Report to the CSRBA District Court

Prepared by the Idaho Department of Water Resources

DESCRIPTIVE SUMMARY

This is an Amended Director's Report submitted by the Director of the Idaho Department of Water Resources ("IDWR").

DISCUSSION

A claim for water right no. 93-4035 was filed with IDWR with points of diversion (POD) in Basin 95 and Basin 93. Two new claim numbers were generated from the single claim, 93-7280 and 95-15161.

While reviewing water right no. 95-15161, IDWR discovered that one of the PODs recommended in the Director's Report for water right no. 93-7280 is in Basin 95. The Director submits for filing with the Court an Amended Director's Report for the aforementioned subcase (see attached print-out) to correct the error in 93-7280 by removing the point of diversion listed in Basin 95 and associated spring source and place of use. A combined limit of 13,000 gallons per day for water right nos. 93-07280 and 95-15161 will be included on water right no. 95-15161 when it is reported since only one claim was filed.

Please note that the original deadlines will not change from what was set in the original filing of the Basin 93 Director's Report filed on March 27, 2014.

Respectfully submitted this 10th day of June, 2014.
