)

Pursuant to the *Order Continuing Hearing on Uncontested Water Right*

Recommendations for Basin 93 (Continuance Order), dated December 16, 2014, the United

States of America (United States), acting on its own behalf and as trustee for the Coeur d'Alene

Tribe, moves this Court for an order delaying the issuance of partial decrees for uncontested water right recommendations in Basin 93 until the Tribal water rights in Basin 93 are addressed. The United States proposes that the Court issue an order scheduling a hearing on these uncontested claims in nine (9) months to evaluate the status of the Tribal Claims, the interplay between the Tribal Claims and these uncontested claims, and determine at that time whether to continue the delay or issue the partial decrees. The support for this Motion is provided below.

BACKGROUND

On March 31, 2014, the Idaho Department of Water Resources (IDWR) filed the Director's Report for Basin 93. The Director's Report provided a List of Recommended Water Rights and a corresponding schedule for filing objections to any water right recommendations by September 29, 2014, and any responses to objections by November 28, 2014. *See* Notice of Filing Director's Report for Basin 93 Water Rights, dated March 31, 2014, p. 2. The Report stated that "[a]fter the deadline for filing objections and responses, IDWR will file a list of all water right recommendations with no objections" and scheduled a hearing for December 16, 2014 regarding the uncontested recommendations. *Id.* Finally, the Report also provided notice of the 353 claims filed by the United States as trustee on behalf of the Coeur d'Alene Tribe (Tribal Claims). A significant number of objections and responses to objections were filed regarding the Tribal Claims.

On December 8, 2014, IDWR filed its *Notice of Filing Statement of Unobjected to Portions of the Director's Report for Basin 93 Water Rights Pursuant to Idaho Code Section 42-1412(7)* (Notice). Attachment 1 to the Notice provides a list of claims recommended allowed by the Director and for which no objection has been filed. Notice at 1. On December 16, 2014, the Court held a hearing regarding the uncontested claims and inquired whether any party wished to

be heard regarding the Court's intention to issue partial decrees for these uncontested claims. The United States respectfully requested that the Court delay issuance of the partial decrees until the Tribal Claims are addressed. The Court heard brief oral argument from counsel for the United States, then ordered that the United States file a brief outlining its position, and issued the Continuance Order¹ providing deadlines for briefing and scheduling further oral argument on this issue for January 21, 2014.

ARGUMENT

Idaho Code 42-1412(7) governs the adjudication now and provides the basis for this Motion and reads as follows:

Not less than sixty (60) days after the expiration of the period for filing objections, the director shall file with the district court a statement of those portions of the director's report for which no objection was filed. Following hearing, the district court shall enter a partial decree as to those portions of the director's report for which no objection has been filed. However, the district court may exclude unobjected claims from this list if the unobjected claim may be affected by the outcome of a contested matter. The decree shall contain or incorporate a statement of those elements of a water right contained in the director's report for water rights acquired under state law. Upon entry of the decree, the clerk of the district court shall send a certified copy of the decree to the director in accordance with section 42-1403, Idaho Code. The clerk of the district court shall notify each claimant of entry of the decree in the manner provided in the Idaho rules of civil procedure.

I.C. 42-1412(7) (emphasis added). The Idaho Legislature provided an exception for issuance of partial decrees of uncontested claims, however, when it included the caveat that the "district court may exclude unobjected claims from this list if the unobjected claim may be affected by the outcome of a contested matter." *Id.* This caveat is the basis for this Motion because the

¹ The Continuance Order directs the United States to serve a copy of this Motion and the Continuance Order on the claimants of uncontested water right claims as listed in the Attachment. The United States was able to locate addresses for all claimants on that list with one exception: Billie E. Howard, subcase 93-07002. The United States could not find an address for Mr. Howard in any of the court records. The United States served copies on all other claimants and is prepared to also serve Mr. Howard if an address is provided.

uncontested claims in Basin 93 “may be affected” by the contested Tribal Claims because the uncontested claims are largely located within the Coeur d’Alene Reservation, utilize the same water resources as the Tribal Claims, and may be subject to a potential negotiation process involving the Tribal Claims if such a negotiation moves forward. These issues are discussed in more detail below.

The uncontested claims may be affected by the Tribal Claims because the vast majority of the uncontested claims in Basin 93 are located within the boundaries of the Coeur d’Alene Reservation and are closely intertwined with Tribal Claims. While these claims are located on fee lands rather than tribally-owned or trust parcels,² the physical location of these uncontested claims within the boundaries of the Reservation and their close proximity to tribally claimed points of diversion and places of use illustrates the fact that these claims will utilize the very same water resources that the Tribal Claims will use. Based on this close geographic proximity and the interconnectivity of the resources in this area with the Tribal Claims, it makes sense to wait to issue any partial decrees until the Tribal Claims are addressed. Moreover, this delay would prevent creating potentially unrealistic expectations of the partial decree water right holders that their water rights are set in stone when, in fact, their water rights will likely be impacted by the Tribal Claims that have yet to be resolved.

Another reason that these uncontested claims may be affected by the Tribal Claims is the potential for creative solutions to water rights challenges available in the negotiation process. As the Court and parties that participated in the Snake River Basin Adjudication (SRBA) are aware, settlement negotiations allow neighbors utilizing the same water resources, such as the

² Not all lands within the Coeur d’Alene Reservation are owned by the Tribe or United States. Indeed, there are many parcels of fee lands owned by non-Indian’s within the Reservation as a result of the allotment policy in the early 20th Century which allotted individual parcels to tribal members and opened certain remaining lands to non-Indian settlement within the Reservation boundary. *See* Cohen’s Handbook of Federal Indian Law §1.04 (2005 Ed.) (providing an in-depth discussion of allotment policy).

uncontested claimants and the Tribal Claimants here, to craft unique agreements to allocate water outside the confines of the strict prior appropriation doctrine. Delaying the issuance of these partial decrees allows the flexibility to discuss such creative solutions in the negotiation context.

Though partial decrees were generally issued in the SRBA³, the unique characteristics of the CSRBA advise for a stay in this case. Unlike the SRBA, there is an intimate interconnectivity between tribal and non-Indian water rights claims in all subbasins in the CSRBA. Further, the CSRBA is a much smaller proceeding than the SRBA and therefore, issuing partial decrees does not necessarily lead to an increase in judicial or administrative efficiency. While the issuance of partial decrees may provide limited benefit, the delay of those partial decrees may prove to be an important component in the development of a successful negotiation process.

The United States understands the Court's concern that a delay in the partial decree will cause the Court to remain involved in the administration of these claims in the interim. However, given the relatively small number of claimants in the CSRBA, the number of administrative actions should be correspondingly small. Based on review of the IDWR and Court's websites, the United States understands that since the Director's Report was issued in Basin 93 there have been less than five notices of change in ownership of a water right claim in Basin 93 and even less (if any) requests for a transfer of a water right claim. No reason is

³ In the SRBA, the timing of issuance of partial decrees may have had a positive effect on resolution of tribal water rights and claims near those reservations. For example, the Shoshone-Bannock Tribes reached agreement regarding their water right claims in 1990, yet the first partial decrees were not issued in the SRBA until 1993. *See* 1990 Fort Hall Indian Water Rights Agreement by and between the Shoshone-Bannock Tribes of the Fort Hall Indian Reservation, the State of Idaho, the United States and Certain Idaho Water Users. Similarly, the partial decrees for irrigation and other non-domestic water rights in the subbasins near the Nez Perce Reservation were issued after the Snake River Water Rights Act was executed in 2004. *See* Public Law 108-447 [Title X, Div. J, 18 Stat. 3431-3441]. The timing of the partial decrees in those areas may have played a role in the successful negotiation and execution of those Indian Water Rights Settlements which recognized tribal water rights as well as providing benefits for the neighboring community.

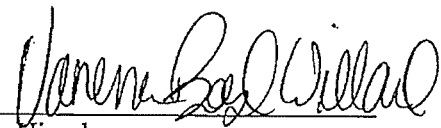

apparent for this trend of relatively few administrative actions for the Court to track in Basin 93 to change. Given the important state and federal rights at issue, the United States believes a delay is the most appropriate path forward, notwithstanding the administrative involvement required.

It is important to note that the United States is not objecting to these water rights and fully understands that issuance of partial decrees will occur in the future. The primary reason that the United States did not object to these claims was that it is focused on the Tribal Claims rather than necessarily objecting to the state law claims which will likely be junior to a majority of the Tribal Claims. The United States closely reviewed the uncontested claims for potential objections and while it had some limited concerns about the evidentiary basis for certain uncontested claims, the United States decided that those concerns did not ultimately rise to the level of objection. The United States hopes that the lack of objections to these claims may be helpful in creating a positive environment for negotiations with the water users in the area. Overall, the federal concern regarding these uncontested claims is not one of objection but simply of timing and proposes that it is reasonable to delay issuing the partial decrees until any overlapping issues with the Tribal Claims can be comprehensively addressed by the parties through settlement or by the Court.

CONCLUSION

For the reasons above, the United States moves the Court to issue an order delaying issuance of any partial decrees of these uncontested claims until the Tribal Claims are addressed. The United States proposes a status conference in nine (9) months to revisit this issue.

Dated this 29th day of December, 2014.

STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

Clerk

Deputy Clerk

In Re CSRBA

) Water Right Claim Nos.: See Attached List

Case No. 49576

) ORDER CONTINUING HEARING ON
) UNCONTESTED WATER RIGHT
) RECOMMENDATIONS FOR BASIN 93

I.

PROCEDURAL BACKGROUND

1. On March 27, 2014, the Idaho Department of Water Resources ("Department") filed its *Director's Report for Basin 93 Water Rights* ("*Director's Report*"), which included recommendations for the above-captioned water right claims. No Objections were filed to the recommendations and the time for filing such Objections has expired. Therefore, the above-captioned water right claims are uncontested.

2. On December 9, 2014, the Department filed its *Notice of Filing of Statement of Unobjected to Portions of the Director's Report for Basin 93 Water Rights*.

3. Pursuant to Idaho Code § 42-1412(7), the Court held a hearing on the entry of the *Partial Decrees* or *Orders Disallowing* for the uncontested water right claims. At the hearing, the United States Bureau of Indian Affairs, as trustee on behalf of the Coeur d'Alene Tribe ("United States"), appeared in opposition to the to the Court's entry of *Partial Decrees* or *Orders Disallowing* for all of the water right claims. The United States' opposition was made without prior notice to the Court, the claimants of the above-captioned water right claims, the Department, or the State of Idaho.

4. As a result, the Court ordered that the hearing on the uncontested water rights be continued until January 21, 2015, to allow the United States to file and serve its written opposition to the Court's entry of *Partial Decrees* or *Orders Disallowing* for uncontested water right claims.

II.
ORDER

THEREFORE, BASED ON THE FOREGOING, THE FOLLOWING ARE HEREBY ORDERED:

1. The United States shall file and serve its opposition to this Court's entry of *Partial Decrees* or *Orders Disallowing* for the above-captioned water right claims **on or before December 30, 2014.**

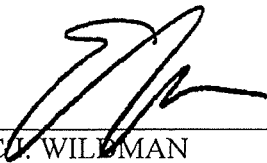

2. The United States shall serve its opposition, **along with a copy of this Order**, on the claimants of the above-captioned water right claims, the State of Idaho, and the Idaho Department of Water Resources.

3. Any party that wishes to respond to the United States' opposition shall file its response with the Court **on or before January 16, 2015.** Any party that files a response shall serve a copy of that response on the United States, the State of Idaho, and the Idaho Department of Water Resources.

4. NOTICE IS HEREBY GIVEN that this Court's hearing on uncontested water right recommendations for basin 93 is continued **to January 21, 2015, at 1:30 p.m. (Pacific Time) at the Snake River Basin Adjudication District Court, 253 3rd Avenue North, Twin Falls, Idaho.** Telephone participation will be available by dialing 1-215-446-0193 and entering 406128# when prompted. **However, no cell phones or speaker phones will be permitted as they interfere with our sound system making the proceeding difficult to accurately record.** Video teleconferencing ("VTC") will also be available by appearing at either (1) the Idaho Department of Water Resources, Northern Regional Office, 7600 N. Mineral Drive, Suite 100, Coeur d'Alene, Idaho 83815, or (2) the Idaho Department of Water Resources, Idaho Water Center, 322 E. Front St., Conference Rm. B, Boise, Idaho, or (2)

IT IS SO ORDERED.

DATED: December 16, 2014

ERIC WILMAN
Presiding Judge
Coeur d'Alene-Spokane River Basin Adjudication

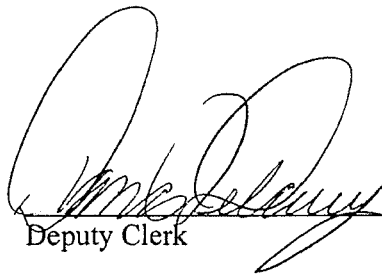

CERTIFICATE OF MAILING

I certify that a true and correct copy of the *Order Continuing Hearing on Uncontested Water Right Recommendations for Basin 93* was mailed on December 16, 2014, by first-class mail to the following:
