Re: Snake River Basin Adjudication (SRBA)
Recommendation of Late Claim Water Rights 21-94C, 21-96C, 21-97D, 21-2038 &
21-2062

Dear Mr. Moedl:

Please find enclosed the Idaho Department of Water Resources (IDWR) Late Claim Director's Report containing the recommendations of your late claim water rights 21-94C, 21-96C, 21-97D, 21-2038 & 21-2062. I have also enclosed a Notice of Filing Late Claim Director's Report (Notice) which contains instructions for reviewing the recommendations, and other important information. Most Basin 21 water rights were recommended in earlier reports, and those water rights have now been decreed by the SRBA Court.

Please note you have until October 31, 2014, in which to review the recommendations of your water rights and to file any objections you may have to the recommendations, should you disagree with them. Information on filing objections is contained in the Notice. If the SRBA Court does not receive any objections to the recommendations of your water rights, the rights will be partially decreed as recommended in the near future.

SRBA water right decrees play an important part in Idaho water management. I invite you to contact IDWR's regional offices with any questions you have about your water right(s) or this adjudication process. Questions also can be directed to the adjudication staff at 1-800-451-4129.

Sincerely,

Carter Fritschle
Manager, Adjudication Section
