Additional explanation or supporting documentation of the error:

It was brought to the attention of IDWR by USDI BLM that an amended Notice of Claim for Water Right 25-13663 was submitted to correct the typographical error for the total quantity of the water right, but inadvertently missed the quantity under the Purpose/Period element. The quantity under the Purpose/Period element listed on the amendment is 0.20 cfs but should have shown 0.02 cfs instead. The recommendation of the right, which contained the discrepancy, was objected to, but the error was unnoticed at the time of objection resolution, and it carried forward to the December 30, 1999, partial decree. As a result, the partial decree incorrectly lists the quantity under the Purpose/Period element as 0.20 cfs. The total quantity amount of 0.02 cfs shown under the Quantity element of the partial decree is correct and does not need to be addressed.

IDWR requests correction of the quantity under the Purpose/Period element listed in the partial decree from 0.20 cfs to 0.02 cfs.

For more information about the error the Court and/or water right holder should contact the person identified below.
