Re: Snake River Basin Adjudication (SRBA)
Recommendation of Late Claim Water Right 21-13193

Dear Mr. Rigby:

Please find enclosed the Idaho Department of Water Resources (IDWR) Late Claim Director's Report containing the recommendation of North Fork Reservoir Co. late claim water right 21-13193. I have also enclosed a Notice of Filing Late Claim Director's Report (Notice) which contains instructions for reviewing the recommendation, and other important information. Most Basin 21 water rights were recommended in earlier reports, and those water rights have now been decreed by the SRBA Court.

Please note you have until February 27, 2015, in which to review the recommendation of this water right and to file any objection you may have to the recommendation, should you disagree with it. Information on filing an objection is contained in the Notice. If the SRBA Court does not receive any objections to the recommendation of this water right, the right will be partially decreed as recommended in the near future.

SRBA water right decrees play an important part in Idaho water management. I invite you to contact IDWR's regional offices with any questions you have about your water right or the adjudication process. Questions also can be directed to the adjudication staff at 1-800-451-4129.

Sincerely,

Carter Fritschle
Manager, Adjudication Section
