RE: Director's Report of Deferred De Minimis Domestic and Stock Water Use
Snake River Basin Adjudication (SRBA)

Dear Ms. Wroten-Graham:

Please find enclosed the Idaho Department of Water Resources (IDWR) Director's Report of Deferred De Minimis Domestic and Stock Water Use, which has been filed with the SRBA Court. The Director's Report contains the recommendation of your domestic and stock water use claimed under water right 63-33991. I have also enclosed a Notice of Filing Director's Report of Deferred De Minimis Domestic and Stock Water Use (Notice) which contains instructions for reviewing the recommendation and other important information. Most water rights claimed in the SRBA have now been decreed by the SRBA Court.

Please note you have until January 20, 2015, in which to review the recommendation of your water right and to file any objection you may have to the recommendation, should you disagree with it. Information on filing objections is contained in the Notice. If the SRBA Court does not receive any objections to the recommendation of right 63-33991, the right should be partially decreed as recommended in the near future.

SRBA water right decrees play an important part in Idaho water management. I invite you to contact IDWR's regional offices with any questions you have about your water right(s) or this adjudication process. Questions also can be directed to the adjudication staff at 1-800-451-4129.

Sincerely,

Carter Fritschle
Manager, Adjudication Section
