Remarks:Comments:

1. dnelson 9/14/2006 Claim Review

Comment: This claim was originally is based on a statutory claim. The claim is for 60 acres of irrigation with a 0.90 cfs diversion rate. I performed a field exam on this claim on 6/13/2006. There are three separate pumps in the drain, and none of the three pumps were being used at the time of the exam. Two of the pumps irrigate the yards of two of the homes, and the third pump supplements the Black Canyon Irrigation District water that irrigates the farm ground. The yards also use Black Canyon Irrigation District water when it is available, the pumps are portable and can be moved from ditches to the drain fairly easily. Black Canyon Irrigation District water is the main source of water and the drain water is only used as necessary.

The original claim included springs, but the owner s son told me the drain runs all year long, so they figured it had springs in the drain keeping it in water. I told him that this was true, but once the water entered the drain, the water was considered drain water. They also listed the drain as an unnamed drain, but it is clearly the Sand Hollow Wasteway Tributary to Sand Hollow Creek.

The claim requested 60 acres of irrigation, and that is what I found. Due to the mapping capabilities, the acre amounts varied a little bit from one 40-acre tract to the other.

FIELD EXAMINERS NOTES (descriptions, other uses, questions, ect.)

55 acres WORTH OF Black Canyon water is
used on this farm. The wasteway is only used
in time of shortage to supplement Black
Canyon water. This claim was filed on
unnamed drain & springs, but ENTIRE ^{Right} ~~PROPERTY~~
is diverted from sand hollow wasteway.
There are 3 PIDs for this Right.
one at Enid's house for yard and 2 @ Doug's
House, one for Doug's yard, and one for field
irrigation. The water is only used
on the lower fields. it is cost
prohibitive to pump up to the top
of the farm's irrigation system.
60 acres of this farm ^{can be} ~~are~~ irrigated
from the wasteway. The total flow
was calculated @ 0.94 cfs, so 0.90 cfs
Requested is reasonable. There are 3 PIDs
instead of 2 PIDs. 2 of the PIDs were right
next to each other, so they were filed as one.

The open discharge is approx. 20 ft higher than the pump, so this head differential is between 5-9 psi. Therefore the pressure was estimated at 15 psi.

The two bottom photos are up close photos of the Irrigation pump and Doug's pump. The irrigation pump on the left uses a flexible discharge line to divert into the mainline going across the drain or directly into the ditches on the west side of the drain. Doug's pump goes mainly to his home.

RE: EVIDENCE OF PRIORITY

Snake River Basin Adjudication Claim No(s): A63-5191

Dear Claimants,

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated printout of the claim(s) for your reference only, it is not necessary to return this printout. You indicated, when this claim was filed, that the water right(s) was based on a "Statutory Claim" or "Beneficial Use" of the water.

Water rights of this type are established by historical beneficial use of the water, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources, since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled. **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

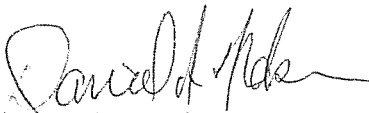

Page 2
Shippy

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area. In the near future, you will be receiving a call from us in order to set-up an appointment for a field exam.

The required evidence supporting the priority date(s) requested and the aerial photo needs to be returned to me by June 2, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

If you have any questions or concerns, please contact me at the above address.

Respectfully,

A handwritten signature in black ink, appearing to read "Daniel A. Nelson", with a stylized flourish at the end.

Notice of Claim A63-5191

NOTE: If you no longer own the property upon which this claim was filed, please contact this office immediately. Idaho State law requires that the Department be notified of a change of owner or address on a water right.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Samuel A. Shippy
