RE: Director's Report of Deferred De Minimis Domestic Water Use
Snake River Basin Adjudication (SRBA)

Dear Mr. and Mrs. Thaemert:

Please find enclosed the Idaho Department of Water Resources (IDWR) Director's Report of De Minimis Domestic Water Use, which has been filed with the SRBA Court. The Director's Report contains the recommendation of your domestic water use claimed under water right 63-33933. I have also enclosed a Notice of Filing Director's Report of Deferred De Minimis Domestic Water Use (Notice) which contains instructions for reviewing the recommendation, and other important information. Most Basin 63 water rights were recommended in earlier reports, and those water rights have now been decreed by the SRBA Court.

Please note you have until October 10, 2014, in which to review the recommendation of your water right and to file any objection you may have to the recommendation, should you disagree with it. Information on filing objections is contained in the Notice. If the SRBA Court does not receive any objections to the recommendation of right 63-33933, the right should be partially decreed as recommended in the near future.

Completion of the SRBA is important for the future of water management in Idaho. I invite you to contact IDWR's regional offices with any questions you have about your water right(s) or this adjudication process. Questions also can be directed to the adjudication staff at 1-800-451-4129.

Sincerely,

Carter Fritschle
Manager, Adjudication Section
