

Nov. 19, 2014

I Tom McQuade have lived in the St. Joe Valley all of my life and to the best of my knowledge the well at 6118 Potlatch Road was dug on or about 1935, when the house was built and has been used continuously ever since until the new well was drilled.

IDWR/NORTH

Mr. McQuade is in his late 80's or early 90's, and has been in the St. Joe Valley his whole life. He recalls coming to this place (6118 Potlatch Rd.) as a child, but 1935 is the date he remembers feeding animals for the people who lived here. He states there had been occupants for years prior to this, but that was before the time that he can remember. We purchased the place in 1992 and used the existing dug well until 2003.
