RE: SRBA Claim(s) A72-10187, A72-10188

Dear Claimant:

Please find the enclosed copy of the Notice of Completed Administrative Proceeding which the department has filed with the SRBA Court regarding claim A72-10188. You have received this notice pursuant to SRBA Court Administrative Order 11 requiring IDWR to report to the court and interested parties any pending changes to adjudication claims in basins for which a Director's Report has been filed with the court.

Enclosed you will also find a copy of A72-10187 indicating you as the current owner. Since this claim has not yet been included in a Director's Report, it does not require a Notice of Completed Administrative Proceeding be filed with the SRBA Court.

Please contact this office if you have any questions about the notice or the administrative process.

Sincerely,

Trish Fawcett
Technical Records Specialist

RE: Evidence of Priority

RESPONSE DEADLINE

MAY 1, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, proof must be provided supporting the priority date you have claimed.

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by May 1, 1992, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.
Water Rights Supervisor

AFFIDAVIT - WATER USE

RECEIVED

RE: WATER RIGHT NO. A72-10187
MITCH C. CORRIGAN AND KAMI CORRIGAN

JUL 18 1993

Department of Water Resources
Southern Region Office

STATE OF IDAHO)
 : ss.
County of Custer)

The undersigned, first being duly sworn, deposes and says as follows:

1. That I have resided almost all of my life in North Custer County, Idaho. I was born in 1904 and moved to Custer County near Challis when I was six years old.

2. That the lands irrigated under the above right were the south 100 acres of the ranch purchased by my mother and father at that time (1910). We lived on the ranch until I married and moved, however, even after that time I remained in the area and I remained personally familiar with the property. This land has remained in my family to this day.

3. When we first got to the area in 1910, I recall seeing the stacks of hay and stack yards on the lands in question. It was irrigated then from the same source and by the same method as it is today. The essential difference is that the land was primarily used for hay production from 1910 to about 1920. After about 1920, the lands have been used primarily for pasture but the waters have consistently been applied to the lands and used beneficially over all the years I have been here (1910 to date). Further, I specifically recall helping my father cut willows along the ditch by the time I was ten (10) years old. I have a very vivid recollection of these facts.

4. I have reviewed the claim above referred to, a copy of which is attached, and feel that it represents the use of the water as practiced over the period of time referred to.

5. Further, I can state from my recollection, the fields, ditches and general system had the appearance at that time of having been in production and use for many years before that time. My conversations with elder residents at that time would certainly bear out that belief.

6. I state that the above is true and accurate.

DATED: June 16th, 1993.

Laura Bishop

RE: 72-10187

Dear Mr. and Mrs. Bitton,

This letter is in response to the Notice of Error (NOE) you recently filed with IDWR regarding the Director's proposed recommendation of the claim listed above. Your NOE questioned the Priority Date and the Point of Diversion.

I have added the point of diversion for Philps Springs in the NWSEW of Section 14 and changed the other one to Philps Slough, making sure your, Philps and the Green's claims in the area all refer to the same Points of Diversion. Based on the evidence in the file, I allowed the priority date of April 1, 1910.

I have enclosed a new Preliminary Recommendation and corrected map for this claim. You should be receiving the actual Director's Report by the end of the month which will reflect these corrections.

If these changes are still incorrect, you can file an Objection to the Director's Report with the SRBA Court. The process will be explained when you receive your copy of the Director's Report.

Sincerely,

Jeanie Robertson
Senior Water Resource Agent

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

SOIL TYPE	OPTIMAL / ROTATION (chart)	ACTUAL / ROTATION (field)	ACRES PER SOIL TYPE (field)	RATE PER ACRE (chart)	TOTAL DIVERSION RATE

DEB BRITTON A72-10187, A72-10188

SUBJECT: PROFILE REPORTS

phone call (X) walk-in (.)

She's interested in buying some property owned by Mitch Corrigan in T14N, R19E, Sections 14 & 15 and wanted water right information. I came up with the above claims and FAXed profile reports to her c/o Way Out West Realty @ 879-5258...

October 2, 1996

Jim Wampler, Deb's father who lives in Oregon, called with a few questions on the FAXes. He asked if these were fully adjudicated and guaranteed rights? I explained that we are in the middle of an adjudication here in Idaho but have not decreed these rights yet. Told him some of the elements are subject to change, depending on our findings, but the rights have been claimed and thats the important part...

RE: REQUEST FOR COPIES OF CLAIMS A72-10187 AND A72-10188

DEAR KAMI,

ENCLOSED PLEASE FIND THE COPIES OF THE PROFILE REPORTS FOR THE TWO CLAIMS FOUND UNDER THE NAME OF MITCH CORRIGAN. THERE WERE THREE OTHER CLAIMS THAT LISTED MITCH CORRIGAN AS THE ORIGINAL OWNER BUT THOSE CLAIMS ARE NOW OWNED BY DENIS AND MELISSA DUBOIS. IF YOU NEED COPIES OF THOSE CLAIMS LET ME KNOW, THE NUMBERS WERE A72-02147B, A72-02149H AND A72-00032E.

IF YOU HAVE ANY QUESTIONS PLEASE CONTACT ME AT OUR OFFICE.

SINCERELY,

A handwritten signature in black ink, appearing to read 'Steve Clelland'.

STEVE CLELLAND

Claim Review & Analysis

A72-1018

Corrigan

Bob met with Mr. Corrigan on June 1, 1993 and I completed the CVR and R-record on 5/31/94. Based on Bob's notes, maps, and conversations, I located the place of use and point of diversion. Mr. Corrigan had claimed 98 irrigated acres, but had told Bob the land in Section 15 was irrigated by sub only. I found 58.5 acres to be irrigated by his system. He claimed 6.0 cfs and on the day he was there, Bob measured 10.58 cfs in the ditch. At 1" per acre, 58.5 acres would only be entitled to 1.17 cfs. I used the information in the Hubble Report to analyze the soils. I found 9 acres of Tc1 soil which would require .36 cfs, 36.5 acres of St2 soil which would require 1.45 cfs, and 13 acres of Rp1 soil which would require .9 cfs. These added up would allow 2.71 cfs for the 58.5 acres. I then used the Conveyance Loss Program - Worstell method - and estimated the ditch length from the point of diversion to Corrigan field as 1900', with an average width of 10'. Based on the table on page 35 of the Hubble Analysis I estimated the seepage loss per day as 2' for a gravelly sandy type of soil in the ditch. This allowed me to add in ⁴⁸ cfs to the 2.71 cfs as conveyance loss. Since Bob's measurements in

estimated 10%
slope on these
lands

②

the ditch showed it had the capacity to carry more than 10 cfs, I recommended 3.19 cfs for the diversion rate of this right.

RE: 72-10187

Dear Mr. and Mrs. Bitton,

This letter is in response to the Notice of Error (NOE) you recently filed with IDWR regarding the Director's proposed recommendation of the claim listed above. Your NOE questioned the Priority Date and the Point of Diversion.

I have added the point of diversion for Philps Springs in the NWSNW of Section 14 and changed the other one to Philps Slough, making sure your, Philps and the Green's claims in the area all refer to the same Points of Diversion. Based on the evidence in the file, I allowed the priority date of April 1, 1910.

I have enclosed a new Preliminary Recommendation and corrected map for this claim. You should be receiving the actual Director's Report by the end of the month which will reflect these corrections.

If these changes are still incorrect, you can file an Objection to the Director's Report with the SRBA Court. The process will be explained when you receive your copy of the Director's Report.

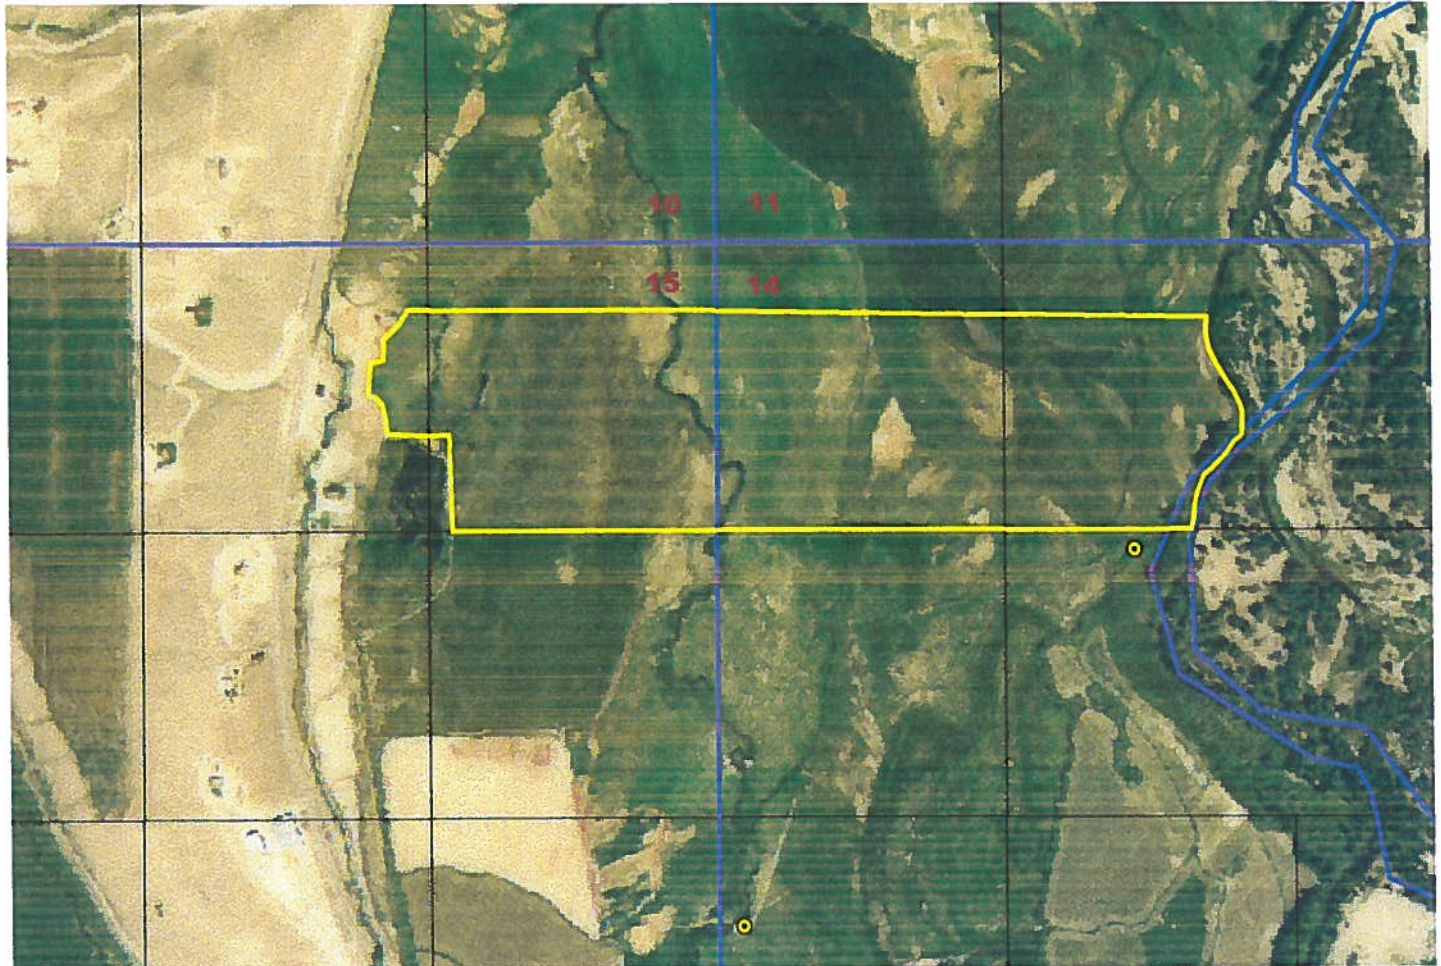

Sincerely,

Jeanie Robertson
Senior Water Resource Agent

THE FOLLOWING RIGHTS ARE DIVERTED THROUGH THE POINTS OF DIVERSION DESCRIBED ABOVE: 72-10169A, 72-10169B, 72-10187 AND 72-10189.

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

SOIL TYPE	OPTIMAL ROTATION / (chart)	ACTUAL ROTATION (field)	ACRES PER SOIL TYPE (field)	RATE PER ACRE (chart)	TOTAL DIVERSION RATE
-----------	----------------------------	-------------------------	-----------------------------	-----------------------	----------------------

RP1	/	*	13	*	.19	= 2.47 CFS

COMMUNICATION DOCUMENTATION

This form is to be used to document public record information requests regarding any SRBA claim or claims. The form may also be used to document IDWR communications requesting information regarding any SRBA claim or claims when the request is not made in writing or the claim verification report is not readily available to document the request. This form is to be filed in all relevant claim files or a central office file.

IDWR Employee/Agent JEANIE M ROBERTSON

DATE October 1, 1996 1:48pm CUSTOMER DEB BRITTON A72-10187, A72-10188

SUBJECT: PROFILE REPORTS
phone call (X) walk-in (.)

She's interested in buying some property owned by Mitch Corrigan in T14N, R19E, Sections 14 & 15 and wanted water right information. I came up with the above claims and FAXed profile reports to her c/o Way Out West Realty @ 879-5258...

October 2, 1996

Jim Wampler, Deb's father who lives in Oregon, called with a few questions on the FAXes. He asked if these were fully adjudicated and guaranteed rights? I explained that we are in the middle of an adjudication here in Idaho but have not decreed these rights yet. Told him some of the elements are subject to change, depending on our findings, but the rights have been claimed and thats the important part...

RE: REQUEST FOR COPIES OF CLAIMS A72-10187 AND A72-10188

DEAR KAMI,

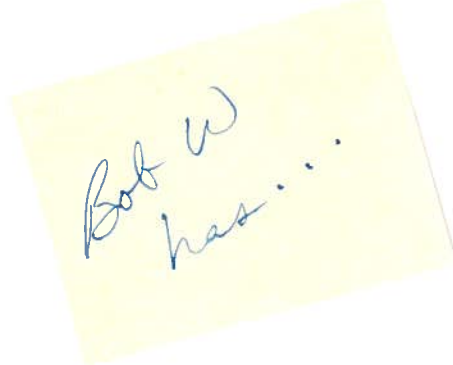

ENCLOSED PLEASE FIND THE COPIES OF THE PROFILE REPORTS FOR THE TWO CLAIMS FOUND UNDER THE NAME OF MITCH CORRIGAN. THERE WERE THREE OTHER CLAIMS THAT LISTED MITCH CORRIGAN AS THE ORIGINAL OWNER BUT THOSE CLAIMS ARE NOW OWNED BY DENIS AND MELISSA DUBOIS. IF YOU NEED COPIES OF THOSE CLAIMS LET ME KNOW, THE NUMBERS WERE A72-02147B, A72-02149H AND A72-00032E.

IF YOU HAVE ANY QUESTIONS PLEASE CONTACT ME AT OUR OFFICE.

SINCERELY,

STEVE CLELLAND
WATER AGENT, SR.

New Discovery?

I checked the Chellin Creek Deed, since this right is tributary to Chellin Creek, but there was no mention of abutment or easement. We received one affidavit from Laura Bishop on 6/18/93. Based on that affidavit, as no other evidence of priority was submitted, I can recommend a priority date of 4/15/1910. That is when her family purchased the land. (Date of 4/15 is based on the recommended irrigation season.)
