Subject: Question on claim 95-10226

Linda,

Your letter regarding my claim recommends 0.04 com for a home plus less than 1/2 acre of irrigation. This will cover our home and lawn. We anticipate irrigating another approx. 3 acres of horse pasture during summer months. What would be the appropriate volume to state to cover that as well? Thanks, I will get this in the mail today after I hear back.

Regards,
Floyd Lindberg

Called Mr. Lindberg back in re adding 3
acres of irr. Advised him would need
an app for permit unless 3 ac was prior
use. It wasn't as property was subdivided
& H₂O first used in 2003
