Subject: Re: Completion date for pond

Hi Shawn

Talked with my aunt... she can not pin point a year but says it was between 1963 and 1965. She says it was there before in smaller form but was enlarged at that time.

I would have been 9 in 1965, probably did not pay much attention to it since it was a dairy farm and my grandmother usually got me shoveling manure or moving feed shortly after arrival. :-)

Hope this helps. Let me know if there are any additional forms needed to complete this process.

Originally i saw no need to do this because this property has been in my family since 1947 and it just seemed unfathomable that some bureaucrat would ever have the right to come and tell us we could not use our water. Just over the last two years i have observed that there seems to be no boundary to ridiculousness coming from the state or federal govt, which gives me great concern.

I laugh when i hear the "state owns all the water"... how absurd! I believe strongly in private property rights and no one should have the right to tell me how to manage my property unless i start affecting a neighbor adversely. Our Creator made the earth, water and air and i am pretty sure He intended them for all of us, and the creatures, living in His creation.

thanks

Rick

Hi Shawn

Can not get a hold of my aunts or uncle right now as they do not seem to be available. Will keep trying thru the day.

Thanks

Rick

Hi Shawn

Gosh... it has been there all my life and i am almost 60. Will have to call my aunt to see when Grandpa put that in. Will be right back with you. I suspect in the '50's probably mid.
sorry i missed your call.... was out of cell range much of the afternoon.

thanks

Rick
