RE: Recommendation of Water Right 47-4163B

Dear Diana:

Water right 47-4163B was claimed in the Snake River Basin Adjudication (SRBA) by John Schilder. The right was recommended in the Director's Report for Irrigation and Other Uses, Reporting Area 12, IDWR Basin 47, filed with the SRBA Court on February 2, 2007. No objections were filed, however the Court notified IDWR of a possible problem with several conditions appearing on the recommendation. Some conditions contained a reference to right no. 47-4163A, which did not appear to be a valid water right number. The recommendation of the right 47-4163B was not moved forward in the SRBA to allow IDWR time to investigate.

IDWR has now completed its review, and submits a Notice of Completed Administrative Proceeding (NCAP) for right 47-4163B. Right 47-4163A, referenced on the recommendation of 47-4163B, had actually been split by transfer prior to the filing of the 2007 Director's Report. The use was reported as rights 47-16784 and 47-16785. It appears the recommendation of the B portion was not amended to reflect the transfer of the A portion. The NCAP corrects the references to 47-4163A to the water right numbers the use was recommended under, 47-16784 and 47-16785. The NCAP also updates explanatory remarks to further reflect the transfer which split the A portion of the right. No changes are needed to rights 47-16784 and 47-16785.

Any questions regarding the changes should be directed to Carter Fritschle, Manager Adjudication Section, at 208-287-4917. Should the Court require anything further from IDWR to allow right 47-4163B to move forward, please let me know. I can be reached at 208-287-4816.

Sincerely,

Vicki Kelly,
Paralegal
