted to me at the hearings in Challis. I thought it would be part of the review later this spring when I do my exam at Morganroth's place. It is clear there have been substantial changes from the system I viewed in 1993 to what is represented by the BLM notes and shapefiles in the file. I told him I will contact Nick and tell him of my position.

GIS PLACE OF USE PRESENTATION
USFS AERIAL PHOTOGRAPHY, 1988
BY STEVE CLELLAND

DATE: NOV. 20, 1998

Recommendation review of Ingram water rights on Warm Spring Creek

SRBA Claims: A72-10141, A72-10142, A72-10143, A72-10144 & A72-04096
Permit: 72-07359 & SRBA claim A72-07359

11/20/1998
Steve Clelland

I accompanied Mel Schulte, IDWR, as he examined the systems for permit 72-07359. While he gathered information for the permit I was observing the systems to confirm the SRBA claims on file. We worked jointly throughout the day directed at times by Mr. Will Ingram.

Measurements: We measured the irrigation flows delivered from the power plant tailraces with polysonic equipment <See attached>. We measured the main diversion from Warm Spring Creek, the main canal to the power uses, using standard current meter equipment. The current meter measurements consistently resulted in about a 20.0-cfs flow reading. It contradicted the parshall flume installed by Mr. Ingram that read a flow of 28.0 cfs. During several exam visits to the property and flume, Mel Schulte indicates the flume could never be supported with other measurement techniques and he believed the flume reading to be in error. After reviewing the files and exam notes I agree with Mr. Schulte's finding of the flume. After reviewing all the measurements taken on the system, I find the best flows measured during the 1992-1993 seasons result in a total flow rate from Warm Spring Creek of 25.0 cfs.

The permit 72-07359 was filed and based on increased flow rates as a result of the Mt. Borah earthquake in 1983. Any increase in the flow of the spring appears to have been a temporary affect and is not supported by IDWR measurements.

POD's: Points of Diversion as claimed by Mr. Ingram in the SRBA appear to include several re-diversions of the same waters. Those PODs listed in the recommendation show diversions of actual live stream flows. Re-diversions are not listed in the recommendations.

POU & Acres: Place of use very closely matches that of the boundaries drawn by Mr. Ingram on the attached ASCS map sheets. This information, along with the GIS data used by IDWR, was combined to obtain the most accurate place of use description available. Actual acreage was then calculated using the Arc-View software used by IDWR and I found 1515 acres of irrigation for these claims. These claims all describe the same entire POU and will be recommended as such, except for the claim for reservoir storage, A72-04096.

Summary: The total flow of the rights claimed and previously decreed or licensed, not counting the storage right, amount to 30.19 cfs. The maximum acreage covered by these previous rights is limited to about 1649 acres. <See notes by Clelland that total the rights.> Since the POU is found to be actually

limited to 1515 acres and the total flow of 30.19 cfs applied uniformly, the resulting duty of water as recommended is 0.0199 cfs/acre (0.02 cfs/acre or 1"/acre). This conforms to the decree (Joseph Rodgers, Et. Al. vs. Daniel C. Breyer, Et. Al.; 7/16/1913) which established a duty of water as 1 " per acre and no additional water was found to be available or delivered to this POU from Warm Spring Creek.

Each right will be recommended for the full amount of water as claimed and the recommendation for the outstanding permit 72-07359 will be disallowed, no use found.

Full review materials and documents for the SRBA claims can be found in the claim file for A72-10141 and copies will be added to the Permit file for final permit review.

72 0144 The defendant, Sarah M. Drake, 320 inches, or six and two-fifths cubic feet per second, of the waters of Antelope Creek, in Custer County, Idaho, dating from the (first day of February, of the year 1877) to be appurtenant to and Awarded for the purpose of irrigating the lands of said defendant, to-wit: The E $\frac{1}{2}$ of NE $\frac{1}{4}$ of Section 35, the E $\frac{1}{2}$ of SE $\frac{1}{4}$ and NE $\frac{1}{4}$ of Section 26, in Township 12 North, of Range 20 East, Boise Meridian, in Custer County, Idaho.

72 0145 The plaintiff Joseph Rodgers, in any irrigating season, the excess amount not to exceed 320 inches, or six and two-fifths cubic feet per second, of the flow of the waters of Warm Springs Creek, exceeding the amounts referred to herein, in the aggregate, dating from the first day of March, in the year 1878, subject to the rights of David B. Drake, Daviel C. Breyer, Margaret Breyer and Joseph Rodgers, to such waters as may be conserved and stored by their reservoir in Box Canyon, in Custer County, Idaho, to be appurtenant to and awarded for the purpose of irrigating the lands of said plaintiff herein above described, as a later, additional and subservient right therefor to the rights herein above decreed, in said Warm Springs Creek.

72 0146 The plaintiff, the George McGowan Company, limited, a corporation, the right to the use of 200 inches, or four cubic feet per second, of the waters of Warm Spring Creek, aforesaid for domestic purposes and uses only, between, the first day of November and first day of March of each year, dating from the first day of November, 1885, to be so used for domestic purposes only at its premises known as George McGowan Ranch, situated on the east side of Salmon River, in Round Valley, Custer County, Idaho;

IT IS FURTHER ORDERED, ADJUDGED AND DECREED, That the several amounts of water above decreed be measured and distributed to the said parties, at their respective points of diversion, from the natural channels of Warm Springs Creek and Antelope Creek, and the tributaries thereof respectively.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED, That the first appropriation in point of time is first in point of right, and all appropriations of the said date are of equal rights, and in case of insufficiency of water to supply all

Dear Ms. Von Morganroth:

Pursuant to your request for a change in ownership and/or the notification that you presently own the property in which the above-referenced adjudication claim(s) is appurtenant, the department has changed the record of the current owners as you requested for rights listed above.

I have forwarded your request and information to our state office to change the record on additional water right numbers.

Please find enclosed a copy of your adjudication claims, as they now appear in our records.

If you have any further corrections or questions please contact our office.

Sincerely,

A handwritten signature in black ink, appearing to read 'Steve Clelland'.

STEVE CLELLAND
Sr. Water Resource Agent

DIRECTIONS TO PROPERTY / NOTES:

A. AJ CLAIM: # A72-10142 PRIORITY DATE: 03-01-1878 STAGE: D

B. WR RECORD: NO WATER RIGHT RECORD TO MATCH THIS AJ CLAIM

C. CAN THE PRIORITY DATE CLAIMED BE CONFIRMED BY A DECREE OR LICENSE?

Y() N()

D. HAS THERE BEEN A LATER COURT DECREE OF THE WATER RIGHT(S) FROM THIS WATER SOURCE?

Y() N()

E. IS THERE ANY INDICATION THAT THERE HAS BEEN A FIVE YEAR PERIOD OF CONTINUOUS NONUSE?
(IF YES, DESCRIBE BELOW)

Y() N()

F. IF THIS CLAIM IS BASED ON A PERMIT, WHERE IS THE PERMIT IN THE LICENSING PROCESS?

PROOF OF BENEFICIAL USE SUBMITTED

N/A() Y() N()

FIELD EXAM COMPLETED

N/A() Y() N()

FIELD EXAM SENT TO STATE OFFICE

N/A() Y() N()

LICENSE ISSUED

N/A() Y() N()

* IF THE PERMIT WILL NOT BE LICENSED PRIOR TO THE DIRECTOR'S REPORT,
USE CONDITION CODE A01 AND RECOMMEND AS PERMITTED.

G. IF THIS CLAIM IS BASED ON BENEFICIAL USE, IS ADDITIONAL EVIDENCE
OF THE PRIORITY DATE REQUIRED?

N/A() Y() N()

* FOR CLAIMS BASED ON BENEFICIAL USE, DESCRIBE THE EVIDENCE OF PRIORITY SUBMITTED,
INCLUDING THE ANALYSIS OF THE EVIDENCE.

H. IS THE STAGE OF THE CLAIM CODED CORRECTLY?
