6. csaxton 12/12/2005 Delivery
Comment: Watermaster Records show delivery of 8 inches of 5/1/1882 water to the claimant.

7. csaxton 12/12/2005 1921 Transfer
Comment: There was a transfer on this right done in 1921. A map in the transfer placed 5 acres on the west side of the SENE S.35 and 5 acres on the west side of the NESE S.35. However, the practice does not appear to follow the constraints of the transfer. The POU claimed under 67-353A, 67-353C, and 67-353D are not in the POU described in the 1921 transfer. But the water master shows delivery to the claimants of 67-353A, 67-353C, and 67-353D and the owner of the ground that the 1921 transfer places the POU on, Paradis, does not claim the water under claims 67-353A, 67-353C, and 67-353D. Recommend the splits of 67-353 as delivered now and not per the 1921 transfer.

8. csaxton 12/12/2005 POU
Comment: At 5/8 inches per acre, this right can recommend a total of 12.8 acres.

9. csaxton 12/28/2005 Recommendation
Comment: EOP submitted for 67-4132 that supports flood water on 15 acres despite decreed water is only for 12.8. Changed recommendation to include a 15 acre POU limiting the decreed water to 12.8 acres.

EFFECTIVE APRIL 10, 1911

STATE ENGINEER'S OFFICE

Regulations as to Change of Point of Diversion.

Section 3247 of the Revised Codes provides that a person entitled to the use of water, may change the place of diversion if others are not injured by such change. The Board of Irrigation has adopted the following regulations as to procedure under said section:

The person desiring to change point of diversion must file with the State Engineer an affidavit describing his water right, setting forth his intent to change point of diversion and the reasons for such change, together with an averment that no one will be injured thereby and that deponent will make such change at his own risk.

The point to which it is desired to change the place of diversion must be described as follows:

When the amount claimed does not exceed 25 cubic feet per second and point of diversion will be on surveyed land, locate same by giving the legal description of the 40 acre tract in which it will be situated. If upon unsurveyed land, give approximate distance to mouth of stream from which water is claimed or to the mouth of some creek flowing into said stream. Where there is more than one point of diversion, describe each separately and specify the amount claimed from each.

Where the water claimed exceeds 25 cubic feet per second, locate the point to which it is desired to change the place of diversion as follows:

If upon or near surveyed land, tie point of diversion by course and distance to section or quarter section corner. If said point will be more than two miles from the corner of a public survey, the tie may be made to the mouth of the stream from which the water is claimed or to the mouth of some creek flowing into said stream.

The affidavit must be accompanied by maps in duplicate, showing the following details:

1. If for irrigation and domestic use:
 - (a) Name of applicant.
 - (b) Section, town and range numbers, where public survey has been made.
 - (c) Source or sources of supply.
 - (d) Point or points of diversion.
 - (e) Route of ditch or ditches, including laterals delivering water within one mile of each 160 acre tract of the land to be irrigated.
 - (f) Lands to be irrigated to be shown by cross-hatching, outlining, or coloring.
2. If for other than irrigation and domestic purposes:
 - (a) Name of applicant.
 - (b) Section, town and range numbers, where public survey has been made.
 - (c) Source or sources of supply.
 - (d) Point or points of diversion.
 - (e) Route of ditch or ditches.
 - (f) Point or points of use.
 - (g) Point or points of return to stream after use.

If application is for more than 25 cubic feet per second, the maps must be prepared from actual survey and must be certified to by the engineer in charge of survey, in the following form:

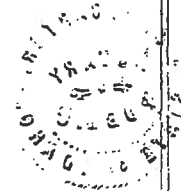

I hereby certify that this map was prepared from an actual survey made by me _____ 191_____, and correctly shows position of points indicated thereon.

Engineer.
