Re: 94-8993

We are returning your Notice of Claim. It appears that you are using water from two streams and two springs, which is considered surface water. The date of priority is listed as August 8, 2010. When a new diversion of surface water is started after May 20, 1971, an appropriation permit had to be obtained first. The date of priority is the date the water was first used regardless of who owned the property. If the priority date of your claim is incorrect then you can correct the date and return the claim to our office. If the use of water was started after May 20, 1971, then an application for a permit to use the water needs to be filed.

Sincerely,

Kenneth Knoblock
Water Right Supervisor

Correction made - see attached.

Thank you,
Jennifer Oertli
