DEAR MR. SANTEE:

Its been awhile since I sent along the form for you to sign about the ownership change on your water right for the Challis property.

We need to complete the file with that form so that it can be reshelved here.

Would you take a minute and see if you have it along with the stamped, self-addressed envelope that I sent you?

If you do, please send it to me. If you don't please use the envelope that I have enclosed to let me know.

Thanks.

RE: Evidence of Priority

RESPONSE DEADLINE

MAY 1, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. **The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit.** The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided supporting the priority date you have claimed.**

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by **May 1, 1992**, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.
Water Rights Supervisor

He called to tell me he did not receive the maps for the Shep Creek POD. I will re-send them along with the other GIS maps I am sending today.

He will fax to me the "survey notes" that appear to document the earlier domestic right priority date. If correct, this may lead to a split right.

Need recalculations. Both BLM and Santee objected so we need to resolve both objections.

If you delete the 2.7 acres in T15N R20E S13 SENW recommended in the Dir. Rpt. then I am happy.

If you give Santee what he wants through his objection, then we have a problem. Among other things, he wants to move that 2.7 acres on BLM in the SENW to the SENE. The SENE is also BLM and any use there would be trespass. If that is added to his claim, then I'll have to re-object. The other 11 acres that he wants to add (add 9 acres in NESE and add 2 acres in NESW) through his objection are ok by me.

Santee wants to change his priority date through his objection and that is ok by me, but we will probably have to amend his claim.

So, we need recalculations from you that would resolve both our objections.

Can you also look at the affects to the related rights?

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):
Priority Date
Place of Use - Irrigation

2. Describe the changes you wish to make in the proposed recommendation:
Change Priority Date to 04/01/1880
Changes to Place of Use - Irrigation Change Total Acres from 103 to 114
Change 22 acres to 31 acres in T15N R19E S13 (NESE)
Change 2 acres to 4 acres in T15N R20E S18 (NESW)
Change T15N R20E S13 SENW 2.7 to T15N R19E S13 SENE 2.7

3. Give a brief explanation as to why you disagree with these portions:
Priority Date - Copy of Affidavit showing 4/1/1880 priority date is attached.
Place of Use - Irrigation - Custer Co. Assessor shows 61 acres in SE1/4 of T15N R19E S13 and 50 acres in T15N R20E S18.
T15N R20E S13 SENW is not on the map for 72-10306.

____ I AGREE with this proposed recommendation; no changes need to be made.

George E. Santee, Jr.

I, Ralph W. Hutchison, hereby testify that the waters of the Salmon River have been used at the rate of two (2) inches of water per acre to irrigate one hundred forty two (142) acres of the following described land, to-wit:

Lots one (1) and two (2) and the Southwest Quarter of the Southeast Quarter (SW1/4 of the SE1/4) of Section Thirteen (13), Township Fifteen (15) North, Range Nineteen (19) East, Boise Meridian; and Lots three (3) and seven (7) of Section Eighteen (18), Township Fifteen (15) North, Range Twenty (20) East, Boise Meridian.

Said waters have also been used at the rate of 0.07 cfs for stock water on the land described above.

Said waters have been used since April, 1880.

Ralph W. Hutchison

DESCRIPTION OF USE:

REMARKS:

Confirmed wells by field Exam, QD T75 & T25 & Bm dated 7-10-8.
Original stratigraphy during support a laser average than claimed also.

RECOMMENDATIONS:

TOTAL ACRES: 91.0 acres
PROPERTY BY: Su

DATE: 1-11-94

Property is operated by Vert Jones.

no contact was made to discuss irrigation practice.
Kelly Christensen determined a local practice on this ditch
by Albert Hughes was using a 10 day rotation.

Both the 6.3 day & 10 day rotations was used in a
comparative analysis in the Hubble calculation.

Calculations made support the extra flow rate claimed.
Use of water with and out-irrigation was also found
to be used on this place of use.

This analysis represents an additional 6" depth of ditch above the measured rate. The ditch has a capacity greater than the measured + the additional 6" but the 6" additional is closer to the high water level in the ditch. The system was measured late in the irrigation season and lower river water levels give a lower diversion without structure work.

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-213, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Helen L. Santee

and a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

(1) Date of priority: (When was the water first applied to a beneficial use) Apr 11, 1905

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

12) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)

Salmon River

tributary to Snake River

(d) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed.
