Dan,

I've received the map and the first page of the claim showing that the well is in the NE1/4NE1/4NE1/4. I'm enclosing; for your review, a copy of the license, two maps - which were taken from the licensing field exam of 7/7/1989, and the colored map which is the claim recommendation map. All information was taken from the field inspection.

Does this accurately represent the well and place of use location? I can move the well placement down a bit if you prefer. It'll still be in the NE1/4NE1/4NE1/4 (the nearest 10 acres) but our recommendation will still list it as the NE1/4NE1/4 (the nearest 40). With that information, along with the parcel number, there should be no issues.

I will add all these forms to the claim file so the information will be available for review at any time. Let me know if this will suffice. And then, once we receive the information on any parcel number changes, we will add that too.

Sincerely,

Linda Werner

Thank you for your help with this claim. I have marked the portion of the NE 1/4 OF THE NE1/4 of Section 31 which I am retaining with a black marker and an "X" where the well is located. The new Parcel number will not be available until after the sale of the other 30 acres is closed and Benewah County assigns same. Please note that I have added the additional information on the form 42-1409-2, item #4 to more closely identify the point of diversion as pictured on the "map".

Thanks!
