ATTACHMENT 5

A grant was received for fiscal year 2008 for a project entitled GIS Forest Analysis – Rathdrum Prairie Aquifer. The grant applicant was the Idaho Department of Lands, with Kootenai County, Coeur d’Alene, Post Falls, Hayden Rathdrum, Idaho DEQ, Panhandle Lakes Resource Conversation and Development Council, and Panhandle Health District being partnering entities. City Green software and high-resolution satellite imagery was used to develop a GIS analysis of tree canopy and stormwater mitigation and water conservation and quality for rapidly developing areas of Kootenai County, a 100 square mile area. That project resulted in a GIS analysis that mapped the trees with impervious understory, water, trees, non-irrigated grass, impervious services, bare soil and irrigated grass and allowed for the calculation in square foot and acres the amount of land that fits into each of those categories for the entire county. It also allowed for the same analysis and calculation to be run for smaller areas and for updates to the analysis.

This Attachment is the GIS analysis for the city of Rathdrum, with the following modifications:

1. The boundaries of the city limits are reflected on the map, but any land within the city limits that is not currently receiving water from the city of Rathdrum has been deleted from the analysis.
2. The map has been updated to include irrigated grass (school ball fields) that were not previously shown on the 2007 Lidar as irrigated grass.

The result of the GIS analysis is that there are 442.01 acres of irrigated grass and 166.27 acres of trees within the city limits of Rathdrum that are being watered with either irrigation or municipal water rights that have been acquired by the city of Rathdrum, for a total of 608.28 acres.

The portion of Water Right 95-2182 that was conveyed to the City was for 250.5 irrigated acres
The portion of Water Right 95-7949 that was conveyed to the City was for 30.323 irrigated acres
The portion of Water Right 95-2151 that was conveyed to the City was for 189.1 acres
The portion of Water Right 95-2155 that was conveyed to the City was for 189.1 acres (the 189.1 acres as for Water Right 95-2155)

The total number of acres previous irrigated by the 4 water rights conveyed to the city is 469.923 acres. That 469.923 acres is being irrigated with the above listed water rights, and the remaining 138.357 acres is being watered using municipal water rights.

ATTACHMENT 6

This claim is for a portion of Water Right 95-2182. The water right was initially granted to George Thayer and Ossie Thayer. George Thayer conveyed a portion of the land associated with this water right to Neighborhood Inc. In turn, Neighborhood, Inc. conveyed to the city of Rathdrum the water rights associated with a portion of the land that was conveyed to Neighborhood, Inc. by George Thayer and retained apportion of the water right. At the time the water right was conveyed to the city of Rathdrum, Washington Trust Bank was the lien holder on the property associated with the water right conveyed by Neighborhood, Inc. Washington Trust Bank Washington Trust Bank has provided an affidavit stating that the bank did not object to the conveyance of the water right to the city of Rathdrum. Included with this Attachment are copies of the Water Rights Deed from Neighborhood, Inc. and the Affidavit of Washington Trust Bank.

In addition to the Water Rights Deed form Neighborhood, Inc., from the remaining portion of Water Right 95-2182, George and Audrey Thayer also conveyed water rights to the city of Rathdrum. Also included with this Attachment is a copy of the Water Rights Deed from Thayer.

The portions of Water Right 95-2182 conveyed to the city of Rathdrum, and the irrigated acres associated with those portions of the water right are as follows:
