August 1st, 2014

RECEIVED
AUG 06 2014
DEPARTMENT OF
WATER RESOURCES

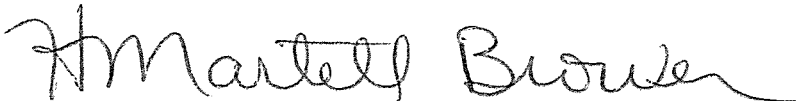

Dear Sirs:

Enclosed is Standard Form 4 for filing a late notice of claim for water rights as specified in the document and the attachments. I received a letter dated July 17, 2014 from the department of water resources of Idaho in the mail on July 22nd, 2014 asking for an immediate reply by or before July 31, 2014. I immediately notified the State of Wyoming asking for information about water rights for my property. I received some information (enclosed) on Wednesday, July 29th. I then called Michael Holliday at the IDWR in Idaho Falls to request his assistance. He met with me on the morning of July 31st to help me with the paperwork. He was very helpful. I have expedited this process to the best of my ability given the circumstances and short notice. I hope that the paperwork will be accepted.

A little history of the farm. On the maps with claims 5791 and 5792, the names of James Mason Brower (father of Harold M. Brower (my father) and Alden C. Brower (my uncle)) appear as land owners of property in sections 27 and 34. In about 1963 or 1964, my father purchased the ground from his brother (Alden) that was located in Section 27. On the death of my father (Harold) in 1997, I became the owner of the properties originally owned by my father and uncle.

Given that the water rights for the properties located in Bonneville County, Idaho are from Wyoming and the point of diversion is in Wyoming, I did not know that I needed to provide any documentation to the State of Idaho until I received the letter dated July 17, 2014.

Respectfully Submitted,

H. Martell Brower
