RE: Evidence of Priority

RESPONSE DEADLINE
MAY 1, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, proof must be provided supporting the priority date you have claimed.

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by May 1, 1992, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.

Don't ask me what happened! I started to loose power and the next thing I knew the system sent you the E-mail I was in the middle of typing!?! Oh well, from where I left off - - -

Eric Matson is, of course, filing this diversion change/addition for Steve Bauchman, his employer. Bob suggested you might be able to print a map showing the diversion location thereon so Eric might submit it with the other required paperwork. Could you? Would you? This could make it easier for everyone. In any case, the legal description would be appreciated no matter what else we can or cannot do.

Tim, first I went to Twin Falls since I thought the Southern Region was handling this matter and then per Jeanie's suggestion I went to Bob Foster and now everyone points at you as the answer. You need a sign on your desk, "The buck stops here!"

You, Bob and I "shot" the subject diversion when you were up here a few weeks ago. It is GPS I.D. NO. A0007596, (Bauchman DC Pump). Can you tell me the legal description form this GPS location? I need this for Eric Matson who is filling for the diversion addition for this location. Bob suggested you might be able to

I did some checking and I don't think that this tag number was done from our office, so the information is not available to me just yet. Perhaps Bob Foster "shot" that one...if so, you might try asking him for the coordinates. Eventually, we will all be able to access all the information, but right now we are in the baby steps of this process. Sorry. Jeanie

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

 DIRECTION TO PROPERTY / REMARKS:

Lester Bradbury took me to the diversion points on ~~the~~ ^{their} property and showed me the main ditches that covered the flood irrigation parts of this property. The rest of the property is irrigated by 4 wheel lines and 11 handlines. There are 2 pumps from the Highline Canal at the SW $\frac{1}{4}$, SW $\frac{1}{4}$, SE $\frac{1}{4}$ of Sec 8. that supply sprinkler main lines running south and north. A large gravity pressure pipe line diverts water from the ~~highline~~ canal at the SW $\frac{1}{4}$, NE $\frac{1}{4}$, SE $\frac{1}{4}$ of Section 8. This pipe carries water north easterly to near the center of Section 8 then eastward thru the middle of sections 8 and 9 to supply gravity pressure to this property, the Cox property, the Kindt Property and part of the Gommache property.

Subj: PRIORITY ANALYSIS FOR BU CLAIMS FOR HIGH WATER CLAIMS ON DECREEED LANDS

WE DISCUSSED THIS MORNING IN OUR STAFF MEETING, IT SEEMS LOGICAL THAT FOR THOSE LANDS THAT WERE DECREEED 1" PER ACRE AND NOW HAVE AN ADDITIONAL CLAIM (BU) FILED FOR HIGHWATER USE WE SHOULD TAKE INTO CONSIDERATION THE DECREE OR DATE OF DECREE IN OUR REVIEW OF THE PRIORITY DATE.

SINCE OUR MEETING I HAVE DISCUSSED THIS MATTER WITH NICK WHO HAS CONSULTED WITH LYNN AND THEY AGREED THAT OUR ANALYSIS SEEMED APPROPRIATE. NICK ADDED THAT AS FAR AS RESPONSES FROM THESE PEOPLE FOR EVIDENCE OF PRIORITY, THAT IF THEIR RESPONSE INDICATES THAT "AS FAR AS THEY KNOW OR IF THEY INDICATE THAT THEY HAVE BEEN TOLD THAT THE SYSTEM IS ESSENTIALLY THE SAME AS HOW IT HAS BEEN HISTORICALLY USED BEING THAT HIGHWATER IS USED ON THE LANDS IRRIGATED BY THE DECREEED RIGHTS" EVEN THOUGH THIS IS NORMALLY DEEMED HERESAY, THE DEPARTMENT (AS AN EXPERT WITNESS) CAN USE HERESAY PARTICULARLY IF OUR ANALYSIS FINDS THE LANDS NEED MORE THAN 1"PER ACRE AND IN OUR REVIEW FIND THAT THIS IS THE LOCAL PRACTICE. WITH THESE SPECIFIC FINDINGS THEN WE COULD USE THE "HERESAY" TO ALLOW US TO EXTEND THE PRIORITY DATE BACK BEYOND THE DATE WHICH THEY COULD NORMALLY ACCURATELY TESTIFY TOO.

AGAIN THIS ANALYSIS IS LIMITED TO: (1)LANDS WITH DECREEED WATER BEING USED (2)PRIORITY LIMITED TO AFTER DATE OF DECREE (3)MUST PROVIDE "HERESAY" OR UNDERSTANDING THAT HIGHWATER HAS ALWAYS BEEN USED AS CLAIMED.
