RE: Evidence of Priority

RESPONSE DEADLINE

MAY 1, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. **The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit.** The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, **proof must be provided supporting the priority date you have claimed.**

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by **May 1, 1992**, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.
Water Rights Supervisor

BEFORE THE STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

AFFIDAVIT IN SUPPORT OF PRIORITY DATE: CLAIM A72-10424

STATE OF IDAHO)
 :ss.
County of Ada)

R. JOHN INSINGER, being first duly sworn under oath, deposes and says the following:

1. I am one of the owners, and the duly authorized representative of the Insinger Ranch (Boulder Creek Ranch) which Claim No. A72-10424 pertains to. I make the statements in this Affidavit of my own personal knowledge as evidence of a June 1, 1946 priority date for the said claim of water right.

2. In 1973 my family purchased and acquired the subject real property. Shortly before that purchase in the fall of 1973, I was personally present on the premises and inspected the various irrigation systems and applications, including that which is subject of this claim. At that time it was obvious from the condition of the diversion dam, the water transfer ditches, and the vegetation surrounding the ditches and fields irrigated that water had been supplied to and used upon that land by means of the subject diversion subject of this claim for a substantial number of years prior to that time. Specifically, there were large and mature trees in the areas of the irrigations ditches, and a

AFFIDAVIT IN SUPPORT OF PRIORITY DATE
CLAIM A72-10424 - 1

MICROFILMED
MAR 18 1993

significant amount of decaying deadfall which have previously grown and died in the same area. The surrounding areas not serviced by this irrigation water are extremely arid and did not support trees, brush or pasture without irrigation the only way such vegetation would grow in those areas is by supplying irrigation water. The only source and means of irrigating these areas in question are and were the ditches and diversion structures described in this claim.

3. This information and the observations made at that time were all consistent with the information then provided by the Seller, which was that the initial stage of the existing residential structure was completed and begun to be used in the early summer of 1946, and that that was the time that the diversion and ditches for the entire property were upgraded and the irrigated areas in question were first serviced.

4. At a subsequent time, I observed some photographs with markings indicating that they were taken in the late 1940s, which showed that initial stage of the residence in its present location, with surrounding fields (although not any showing the specific fields in question and subject to this claim) being used for pasture, which would confirm the application of irrigation water in this arid region.

5. Of my own personal knowledge I am aware of the fact that irrigation water has been diverted and used as set forth in this subject claim on a yearly basis since at least June 10, 1974. I have every reason to believe that such irrigation was similarly applied for at least twenty (20) years prior to that time based on

AFFIDAVIT IN SUPPORT OF PRIORITY DATE
CLAIM A72-10424 - 2

MICROFILMED

MAR 18 1993

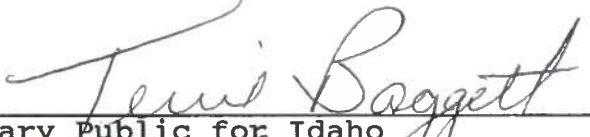

my observation of this surrounding vegetation in the area and the condition of the ditches and diversion, and have no reason to doubt that such water was first applied in 1946.

DATED This 24th day of April, 1992.

NOTE TO FILE

From: Vikie Hancock

11/25/98

Regarding: Claim number

72-10423 and 72-10424

As of the date of the preliminary director's report, there had been no correspondence, that I found in the file, back from Insingers in regard to re-filing these claims based on Water Right 72-00231 - which is based on a Decree from the claimed source, and appurtenant to the POU described in these two claims. Both claims recommended as based on Beneficial Use.

More information about the unclaimed 72-00231 right can be found in adjudication claim file 72-00232

The rate per acre calculations are based upon a 300 foot run at a 2% slope. An 8 hour set time was also used. Individual graded border evaluations, soil characteristics work sheets, and peak irrigation diversion requirement work sheets have been created and archived separately for each soil type.

Where actual rotation is shorter than the optimal rotation, optimal rotation is the criteria to be used for the recommendation analysis and, therefore, the rotation percentage adjustment is not necessary. The rate becomes the acres per soil type times the rate per acre from the above chart.

SOIL TYPE	OPTIMAL ROTATION / (chart)	ACTUAL ROTATION / (field)	ACRES PER SOIL TYPE (field)	RATE PER ACRE (chart)	TOTAL DIVERSION RATE
