PO Box 44449
Boise, ID 83711-4449

Your signature or signature of attorney mailing on your behalf

**CHALLIS
CREEK
RANCH**

June 24, 1999

TO WHOM IT MAY CONCERN:

REFERENCE: WATER RIGHT NO. 72-10368

Please be advised that T14N R18E S03 NESE is owned by the United States Bureau of Land Management and that the 2.6 acres within that section shown on our subject water right as being within our Point Of Use is in error and T14N R18E S03 NESE should be deleted from the water right.

It should also be noted that no significant part of this area is nor ever was part of the actual Point Of Use irrigated with this water right. The 2.6 acres so designated as part of this Point Of Use actually are contained within T14N R18E S03 S $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$ and part of the approximately 95 irrigated acres contained therein, this total area being Challis Creek Ranch.

Twin Falls, Idaho 83301

Reference: Water Right Claim No. A72-10368

Dear Mr. Merritt:

In our letter of April 29, 1992 (copy enclosed), we requested additional time regarding our reply to your letter of March 2, 1992, and the subject Claimed Water Right. Since our letter, we have been able to secure most of those outstanding Affidavits we sought. Though a few remain, we did not want to delay our reply any longer. Therefore, we have enclosed copies of those Affidavits now in-hand identified in the following list by last name in alphabetical order:

Bradbury, Kenneth
Doffing, Glen
Hammond, Bessie
Horton, Jay (Custer County Sheriff)
Hutchison, Ralph W.
Laverty, Gladys
Millick, William L.
Reed, Loyd
Sanderson, Vera
Stephens, Elmer
Stevenson, Lynn T.

Frankly, based upon your "EVIDENCE OF PRIORITY" bulletin included with your March 2nd letter, these should suffice your need. However, if you do desire those few Affidavits still outstanding, please let us know and we will forward same when received.

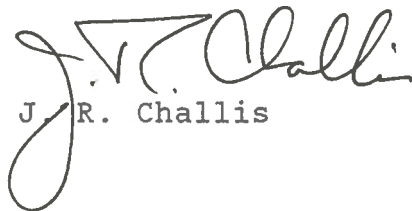

MICROFILMED

MAR 18 1993

As an added measure of insuring that these Affidavits and, more importantly, the information contained therein, remain available for future reference, Certified Copies have been filed and recorded at the Custer County Courthouse here in Challis. The originals will be retained in our own on-premises, fire-proof safe for any future need and/or reference.

If we have overlooked anything and/or should you need anything additional, please let us know. In the interim, we assume that this Claimed Water Right can be used as it has been in the past (the right, of course, proven herein) along with our 1879 Decreed Water Right.

Very truly yours,

Dear Mr. Merritt:

In your letter of March 2, 1992, regarding the subject water right claim, you requested confirmation of the "Beneficial Use" basis of this claim. While we have diligently pursued the documentation you seek, at this writing all contacts have been made but some replies still remain outstanding.

We are confident we can soon provide the needed affidavits to confirm this "Beneficial Use" Water Right. However, we will need a little more time to gather the balance of the notarized statements.

We are sure you can appreciate the time consuming search that has been necessary to locate people that were around as far back as the early 1900's. Again, this has been done but we need a little more time to obtain all the replies, especially those who are out-of-state.

Your understanding in this regard is appreciated.

Very truly yours,

J. R. Challis

RE: Evidence of Priority

RESPONSE DEADLINE
MAY 1, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. **The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit.** The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided supporting the priority date you have claimed.**

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by **May 1, 1992**, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.
Water Rights Supervisor

Standard Form 5

STIPULATED ELEMENTS
OF A WATER RIGHT

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine the facts, date, expert opinions and law supporting the issuance of a partial decree for the water right.

The parties agree that the Snake River Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.

From: Music, Vicky
Sent: Friday, November 12, 1999 2:08 PM
To: Robertson, Jean
Subject: JD Challis claims 72-0007C, 72-10368

Good afternoon! I noticed that after you changed the R records of the above claims & took out the 2.6 acres , it reduced the total acres from 93.6 to 91. Just talked to JD Challis re: whether that is what he intended and he said no. So, he will have his attorney Semanko call you next week. Will you let me or Sara know what happens, when the R record is changed to reflect his total acres? I will be out the rest of the afternoon and will be back Monday. Thanks.

Hey Vicky,

I've made the changes in new "R" records for these rights, removing the 2.6 acres in the NESE that BLM objected to. (Diversion rate did not need to be reduced.) They will update tonight so tomorrow you can do with them what you wish! Let me know if I need to do anything else with them...Jeanie

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

To: 'Jack Challis'
Subject: RE: 72-00007C & 72-10368

Jack, I have copies of Standard Form 2 (Response to Objection) which you can file within 60 days of the Objection. I will mail you a couple (or let me know if you'd rather I faxed them). If you basically agree with them that you don't own the property in the NESE of Section 3 and don't irrigate it, then you guys come to an agreement and all three of us will sign off. The Department will change it's recommendation accordingly. (I will merely drop those acres from the recommendation and change the map showing the place of use.) Jeanie

To: Jeanie Robertson
Subject: 72-00007C & 72-10368

Jeanie, the subject water rights are our own.

A number of years ago, I wrote BLM and told them that a very small portion of their property had been fenced within our pasture for as far back as I could find any records and/or photographs of the area. We offered to lease, buy or even trade for this property. For years we could not even get an answer to our inquiries. A year or so ago we did finally receive a reply to a follow-up letter and we have been since discussing possible alternatives with one of BLM's representatives in Salmon.

Yesterday (Saturday) we received copies of BLM's Objection Filing on our subject water rights. DAMN nice of them wasn't it after we told them about it!?! In any case, the two (2) water rights actually indicate that 2.6 acres of that area is within our "Place Of Use". We have since found the survey stakes and there is not even an acre within the area in question that could EVER have been flooded (due to nothing more than the terrain). Be that as it may, T14N R18E S03 NESE is BLM's and thus those 2.6 acres do not belong within our "Place Of Use" description (even if we were to obtain that property eventually in whatever manner). Now what? Do we need to file some sort of reply or do you handle this? (I have contested all along that more than 42 acres of the S1/2 of the NE 1/4 were irrigated. You may have to come and look at the survey stakes now so you can see for yourself how at least the vast majority of those 2.6 acres you indicate as irrigated is not nor never was part of the BLM portion.)

Jack

December 10, 1998

Ms. Jeanie Robertson
Senior Water Resources Agent
Idaho Department of Water Resources
1341 Fillmore, Suite 200
Twin Falls, ID 83301-3380

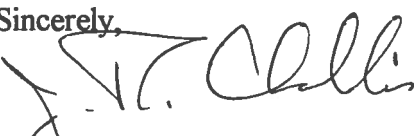

Reference: Water Right Nos. 72-00007C and 72-10368

Dear Jeanie:

Enclosed are the Notice Of Error Reply (dated November 20, 1998) and Adjudication Claim Profile Report (dated December 4, 1998) covering each of the subject water rights. As indicated on each Notice Of Error Reply, we agree with your recommendations as revised on the December 4, 1998, Adjudication Claim Profile Report (copies enclosed). As we both know, these reports were the result of numerous conversations and FAXes resulting in these reports revised from the original reports provided with your November 20, 1998, mailing.

Thanks for your help in getting these corrected and let us know if you need anything further.

Sincerely,

J. R. Challis

IDWR Employee/Agent JEANIE M ROBERTSON

DATE December 2, 1998 11:50am CUSTOMER **JACK CHALLIS** 72-00007A, B, C

SUBJECT: WHY DIVERSION RATE REDUCED???
phone call (X) walk-in (.)

He called with a few questions on his recommendations. First he wondered why his diversion rate was reduced? I told him it was because the right was overclaimed and oversold by the seller. The original right was for 109 inches or 2.18 cfs. Upon further review of the warranty deeds, I determined his parcel (part C) was purchased first, so I gave him what was on his deed, 1.88 cfs. Then I gave part B (Sidlo) the .15 cfs his deed specified, as his purchase was second, which left part A (Lewis) with the remaining .15 cfs of the right...

72-10368

I changed his priority date to 10/10/1911, one day junior to the decree...

He had some other general questions about why he was limited to only 94 acres when he owns 200 acres? I told him he had only claimed 96 acres, of which I had found 94 to be irrigated, and this was how the right had been historically used. He wanted to know why he couldn't convert to sprinklers and use the same amount of water on additional acres? I told him that this would be an expansion of the original right, which is limited by not only diversion rate, but also volume and acreage. He could apply for a new permit to irrigate more acres with the same amount of water, but if approved, those acres would have a later priority date...

72-10032

This is a claim on a spring which is on Jack's property but claimed by Lewis. It comes up in a ditch which is tributary to Challis Creek and flows onto Lewis' property. Lewis had affidavits from previous owners and neighbors which show this spring has been used this way since at least 1950. Jack wanted to know if he should

also file on this spring and several others on his property? I told him he could file on anything, but the recommendation would depend on if he actually diverted and used them...

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

SOIL TYPE	OPTIMAL ROTATION / (chart)	ACTUAL ROTATION / (field)	ACRES PER SOIL TYPE (field)	RATE PER ACRE (chart)	TOTAL DIVERSION RATE

Subj: PRIORITY ANALYSIS FOR BU CLAIMS FOR HIGH WATER CLAIMS ON DECREED LAND

WE DISCUSSED THIS MORNING IN OUR STAFF MEETING, IT SEEMS LOGICAL THAT FOR THOSE LANDS THAT WERE DECREED 1" PER ACRE AND NOW HAVE AN ADDITIONAL CLAIM (BU) FILED FOR HIGHWATER USE WE SHOULD TAKE INTO CONSIDERATION THE DECREE OR DATE OF DECREE IN OUR REVIEW OF THE PRIORITY DATE.

SINCE OUR MEETING I HAVE DISCUSSED THIS MATTER WITH NICK WHO HAS CONSULTED WITH LYNN AND THEY AGREED THAT OUR ANALYSIS SEEMED APPROPRIATE. NICK ADDED THAT AS FAR AS RESPONSES FROM THESE PEOPLE FOR EVIDENCE OF PRIORITY, THAT IF THEIR RESPONSE INDICATES THAT "AS FAR AS THEY KNOW OR IF THEY INDICATE THAT THEY HAVE BEEN TOLD THAT THE SYSTEM IS ESSENTIALLY THE SAME AS HOW IT HAS BEEN HISTORICALLY USED BEING THAT HIGHWATER IS USED ON THE LANDS IRRIGATED BY THE DECREED RIGHTS" EVEN THOUGH THIS IS NORMALLY DEEMED HERESAY, THE DEPARTMENT (AS AN EXPERT WITNESS) CAN USE HERESAY PARTICULARLY IF OUR ANALYSIS FINDS THE LANDS NEED MORE THAN 1"PER ACRE AND IN OUR REVIEW FIND THAT THIS IS THE LOCAL PRACTICE. WITH THESE SPECIFIC FINDINGS THEN WE COULD USE THE "HERESAY" TO ALLOW US TO EXTEND THE PRIORITY DATE BACK BEYOND THE DATE WHICH THEY COULD NORMALLY ACCURATELY TESTIFY TOO.

AGAIN THIS ANALYSIS IS LIMITED TO: (1) LANDS WITH DECREED WATER BEING USED (2) PRIORITY LIMITED TO AFTER DATE OF DECREE (3) MUST PROVIDE "HERESAY" OR UNDERSTANDING THAT HIGHWATER HAS ALWAYS BEEN USED AS CLAIMED.

-- YOU HAVE QUESTIONS LETS TALK AGAIN.
