Case No. 39576

)

An *Amended Partial Decree* was issued for the above-captioned water right on May 29, 2014. The Court recently discovered that the *Amended Partial Decree* contains errors with respect to remarks contained in the source and quantity elements. On April 2, 2014, the Idaho Department of Water Resources filed a *Notice of Completed Administrative Proceeding* along with and *Amended Director's Report* for the above-captioned claim. The remark under the source element of the *Amended Partial Decree* does not reflect the *Amended Director's Report* in that it omits the word "the" between the words "limit" and "diversion." Additionally, the following remark under the quantity element was included in the *Amended Partial Decree* even though it was not included in the *Amended Director's Report*: "Rights 37-7268 and 37-7454 when combined shall not exceed a total diversion rate of 5.09 cfs." No objection was filed to the *Amended Director's Report*. The Court finds the errors identified above to be the result of clerical errors, and the Court will issue a *Second Amended Partial Decree* to correct the clerical errors.

THEREFORE, IT IS HEREBY ORDERED that pursuant to I.C.R.P. 60(a) the *Amended Partial Decree* previously issued for the above-captioned water right is hereby **amended and decreed** as set forth in the attached *Second Amended Partial Decree pursuant to I.R.C.P. 54(b)*.
