RE: CSRBA CLAIMS 94-8073, 94-8074, 94-8075 & 94-9372

Dear Mr. Landstaff,

Your claims to a water right are being reviewed for recommendation. I am unable to confirm the location of your points of diversion from the spring or Skeel Gulch Creek or the two wells as you claimed. As we discussed by phone yesterday, I am sending you some maps to mark out the points for your claims.

Would you please review the enclosed map and mark the locations of the following:

1. The two well sites.
2. The spring site where it is diverted to the house.
3. The point of diversion in Skeel Gulch Creek – where the pump is located.
4. Identify which building is your home site where the domestic water is used.
5. On the 2nd map, will you identify the areas you irrigate with the creek water?

Proof - You will need to provide some "Evidence of Priority Date" for the creek water as well. See the enclosed brochure that explains this requirement. It may simply be an affidavit from your neighbor as we talked about by phone. Also, if you could provide the horsepower rating of your pump and the operating pressure (PSI), I can determine the correct flow rate for this right. You claimed a flow rate of 36 gpm.

Finally, review the new domestic water right claim, 94-9372, for the spring water to the house. **If correct please sign and date the claim and return it to me with the filing fee of \$25.**

Remember to return the two maps and the new claim back to me at the address above. Without this information your claim may not be accurately recommended to the CSRBA court. I have enclosed a return envelope for your use as well.

Feel free to contact me on these issues via phone, email or mail.

Sincerely,

A handwritten signature in blue ink, appearing to read "Steve Clelland", with a stylized flourish at the end.

STEVE CLELLAND

Sr. Water Resource Agent
