1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

I disagree with the quantity. I should not be limited to the amount of water I use from my own well on my own land.

2. Describe the changes you wish to make in the proposed recommendation:

I should be able to keep complete control of my water rights on my own land and a deep well I drilled and paid for myself.

3. Give a brief explanation as to why you disagree with these portions:

I disagree because we as free men have the right to control our own property. Under contract law. The rule of law is what our country was based on. Not the law of men.

☐ I AGREE with this proposed recommendation: no changes need to be made.
