MEMORANDUM

Date: October 14, 2005

To: File 67-355A, 355C, 355D, 67-363C, 67-336E, 67-363F

From: Craig L. Saxton

Subject: Meeting to discuss the validity of TR 884

Claimant of 67-355A, Larry and June Derie, argue that TR 884 did not move 5.5 inches of decreed right from their property. They argued that the full diversion rate defined by decreed right 67-355 (41.6 inches) is applicable to the property they currently own and was never transferred.

Evidence provided from claimant can be summarized by:

- Water Master Records showing delivery of 41.6 of 1884 water to Derie.
- 1980 deed to a portion of the Derie property listing 41.6 inches on the deed.
- Portions of a deed trail evidencing that 67-355, when decreed to the property owned by Mr. Derie now, and was never originally applicable to the 20 acres that TR 884 moved it from and to.
- 1918 deed for the 20 acres now owned by Rice – showing 6.5” of water from Mill creek.

After reviewing the evidence, it was concluded that despite documentation provided by Mr. Derie, **the intent of the transfer was, among other things, to take 5.5 inches from decreed right 67-355 and move that water as defined by TR 884.** The water master delivery records appear to be in violation of TR 884, and the deed provided by Mr. Derie showing 41.6 inches on his property does not out-weigh the administrative action of the transfer.

The 6.5 inches applicable to the 20 acres now owned by Rice are not related to the water that was described in TR 884 and therefore does not affect the validity of TR 884 in anyway.

In addition, the owner of the property in which water right 67-355 was applicable to, had no objections to TR 884 and was signed by himself as well as the water master at the time.

My guidance is to recommend SRBA claims associated with TR 884, as defined by TR 884.

RE: Disputed ownership of land for 67-355 (applies to Transfer 884)

Larry Derie challenged the split analysis I did for 67-355, which would have given him 0.723 cfs for his claim 67-355A instead of the full 0.83 he is claiming. Derie asserts Spahr did not own one of the tracts of land involved in Transfer 884 and, so, Transfer 884 is invalid and the full right should go to Derie.

I have looked exhaustively into the Backfile and come to the conclusion that, as far as IDWR knew and knows today, Spahr owned the land. There is no information to the contrary. There were no objections when the transfer was posted in the Adams County Leader and there is an affidavit from Frank Galey, Jr., stating that he was aware of the transfer and saw no harm in it. However, there is no direct evidence that Spahr owned the land, only documents from his attorney which state he owned the land. I have summarized those statements below.

Notes concerning ownership from the Backfile:

11 February 1957

Titled "RE APPLICATION OF W.H. SPAHR FOR PERMIT TO TRANSFER WATER RIGHTS FOR ROTATING USE UPON TRACTS UPON WHICH RIGHTS ARE NOW APPURTENANT"

This document accompanies Mr. Spahr's application for transfer and states numerous times that Mr. Spahr owned the property. It is specific about when he bought the property, with that in Section 34 being owned for 26 years and acquired by a direct chain of deeds, and the property in Section 36 owned for 46 years and acquired by a direct chain of deeds.

18 February 1957 letter from Carl H. Swanstrom (Spahr's attorney) to Mark Kulp, State Reclamation Engineer

"I have enclosed duplicate application forms in connection with a request by Mr. W.H. Spahr, of Council, for permission to have officially sanctioned, a rotating use of two (2) small Mill Creek Water Rights, both of which are owned by him in connection with two separate tracts of real property, both owned by him. The applications have been approved by Frank S. Galey, Jr. and James R. Stiles, two water right holders in Mill Creek and the only persons who could possibly be affected by the proposed plan."

Based on this information, Mr. Derie must provide evidence contrary to Spahr owning the land if he still wishes to challenge Transfer 884 and acquire the full 0.83 cfs.

Transfer 884

Transfer 884 was signed 29 May 1957. This transfer pertains to decreed rights 67-355 and 67-363. William Spahr was the owner of two tracts of land, one tract overlain by 355 water and another overlain by 363 water.

Spahr wanted to change the place of use for his 355 and 363 water, but only during a certain part of the season. He wanted to combine the 355 and 363 water onto 355 POU from 03/15 to 06/30 and then he wanted to combine the use of 355 and 363 water onto the 363 POU from 07/01 to 11/15. In essence, he wanted more water on the 355 POU early in the year, and then stop watering the 355 POU on 07/01 to put all the water on the 363 POU.

Since Spahr only owned part of the decreed POU for 355 and 363, when the transfer was approved and signed, decreed rights 355 and 363 were essentially split into three parts. One part of each, the larger portion, remained as it had been with the water/acreage going to parties holding the land not owned by Spahr. Two parts were dedicated to Spahr's new rights (one with a designated irrigation season 03/15 to 06/30 for the 355 POU and the other with a designated irrigation season 07/01 to 11/15 for the 363 POU). Hence, there are two splits of 355 with Spahr's name, each with a different POU and season of irrigation and the same for 363. For more information, see the left-hand tables in the attached spreadsheet.

5.5 (=0.11 cfs) inches of 355 water were allotted for this task, as were 4.75 (=0.095 cfs) inches of 363 water.

SRBA claims

For more information on the claims, see the right hand side of attached spreadsheet.

67-355

355C

Quantity: 0.11 cfs (= 5.5 inches)

Acreage: 18

Season: 03/15 to 06/30

The claimant is claiming Spahr's split of 355 (355C) for the first part of the irrigation. This complies with what we know about the outcome of Transfer 884 and appears good to go, perhaps with moderate acreage modification. This is also on the same POU as Spahr's 355 land, also making us good to go.

355D

Quantity: 0.13 cfs (= 6.5 inches)

Acreage: 27

Season : 03/15 to 11/15

This claim will have to be modified in order to be recommended. It claims a POU on Spahr's 355D property (part of the original 363 POU), but includes the entire irrigation season. We can recommend the acreage, but will have to modify season of use to 07/01

to 11/15 and quantity to 0.11 cfs to comply with Transfer 884. Spahr was not allowed to use 355 water on this POU from 03/15 to 06/30.

355A

Quantity: 0.83 cfs

Acreage: 67

Season: 03/15 to 11/15

This claim will have to be modified in order to be recommended. It appears to claim all of the original Muir v. Allison decreed quantity and acreage. Since a transfer was approved in 1959, the claim will have to be modified to comply with the transfer. The quantity will have to be modified to 0.723 cfs (0.83 was the original decreed amount and Transfer 884 appropriated 0.11 cfs as noted above, so $0.83 - 0.11 = 0.723$). The acreage may have to be modified as well. The season of use will not have to be modified.

11421

Quantity: 0.42 cfs

Acreage: 21

Season: 03/15 to 11/15

There is a long remark on 11421 that is probably worth reading. In short, it suggests 11421 may need to have its basis amended to decreed and related to 67-355. We do not believe this is the case, as all 355 water has already been appropriated, and properly so.

67-363

363C

Quantity: 0.1 cfs

Acreage: 18

Season: 03/15 – 06/30

The same claimant claiming 355C is claiming 363C. This is appropriate, as it follows Spahr's 363C water right. This claim can be recommended as is, with maybe some slight acreage modifications depending on the lay of the land. The quantity also would be more appropriately recommended as 0.095 to comply with the 4.75 inches of 363 water mentioned in the transfer.

363E

Quantity: 0.32

Acreage: 38

Season: 03/15 – 11/05

There is documentation in the 363 backfile of this claimant writing to determine when their water right was reduced. They have claimed the full water right, but this will have

to be modified in accordance with Transfer 884. Probably they should have claimed the 363A allotment of 0.225 cfs (the flow left over after Spahr's transfer with $0.32 - 0.095 = 0.225$), and that is how we should recommend it.

363F

Quantity: 0.1

Acreage: 27

Season: 07/01-11/15

The same claimant claiming 355D is claiming 363F. This is appropriate, as it follows Spahr's 363D water right. This claim can be recommended as is, with maybe some slight acreage modifications depending on the lay of the land. The quantity also would be more appropriately recommended as 0.095 to comply with the 4.75 inches of 363 water mentioned in the transfer.

14097

Quantity: 0.530 cfs

Acreage: 40 (see note below)

Season: 07/01 – 11/15

The notes in this file say it is a combination of 363D and 67-359. The full 14097 claim is for 0.530 cfs. 363D was originally claimed for 07/01 to 11/15, but when it was combined with 359, the irrigation season was changed to 03/15 to 11/15. It appears this claim should not be recommended for 363 water, but we should recommend it as 359 water. All of the 363 water has apparently been appropriated by the other 363 claims, and properly so.

Re: Notice of Claim to a Water Right No. 67-348D, 67-363F, 67-355D, 67-4158 & 67-11430

Dear Claimant(s):

Enclosed is a copy of the above referenced claim(s), which reflects the change in ownership of the land and appurtenant water rights, covered under the original filing.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your water right. This claim was filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience and cooperation, as we have had several water right changes to process. If you have any questions concerning the enclosed claim(s), please feel free to contact this office.

Sincerely,

Denise Hatfield
