Re: Coeur d'Alene-Spokane River Basin Adjudication (CSRBA)
Claim No(s). 95-4083, 95-4084
Permit No. 95-14449

Dear Mrs. Morris,

I received the amended claims you submitted and have enclosed preliminary recommendations for your review. It will be some time before these are reported to the court, but I thought I would send you copies for review while everything is fresh.

Note that in 95-4083, I retained the 1918 priority date claimed, but recommended 4 acres of irrigation based on the map you provided and what was calculated using GIS. It appears the 4 acres could have been flood irrigated.

I also see that you have an active permit 95-14499 (enclosed) that authorizes irrigation of 12.2 acres. This right will cover any of your more recent development.

Take a look at the information and contact me if you have any questions, concerns, or if something doesn't look quite right. If everything looks ok, then no further action is needed on your part at this time.

Thank you for working with me on this.

Respectfully submitted,

Craig L. Saxton
