

91-7041 Accomplished Change in Purpose of Use

The original irrigation use was limited to 0.25 acres. The accomplished change in purpose of use from irrigation to domestic use can be recognized with the original 3/15 to 11/15 period of use. A second claim for year-round domestic use with a priority after the field exam was conducted is necessary to fully describe the water use on this property. The field exam date was 5/23/1985. The built date of the structure visible in the aerial photo is not shown in the county tax lot data.
