**MOTION FOR ORDER DECREETING
WATER RIGHTS**

The State of Idaho, by and through its attorneys of record, files the attached *Stipulation* (“Stipulation”) entered into by certain parties to the above captioned subcases with the Court pursuant to Administrative Order 1 § 4.d.(3) and moves the Court for: (1) an order rescinding this Court’s referrals to Special Masters of further proceedings in the above-captioned subcases¹; and (2) an order decreeing water rights consistent with paragraph 5 of the Stipulation and Attachments A and D to the Stipulation. The Stipulation is attached hereto as Exhibit A.

BACKGROUND

On January 26-28, 2015, certain parties to the above-captioned subcases signed the Stipulation to resolve all remaining objections in the above described subcases. The Stipulation provides that it is effective “after execution by all signatories.” All signatories have executed the Stipulation with the exception of the United States Bureau of Reclamation (“USBR”), which has represented that it expects to have a decision on whether it can sign the Stipulation within 60 days.

¹ The orders of referral for subcase nos. 01-10620, 01-10621, 01-10622, and 01-10623 were combined with orders consolidating these subcases with subcase nos. 01-10614, 01-10615, 01-10616, 01-10617, and 01-10618. The parties do not seek rescission or modification of the orders of consolidation.

This Stipulation resolves all remaining objections² in the above-captioned subcases, and proposes partial decrees that are consistent with prior stipulations and Special Master recommendations in these subcases, modified only to the extent necessary to accommodate the resolution of remaining objections as proposed in the Stipulation. The proposed partial decrees set forth in Attachment A to the Stipulation are being submitted as a full and final resolution of the following storage water right claims filed by the USBR in the following subcases:

01-10622 (Lake Walcott)
01-10620 (American Falls)
01-10621 (Palisades)
01-10623 (Jackson Lake)
21-13161 (Island Park)

² The term “remaining objections” refers to all objections to the late claims as well as the six objections reserved in the September 25, 2012 (“2012 Stipulation”). The six enumerated matters explicitly reserved in Paragraph 11 of the 2012 Stipulation, were:

1) the City of Pocatello’s objections, and the responses filed thereto, concerning the Name & Address element, Purpose of Use element, Period of Use element, and Place of Use element for 1-2068, 2) the Idaho Power Company’s objection, and the responses filed thereto, concerning the precise wording of the Ownership remark for 1-2064, 3) the City of Pocatello’s objection, and the responses filed thereto, concerning the precise wording of the Ownership remark for 1-2068, 4) the objections filed by Northside and Twin Falls canal companies, and A&B, Burley, Falls; Milner and Minidoka irrigation districts, and the responses thereto, concerning a “refill” remark for 1-2064, 1-2068, 1-10042, and 1-10043, 5) further proceedings on the *Amended Order Granting United States’ Motion, Certification, and Partial Special Master Report And Recommendation* (Sept. 14, 2012), and 6) any issue arising in the Basin-Wide 17 proceeding or any other storage water right basin-wide issue.

2012 Stipulation at 6-7 (boldface and underlining added).

The first three enumerated matters reserved in Paragraph 11 of the *2012 Stipulation* were resolved prior to the execution of the Stipulation attached hereto. See *Special Master Report And Recommendation Amended Nunc Pro Tunc, Subcases 01-2068 (USDI/BOR) and 01-2086Y (City of Pocatello)* (Apr. 15, 2013); *Order Denying Motion To Alter Or Amend, Subcases 01-2068 (USDI/BOR) and 01-2086Y (City of Pocatello)* (Jun. 24, 2013); *Order Dismissing Notice Of Challenge With Prejudice, Subcase Nos. 01-2068 and 01-2086Y* (Jul. 10, 2013); *Special Master Report And Recommendation, Subcases 01-219 (Lake Walcott), 01-2064 (American Falls Reservoir), 01-4055 (Jackson Lake), 01-10042 (American Falls Reservoir), 01-10043 (Palisades Reservoir), 01-10044 (Jackson Lake), 01-10045 (Jackson Lake) (USDI/BOR)* (Jan. 9, 2013); *Stipulation-Idaho Power Company’s Motion To Alter Or Amend Special Master Report And Recommendation, Subcase No. 01-2064 (American Falls)* (Aug. 15, 2013).

The last three matters enumerated in paragraph 11 of the *2012 Stipulation* are resolved by the Stipulation attached hereto.

Paragraph 5 of the Stipulation also provides that the following storage water right claims filed by the Surface Water Coalition³ will be decreed disallowed by the SRBA District Court:

01-10614 (Jackson Lake)
01-10615 (Palisades)
01-10616 (American Falls)
01-10617 (Lake Walcott)
01-10618 (American Falls)

Storage water rights nos. 01-219 (Lake Walcott), 01-2064 (American Falls), 01-10042 (American Falls), 01-2068 (Palisades), 01-10043 (Palisades), 01-4055 (Jackson Lake), 01-10044 (Jackson Lake), 01-10045 (Jackson Lake), 21-2156 (Island Park), 21-10560 (Island Park), 21-4155 (Grassy Lake), and 25-7004 (Ririe) are the licensed and decreed storage water rights for the parenthetically-identified reservoirs, and are referenced herein as the “Base Storage Water Rights.” The signatories to the Stipulation agree that partial decrees should be entered for the Base Storage Water Rights as set forth in Attachment D to the Stipulation.⁴

Most of the parties to these subcases have approved the Stipulation. Some parties, however, did not participate in settlement discussions. Thus, in the interest of expediting approval of the Stipulation, the State moves the Court to 1) rescind this Court’s referrals to Special Masters of further proceedings in the above-captioned subcases; and 2) issue an order to show cause why the Court should not decree the water rights as set forth in paragraph 5 of the Stipulation and Attachments A and D to the Stipulation. The State of Idaho requests the Court establish a deadline for parties opposing the issuance of the decree to provide briefs in support of

³ For purposes of this Stipulation, the “Surface Water Coalition” consists of: A&B Irrigation District, American Falls Reservoir District No. 1, American Falls Reservoir District No. 2, Burley Irrigation District, Falls Irrigation District, Hillsdale Irrigation District, Milner Irrigation District, Minidoka Irrigation District, North Side Canal Company, and Twin Falls Canal Company. *Memorandum In Support Of Motion To File Late Notices Of Claims, Subcase Nos. 01-10614, 01-10615, 01-10616, 01-10617, 01-10618 and 01-10619* (Jan. 11, 2013).

⁴ It is the intent of the signatories to the Stipulation that it supersede the 2012 stipulation submitted in Subcase Nos. 01-219, et al. (Sep. 25, 2012), and the *Stipulation-Idaho Power Company's Motion To Alter Or Amend Special Master's Recommendation, Subcase No. 01-2064* (Aug. 15, 2013).

their opposition and then provide time for the parties to the Stipulation to respond. The State further requests a hearing on this motion.

DATED this 30th day of January 2015.

LAWRENCE G. WASDEN
Attorney General

STIPULATION

This Stipulation is made and entered into among the Parties to the above-referenced subcases and the Director (“Director”) of the Idaho Department of Water Resources (“Department”).¹ The Parties, by and through their counsel of record, and the Director hereby stipulate and agree as follows:

1. This stipulation resolves disputes regarding the “fill” and/or “refill” of the storage water rights for on-stream reservoirs in Basins 01, 21 and 25 that have arisen in various SRBA proceedings including but not limited to subcase nos. 01-2064, 01-2068, and 00-91017, and issues reserved under paragraph 11 of the *Stipulation* of September 25, 2012 “concerning a ‘refill’ remark” and “any issues arising in the Basin Wide 17 proceeding.”²

2. The proposed partial decrees set forth in Attachment A to this stipulation will be submitted as a full and final resolution of the following storage water right claims filed by the United States Bureau of Reclamation (“USBR”):

01-10622 (Lake Walcott)
01-10620 (American Falls)
01-10621A (Palisades)
01-10621B (Palisades)
01-10623 (Jackson Lake)
21-13161 (Island Park)

3. The proposed recommendations set forth in Attachment B to this stipulation will be submitted as Director’s recommendations for the following storage water right claims filed by the USBR and North Fork Reservoir Co.:

21-13193 (Henrys Lake)

¹ The Director and the Idaho Department of Water Resources are not “parties” to the Snake River Basin Adjudication but the Director is included, acting for the Department, as a bound signatory to this stipulation as the Director is vested with the direction and control of the distribution of water from all natural water sources within a water district pursuant to Idaho Code § 42-602.

² *Stipulation, Subcase Nos. 01-219, et al.* (Sep. 25, 2012), at 6-7.

21-13194 (Grassy)
25-14413A (Ririe)
25-14413B (Ririe)

The Parties agree not to object to the Director's recommendations for these water rights and agree the water rights should be decreed as recommended.

4. The water right claims and recommendations identified in paragraphs 2 and 3 above are collectively referenced as "Enlargement Storage Water Rights."

5. The following storage water right claims filed by the Surface Water Coalition³ will be decreed disallowed by the SRBA District Court:

01-10614 (Jackson Lake)
01-10615 (Palisades)
01-10616 (American Falls)
01-10617 (Lake Walcott)
01-10618 (American Falls)

6. Storage water rights nos. 01-219 (Lake Walcott), 01-2064 (American Falls), 01-10042 (American Falls), 01-2068 (Palisades), 01-10043 (Palisades), 01-4055 (Jackson Lake), 01-10044 (Jackson Lake), 01-10045 (Jackson Lake), 21-2156 (Island Park), 21-10560 (Island Park), 21-4155 (Grassy Lake), 21-2154 (Henrys Lake), 21-2161 (Henrys Lake), 21-12946 (Henrys Lake), and 25-7004 (Ririe) are the licensed and decreed storage water rights for the parenthetically-identified reservoirs, and are referenced herein as the "Base Storage Water Rights," to distinguish them from the "Enlargement Storage Water Rights" for the same reservoirs, which are identified above in paragraphs 2 and 3.

7. Partial decrees have been entered for the Base Storage Water Rights for Henrys Lake. These partial decrees should be modified to include in their "Quantity" elements the same

³ For purposes of this stipulation, the "Surface Water Coalition" consists of: A&B Irrigation District, American Falls Reservoir District No. 1, American Falls Reservoir District No. 2, Burley Irrigation District, Falls Irrigation District, Hillsdale Irrigation District, Milner Irrigation District, Minidoka Irrigation District, North Side Canal Company, and Twin Falls Canal Company. *Memorandum In Support Of Motion To File Late Notices Of Claims, Subcase Nos. 01-10614, 01-10615, 01-10616, 01-10617, 01-10618 and 01-10619* (Jan. 11, 2013).

combined volume limitation remark that appears in the “Quantity” element of the Enlargement Storage Water Right for Henrys Lake (21-13193). The proposed partial decrees for the Henrys Lake Base Storage Water Rights as so modified and a proposed motion to set aside the decrees are attached hereto in Attachment C.

8. Partial decrees should be entered for the remaining Base Storage Water Rights as set forth in Attachment D hereto.

9. If partial decrees are entered for the Base Storage Water Rights and the Enlargement Storage Water Rights as proposed in Attachments A, B, C, and D hereto (collectively and individually, the “Storage Water Rights”), all natural flow arising upstream from the decreed point of diversion of a Storage Water Right , after subtracting the natural flow delivered to water rights with identical or earlier priorities, will be accrued⁴ towards the annual volume set forth in the “Quantity” element of the Storage Water Right, except as otherwise provided by the condition under the “Quantity” element of water right numbers 01-10621B (Palisades) and 25-14413B (Ririe) providing for the opportunity to “stop and start” the accrual of water. The amount of water accrued towards the annual volume set forth in the “Quantity” element of a Storage Water Right will not be determined or adjusted on the basis of reservoir contents or on the basis of releases of water from the reservoir(s).

10. Water accrued to the Enlargement Storage Rights shall be allocated to federal contractors and to uncontracted space in reservoirs that store water for distribution pursuant to water right nos. 1-219, 1-2064, 1-2068, 1-4055, 1-10042, 1-10043, 1-10044, 1-10045, 21-2154, 21-2156, 21-2161, 21-4155, 21-10560, 21-12946, and 25-7004.

⁴ The term “accrued” as used herein and in the proposed partial decrees attached hereto refers to accounting accruals rather than to increases in the volume of water physically stored in the reservoir(s). Water that is “accrued” towards the annual volume of a Storage Water Right is water that has been “counted” or “credited” for purposes of accounting for the distribution of natural flow to the Storage Water Right in accordance with its decreed elements.

11. The priority date of the Enlargement Storage Water Rights shall not affect the allocation of storage water between reservoirs.

12. Pursuant to Idaho Rule of Evidence 408, nothing in the Stipulation, including the stipulated entry of Partial Decrees or other evidence or pleading submitted or relied upon for approval of the Stipulation, or any offers or compromises made in the course of negotiating the Stipulation, shall be construed as admissions against interest or tendered or used as evidence to support or oppose any party's claims or objections in the SRBA or in any other adjudication involving claims for the same or similar purposes, including the quantities of water claimed, or in any other manner by any party in the SRBA in any future proceeding, other than those for interpretation, enforcement or administration of the Stipulation or the Partial Decrees or for a purpose contemplated by Rule 408.

13. Each of the undersigned represent that they are authorized to execute this Stipulation on behalf of the entity they represent.

14. Nothing in this Stipulation shall be construed as creating liability against the United States for any claims related to or arising from flood control releases.

15. This Stipulation may be executed in counterparts, each of which shall be deemed to be an original, but all of which, taken together, shall constitute one and the same agreement.

16. This Stipulation shall become effective after execution by all signatories.

RECOMMENDED WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 1-10622

NAME AND ADDRESS: UNITED STATES OF AMERICA ACTING THROUGH
BUREAU OF RECLAMATION
REGIONAL DIRECTOR PN CODE-3100
1150 N CURTIS RD STE 100
BOISE ID 83706-1234

SOURCE: SNAKE RIVER

TRIBUTARY: COLUMBIA RIVER

QUANTITY: 11,641,000.00 AFY

Water right nos. 01-219 and 01-10622 are limited to the total combined annual diversion volume necessary to allocate a total of 95,200 acre-feet of irrigation storage water per year to the consumers or users of the irrigation storage water.

PRIORITY DATE: 10/31/1965

This water right is subordinate to all existing and future water rights established pursuant to Idaho law for use within the Snake River Basin above Milner.

POINT OF

DIVERSION:

T09S R25E S1 NESW Lot 3 Within MINIDOKA & CASSIA Counties

PURPOSE AND

PERIOD OF USE:

PURPOSE OF USEPERIOD OF USEQUANTITY

IRRIGATION STORAGE

01/01 12/31

11,641,000.00 AFY

Water accruing to this water right supplements water accrued under water right no. 01-219, and water available under this water right will be allocated for end use as provided in contracts entered into between the United States and federal contractors referenced in provision 2 as if it had accrued under water right no. 01-219.

PLACE OF USE:

Place of use is on those lands identified under water right no. 1-219.

Place of use for storage is Lake Walcott, provided, however, that water under this right may be temporarily held in the unoccupied space of any of the reservoirs upstream of Milner Dam, located at Township 10S, Range 21E, Sections 28 and 29, when determined by the Water District 01 Watermaster (as supervised by the Director of the Department of Water Resources), the Water District 01 advisory committee, and the United States Bureau of Reclamation that such temporary storage will maximize the storage of water upstream of Milner Dam.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

1. The name of the United States of America acting through the Bureau of Reclamation appears in the Name and Address sections of this partial decree. However, as a matter of Idaho Constitutional and Statutory Law, title to the use of the water is held by the consumers or users of the water. The irrigation organizations act on behalf of the consumers or users to administer the use of the water for the landowners in the quantities and/or percentages specified in the contracts between the Bureau of Reclamation and the irrigation organizations for the benefit of the landowners entitled to receive distribution of this water from the respective irrigation organizations. The interest of the consumers or users of the water is appurtenant to the lands within the boundaries of or served by such irrigation organizations, and that interest is derived from law and is not based exclusively on the contracts between the Bureau of Reclamation and the irrigation organizations.

2. The allocation of storage to federal contractors and the location of that storage, including carryover storage, in the reservoir system shall be determined by the United States Bureau of Reclamation pursuant to federal reclamation law and contracts entered into between the United States and federal contractors. The Water District 01 Watermaster (as supervised by the Director of the Department of Water Resources) shall distribute the stored water in accordance with the allocation instructions

from the United States Bureau of Reclamation. "Reservoir system" shall mean all Federal reservoirs on the Snake River and its tributaries down to and including Lake Walcott, which store water for distribution pursuant to water right nos. 1-219, 1-2064, 1-2068, 1-4055, 1-10042, 1-10043, 1-10044, 1-10045, 1-10620, 1-10621A, 1-10621B, 1-10622, 1-10623, 21-2156, 21-4155, 21-10560, 21-13161, 21-13194, 25-7004, 25-14413A and 25-14413B.

3. This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may ultimately be determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

4. The operation, use and administration of this water right is subject to the terms and conditions of the Settlement Agreement signed on February 14, 2006 with Minidoka Irrigation District, Burley Irrigation District, Twin Falls Canal Company, North Side Canal Company and American Falls Reservoir District #2.

5. This decree does not alter, amend, or modify the contracts entered into between the various federal contractors and the United States Bureau of Reclamation, as amended, including but not limited to the contractual storage exchanges, in connection with the Palisades project and the Minidoka project, which contracts remain binding among the parties.

6. The exercise and administration of this water right is subject to the terms and conditions of the Stipulation effective _XX/XX_, 2014, which is incorporated herein by reference.

POWER STORAGE	01/01 12/31	11,714,000.00 AFY
		TOTAL 11,714,000.00 AFY

Water accruing to this water right supplements water accrued under water right nos. 01-2064 and 01-10042, and water available under this water right will be allocated for end use as provided in contracts entered into between the United States and federal contractors referenced in provision 2 as if it had accrued under water right nos. 01-2064 and 01-10042.

PLACE OF USE:

Place of use is on those lands identified under water right nos. 01-2064 and 01-10042.

Place of use for storage is American Falls Reservoir, provided, however, that water under this right may be temporarily held in the unoccupied space of any of the reservoirs upstream of Milner Dam, located at Township 10S, Range 21E, Sections 28 and 29, when determined by the Water District 01 Watermaster (as supervised by the Director of the Department of Water Resources), the Water District 01 advisory committee, and the United States Bureau of Reclamation that such temporary storage will maximize the storage of water upstream of Milner Dam.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

1. The name of the United States of America acting through the Bureau of Reclamation appears in the Name and Address sections of this partial decree. However, as a matter of Idaho Constitutional and Statutory Law, title to the use of the water is held by the consumers or users of the water. The irrigation organizations act on behalf of the consumers or users to administer the use of the water for the landowners in the quantities and/or percentages specified in the contracts between the Bureau of Reclamation and the irrigation organizations for the benefit of the landowners entitled to receive distribution of this water from the respective irrigation organizations. The interest of the consumers or users of the water is appurtenant to the lands within the boundaries of or served by such irrigation organizations, and that interest is derived from law and is not based exclusively on the contracts between the Bureau of Reclamation and the irrigation organizations.

2. The allocation of storage to federal contractors and the location of that storage, including carryover storage, in the reservoir system shall be determined by the United States Bureau of Reclamation pursuant to

federal reclamation law and contracts entered into between the United States and federal contractors. The Water District 01 Watermaster (as supervised by the Director of the Department of Water Resources) shall distribute the stored water in accordance with the allocation instructions from the United States Bureau of Reclamation. "Reservoir system" shall mean all Federal reservoirs on the Snake River and its tributaries down to and including Lake Walcott, which store water for distribution pursuant to water right nos. 1-219, 1-2064, 1-2068, 1-4055, 1-10042, 1-10043, 1-10044, 1-10045, 1-10620, 1-10621A, 1-10621B, 1-10622, 1-10623, 21-2156, 21-4155, 21-10560, 21-13161, 21-13194, 25-7004, 25-14413A and 25-14413B.

3. This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may ultimately be determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

4. The operation, use and administration of this water right is subject to the terms and conditions of the Settlement Agreement signed on February 14, 2006 with Minidoka Irrigation District, Burley Irrigation District, Twin Falls Canal Company, North Side Canal Company and American Falls Reservoir District #2.

5. This decree does not alter, amend, or modify the contracts entered into between the various federal contractors and the United States Bureau of Reclamation, as amended, including but not limited to the contractual storage exchanges, in connection with the Palisades project and the Minidoka project, which contracts remain binding among the parties.

6. The exercise and administration of this water right is subject to the terms and conditions of the Stipulation effective _XX/XX_, 2014, which is incorporated herein by reference.

TRIBUTARY: COLUMBIA RIVER

QUANTITY: 1,043,298 AFY

Water rights nos. 01-2068, 01-4055, 01-10043, 01-10044, 01-10045, 01-10621A, 01-10621B, and 01-10623 are limited to the total combined annual diversion volume necessary to allocate a total of 2,047,000 acre-feet of irrigation storage water per year to the consumers or users of the irrigation storage water.

Water will not accrue towards the satisfaction of this water right until the United States of America, acting through the Bureau of Reclamation, has notified the Water District 01 Watermaster of the calendar date on which it intends to store water pursuant to this water right. Following initial notification, the United States can provide notification directing the Water District 01 Watermaster to stop and start the accrual of water pursuant to this water right, until the water right has been satisfied. All notification must be made in writing. Each notification must identify a specific calendar date on which administrative action should occur. The identified calendar date cannot predate the date of written notification.

This water right is limited to the total space evacuated upstream from Palisades Dam for local flood control operations as determined by the Water District 01 Watermaster, prior to the date of final storage allocation not to exceed 1,043,298 acre-feet. 'Local flood control operations' are reservoir flood control operations in accordance with the Act of September 30, 1950, Public Law 81-864, 64 Stat. 1083-85, as amended or supplemented, and the operating plan for Palisades Reservoir as it may be revised pursuant to the forgoing laws. The watermaster's determination of the space evacuated for flood control is made for the purpose of determining the distribution of natural flow to this water right in accordance with state law. The watermaster's determination shall not bind the United States, nor have any effect on the United States' determinations, authority, or discretion under federal law in operating this reservoir for local flood control purposes.

Water accruing to this water right supplements water accrued under water right nos. 01-2068, 01-4055, 01-10043, 01-10044, and 01-10045 and water available under this water right will be allocated for end use as provided in contracts entered into between the United States and federal contractors referenced in paragraph 2 as if it had accrued under water right nos. 01-2068, 01-4055, 01-10043, 01-10044, and 01-10045.

PLACE OF USE:

Place of use is on those lands identified under water rights nos. 01-2068, 01-4055, 01-10043, 01-10044, and 01-10045.

Water under this right may be temporarily held in the unoccupied space of any of the reservoirs upstream of Milner Dam, located at township 10S, range 21E, sections 28 and 29, when determined by the Water District 01 Watermaster (as supervised by the Director of the Department of Water Resources), the Water District 01 advisory committee, and the United States Bureau of Reclamation that such temporary storage will maximize the storage of water upstream of Milner Dam.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

1. The name of the United States of America acting through the Bureau of Reclamation appears in the Name and Address sections of this partial decree. However, as a matter of Idaho Constitutional and Statutory Law, title to the use of the water is held by the consumers or users of the water. The irrigation organizations act on behalf of the consumers or users to administer the use of the water for the landowners in the quantities and/or percentages specified in the contracts between the Bureau of Reclamation and the irrigation organizations for the benefit of the landowners entitled to receive distribution of this water from the respective irrigation organizations. The interest of the consumers or users of the water is appurtenant to the lands within the boundaries of or served by such irrigation organizations, and that interest is derived from law and is not based exclusively on the contracts between the Bureau of Reclamation and the irrigation organizations.
2. The allocation of storage to federal contractors and the location of that storage, including carryover storage, in the reservoir system shall be determined by the United States Bureau of Reclamation pursuant to federal reclamation law and contracts entered into between the United States and federal contractors. The Water District 01 Watermaster (as supervised by the Director of the Department of Water Resources) shall distribute stored water in accordance with the allocation instructions from the United States Bureau of Reclamation. "Reservoir system" shall mean all Federal reservoirs on the Snake River and its tributaries down to and including Lake Walcott, which store and distribute water pursuant to water right nos. 1-219, 1-2064, 1-2068, 1-4055, 1-10042, 1-10043, 1-10044, 1-10045, 1-10620, 1-10621A, 1-10621B, 1-10622, 1-10623, 21-2156, 21-4155, 21-10560, 21-13161, 21-13194, 25-7004, 25-14413A and 25-14413B.
3. This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may ultimately be determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
4. The operation, use and administration of this water right is subject to the terms and conditions of the Settlement Agreement signed on February 14, 2006 with Minidoka Irrigation District, Burley Irrigation District, Twin Falls Canal Company, North Side Canal Company and American Falls Reservoir District #2.
5. This decree does not alter, amend, or modify the contracts entered into between the various federal contractors and the United States Bureau of Reclamation, as amended, including but not limited to the contractual storage exchanges, in connection with the Palisades project and the Minidoka project, which contracts remain binding among the parties.
6. Combined use limit amongst 01-10621B and 25-14413B not to exceed 1,043,298 acre feet.
7. For surface water right administration this water right is subordinate to all water rights permitted, licensed, or decreed prior to May 1, 2014 that are not decreed as enlargements pursuant to Section 42-1426, Idaho Code. As between water rights decreed as enlargements pursuant to Section 42-1426, Idaho Code, the earlier priority right is the superior right. The administration of this water right and ground water rights is addressed in Provision 8 below.
8. For conjunctive administration this water right shall not be used as the basis for a water right delivery call, nor shall it be the basis for a defense to a water right delivery call; provided, the Director of IDWR may consider the effect of Provision 7 above on the total supply of water available to the calling party. Further, this water right shall not be construed as an admission or waiver of any available claims or defenses related to the conjunctive administration of water right nos. 01-2068, 01-4055, 01-10043, 01-10044, and 01-10045.
9. The exercise and administration of this water right is subject to the terms and conditions of the Stipulation effective XX/XX, 2014, which is incorporated herein by reference.

QUANTITY: 1,485,000.00 AFY

Water right nos. 01-4055, 01-10044, 01-10045, 01-10621B, and 01-10623 are limited to the total combined annual diversion volume necessary to allocate a total of 847,000 acre-feet of irrigation storage water per year to the consumers or users of the irrigation storage water.

The quantity for this water right represents the maximum quantity of storage water that may be put to beneficial use under this right after the storage released from Jackson Lake enters the State of Idaho.

PRIORITY DATE: 10/31/1956

This water right is subordinate to all existing and future water rights established pursuant to Idaho law for use within the Snake River Basin above Milner.

POINT OF
DIVERSION:

T03S R46E S10 SWNE Within BONNEVILLE County

The point of diversion shown above is where the Snake River enters the State of Idaho, recognizing, however, the storage water is physically stored in and released from Jackson Lake which is located within the State of Wyoming.

PURPOSE AND
PERIOD OF USE:

PURPOSE OF USE	PERIOD OF USE	QUANTITY
IRRIGATION STORAGE	01/01 12/31	1,485,000.00 AFY

Water accruing to this water right supplements water accrued under water right nos. 01-4055, 01-10044 and 01-10045, and water available under this water right will be allocated for end use as provided in contracts entered into between the United States and federal contractors referenced in provision 2 as if it had accrued under water right nos. 01-4055, 01-10044 and 01-10045.

PLACE OF USE:

Place of use is on those lands identified under water right nos. 01-4055, 01-10044 and 01-10045.

Place of use for storage is Jackson Lake, provided, however, that water under this right may be temporarily held in the unoccupied space of any of the reservoirs upstream of Milner Dam, located at Township 10S, Range 21E, Sections 28 and 29, when determined by the Water District 01 Watermaster (as supervised by the Director of the Department of Water Resources), the Water District 01 advisory committee, and the United States Bureau of Reclamation that such temporary storage will maximize the storage of water upstream of Milner Dam.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

1. The name of the United States of America acting through the Bureau of Reclamation appears in the Name and Address sections of this partial decree. However, as a matter of Idaho Constitutional and Statutory Law, title to the use of the water is held by the consumers or users of the water. The irrigation organizations act on behalf of the consumers or users to administer the use of the water for the landowners in the quantities and/or percentages specified in the contracts between the Bureau of Reclamation and the irrigation organizations for the benefit of the landowners entitled to receive distribution of this water from the respective irrigation organizations. The interest of the consumers or users of the water is appurtenant to the lands within the boundaries of or served by such irrigation organizations, and that interest is derived

from law and is not based exclusively on the contracts between the Bureau of Reclamation and the irrigation organizations.

2. The allocation of storage to federal contractors and the location of that storage, including carryover storage, in the reservoir system shall be determined by the United States Bureau of Reclamation pursuant to federal reclamation law and contracts entered into between the United States and federal contractors. The Water District 01 Watermaster (as supervised by the Director of the Department of Water Resources) shall distribute stored water in accordance with the allocation instructions from the United States Bureau of Reclamation. "Reservoir system" shall mean all Federal reservoirs on the Snake River and its tributaries down to and including Lake Walcott, which store water for distribution pursuant to water right nos. 1-219, 1-2064, 1-2068, 1-4055, 1-10042, 1-10043, 1-10044, 1-10045, 1-10620, 1-10621A, 1-10621B, 1-10622, 1-10623, 21-2156, 21-4155, 21-10560, 21-13161, 21-13194, 25-7004, 25-14413A and 25-14413B.

3. This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may ultimately be determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

4. The operation, use and administration of this water right is subject to the terms and conditions of the Settlement Agreement signed on February 14, 2006 with Minidoka Irrigation District, Burley Irrigation District, Twin Falls Canal Company, North Side Canal Company and American Falls Reservoir District #2.

5. This decree does not alter, amend, or modify the contracts entered into between the various federal contractors and the United States Bureau of Reclamation, as amended, including but not limited to the contractual storage exchanges, in connection with the Palisades project and the Minidoka project, which contracts remain binding among the parties.

6. The storage of water for irrigation purposes occurs within the State of Wyoming pursuant to Certificate No. R-6, Permit Nos. 894 Res., 1903 Res., 2185 Res., 2894 Res., and 2895 Res., and pursuant to the laws of that state and consistent with the Snake River Compact, and consistent with federal law, which provides for the operation of the Minidoka Project consistent with existing federal law and contracts entered into between spaceholders and the United States. The listing of irrigation storage is for information purposes only.

7. The exercise and administration of this water right is subject to the terms and conditions of the Stipulation effective _XX/XX_, 2014, which is incorporated herein by reference.

QUANTITY: 228,000.00 AFY

Water right nos. 25-7004, 25-14413A and 25-14413B are limited to the total combined annual diversion volume necessary to allocate a total of 80,500 acre-feet of irrigation storage water per year to the consumers or users of the irrigation storage water.

PRIORITY DATE: 10/31/1984

This water right is subordinate to all existing and future water rights established pursuant to Idaho law for use within the Snake River Basin above Milner.

POINT OF

DIVERSION: T03N R40E S22 NWNW Within BONNEVILLE County

PURPOSE AND

PERIOD OF USE:

PURPOSE OF USEPERIOD OF USEQUANTITY

IRRIGATION STORAGE

01/01 12/31

228,000.00 AFY

Water accruing to this water right supplements water accrued under water right no. 25-7004, and water available under this water right will be allocated for end use as provided in contracts entered into between the United States and federal contractors referenced in provision 2 as if it had accrued under water right no. 25-7004.

PLACE OF USE:

Place of use is on those lands identified under water right no. 25-7004.

Place of use for storage is Ririe Reservoir, provided, however, that water under this right may be temporarily held in the unoccupied space of any of the reservoirs upstream of Milner Dam, located at Township 10S, Range 21E, Sections 28 and 29, when determined by the Water District 01 Watermaster (as supervised by the Director of the Department of Water Resources), the Water District 01 advisory committee, and the United States Bureau of Reclamation that such temporary storage will maximize the storage of water upstream of Milner Dam.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

1. The name of the United States of America acting through the Bureau of Reclamation appears in the Name and Address sections of this partial decree. However, as a matter of Idaho Constitutional and Statutory Law, title to the use of the water is held by the consumers or users of the water. The irrigation organizations act on behalf of the consumers or users to administer the use of the water for the landowners in the quantities and/or percentages specified in the contracts between the Bureau of Reclamation and the irrigation organizations for the benefit of the landowners entitled to receive distribution of this water from the respective irrigation organizations. The interest of the consumers or users of the water is appurtenant to the lands within the boundaries of or served by such irrigation organizations, and that interest is derived from law and is not based exclusively on the contracts between the Bureau of Reclamation and the irrigation organizations.
2. The allocation of storage to federal contractors and the location of that storage, including carryover storage, in the reservoir system shall be determined by the United States Bureau of Reclamation pursuant to federal reclamation law and contracts entered into between the United States and federal contractors. The Water District 01 Watermaster (as supervised by the Director of the Department of Water Resources) shall distribute the stored water in accordance with the allocation instructions from the United States Bureau of Reclamation. "Reservoir system" shall

mean all Federal reservoirs on the Snake River and its tributaries down to and including Lake Walcott, which store water for distribution pursuant to water right nos. 1-219, 1-2064, 1-2068, 1-4055, 1-10042, 1-10043, 1-10044, 1-10045, 1-10620, 1-10621A, 1-10621B, 1-10622, 1-10623, 21-2156, 21-4155, 21-10560, 21-13161, 21-13194, 25-7004, 25-14413A and 25-14413B.

3. This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may ultimately be determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

4. The operation, use and administration of this water right is subject to the terms and conditions of the Settlement Agreement signed on February 14, 2006 with Minidoka Irrigation District, Burley Irrigation District, Twin Falls Canal Company, North Side Canal Company and American Falls Reservoir District #2.

5. This decree does not alter, amend, or modify the contracts entered into between the various federal contractors and the United States Bureau of Reclamation, as amended, including but not limited to the contractual storage exchanges, in connection with the Palisades project and the Minidoka project, which contracts remain binding among the parties.

6. The exercise and administration of this water right is subject to the terms and conditions of the Stipulation effective _XX/XX_, 2014, which is incorporated herein by reference.

IDAHO DEPARTMENT OF WATER RESOURCES
RECOMMENDED WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 25-14413B

NAME AND ADDRESS: UNITED STATES OF AMERICA ACTING THROUGH
BUREAU OF RECLAMATION
REGIONAL DIRECTOR PN CODE-3100
1150 N CURTIS RD STE 100
BOISE ID 83706-1234

SOURCE: WILLOW CREEK

TRIBUTARY: SNAKE RIVER

QUANTITY: 12,000.00 AFY

Water right nos. 25-7004, 25-14413A and 25-14413B are limited to the total combined annual diversion volume necessary to allocate a total of 80,500 acre-feet of irrigation storage water per year to the consumers or users of the irrigation storage water.

Water will not accrue towards the satisfaction of this water right until the United States of America, acting through the Bureau of Reclamation, has notified the Water District 01 Watermaster of the calendar date on which it intends to store water pursuant to this water right. Following initial notification, the United States can provide notification directing the Water District 01 Watermaster to stop and start the accrual of water pursuant to this water right, until the water right has been satisfied. All notification must be made in writing. Each notification must identify a specific calendar date on which administrative action should occur. The identified calendar date cannot predate the date of written notification.

This water right is limited to the total space evacuated for local flood control operations as determined by the Water District 01 Watermaster, prior to the date of final storage allocation not to exceed 12,000 acre-feet. 'Local flood control operations' are reservoir flood control operations in accordance with the Act of September 30, 1950, Public Law 81-864, 64 Stat. 1083-85, as amended or supplemented, and the operating plan for Ririe Reservoir as it may be revised pursuant to the forgoing laws. The watermaster's determination of the space evacuated for flood control is made for the purpose of determining the distribution of natural flow to this water right in accordance with state law. The watermaster's determination shall not bind the United States, nor have any effect on the United States' determinations, authority, or discretion under federal law in operating this reservoir for local flood control purposes.

Water accruing to this water right supplements water accrued under water right no. 25-7004, and water available under this water right will be allocated for end use as provided in contracts entered into between the United States and federal contractors referenced in provision 2 as if it had accrued under water right no. 25-7004.

PLACE OF USE:

Place of use is on those lands identified under water right no. 25-7004.

Place of use for storage is Ririe Reservoir, provided, however, that water under this right may be temporarily held in the unoccupied space of any of the reservoirs upstream of Milner Dam, located at Township 10S, Range 21E, Sections 28 and 29, when determined by the Water District 01 Watermaster (as supervised by the Director of the Department of Water Resources), the Water District 01 advisory committee, and the United States Bureau of Reclamation that such temporary storage will maximize the storage of water upstream of Milner Dam.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

1. The name of the United States of America acting through the Bureau of Reclamation appears in the Name and Address sections of this partial

decree. However, as a matter of Idaho Constitutional and Statutory Law, title to the use of the water is held by the consumers or users of the water. The irrigation organizations act on behalf of the consumers or users to administer the use of the water for the landowners in the quantities and/or percentages specified in the contracts between the Bureau of Reclamation and the irrigation organizations for the benefit of the landowners entitled to receive distribution of this water from the respective irrigation organizations. The interest of the consumers or users of the water is appurtenant to the lands within the boundaries of or served by such irrigation organizations, and that interest is derived from law and is not based exclusively on the contracts between the Bureau of Reclamation and the irrigation organizations.

2. The allocation of storage to federal contractors and the location of that storage, including carryover storage, in the reservoir system shall be determined by the United States Bureau of Reclamation pursuant to federal reclamation law and contracts entered into between the United States and federal contractors. The Water District 01 Watermaster (as supervised by the Director of the Department of Water Resources) shall distribute the stored water in accordance with the allocation instructions from the United States Bureau of Reclamation. "Reservoir system" shall mean all Federal reservoirs on the Snake River and its tributaries down to and including Lake Walcott, which store water for distribution pursuant to water right nos. 1-219, 1-2064, 1-2068, 1-4055, 1-10042, 1-10043, 1-10044, 1-10045, 1-10620, 1-10621A, 1-10621B, 1-10622, 1-10623, 21-2156, 21-4155, 21-10560, 21-13161, 21-13194, 25-7004, 25-14413A and 25-14413B.

3. This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may ultimately be determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

4. The operation, use and administration of this water right is subject to the terms and conditions of the Settlement Agreement signed on February 14, 2006 with Minidoka Irrigation District, Burley Irrigation District, Twin Falls Canal Company, North Side Canal Company and American Falls Reservoir District #2.

5. This decree does not alter, amend, or modify the contracts entered into between the various federal contractors and the United States Bureau of Reclamation, as amended, including but not limited to the contractual storage exchanges, in connection with the Palisades project and the Minidoka project, which contracts remain binding among the parties.

6. Combined use limit amongst 01-10621B and 25-14413B not to exceed 1,043,298 acre feet.

7. For surface water right administration this water right is subordinate to all water rights permitted, licensed, or decreed prior to May 1, 2014 that are not decreed as enlargements pursuant to Section 42-1426, Idaho Code. As between water rights decreed as enlargements pursuant to Section 42-1426, Idaho Code, the earlier priority right is the superior right. The administration of this water right and ground water rights is addressed in Provision 8 below.

8. For conjunctive administration this water right shall not be used as the basis for a water right delivery call, nor shall it be the basis for a defense to a water right delivery call; provided, the Director of IDWR may consider the effect of Provision 7 above on the total supply of water available to the calling party. Further, this water right shall not be construed as an admission or waiver of any available claims or defenses related to the conjunctive administration of water right no. 25-7004.

9. The exercise and administration of this water right is subject to the terms and conditions of the Stipulation effective _XX/XX_, 2014, which is incorporated herein by reference.

Attorney for North Fork Reservoir Company

**IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS**

In Re SRBA

Case No. 39576

SUBCASE NOS. 21-2154, 21-2161, and 21-12946

**MEMORANDUM IN SUPPORT
OF MOTION TO SET ASIDE
PARTIAL DECREES**

COMES NOW, North Fork Reservoir Company, by and through its attorney of record, Jerry R. Rigby of Rigby, Andrus & Rigby Law, PLLC, and submits this Memorandum in support of the Motion to Set Aside Partial Decrees for the above-captioned water rights pursuant to Idaho Rule of Civil Procedure 60(b)(6) (“Rule 60(b)(6)”).

I.

STATEMENT OF FACTS

On March 5, 2013, this Court issued partial decrees for the above-captioned subcases. The partial decrees are for storage water rights for Henrys Lake, which is operated by North Fork Reservoir Company. Subsequently, an issue arose in the Snake River Basin Adjudication regarding the “fill” and/or “refill” of the storage water rights for on-stream reservoirs in Basins

01, 21, and 25. North Fork Reservoir Company, through its attorney of record, has participated in this issue and filed a motion to file late notice of claim in subcase no. 21-13193, which this Court granted on November 19, 2014.

Certain parties have entered into a stipulation resolving the “fill” and/or “refill” issue for the storage water rights for on-stream reservoirs in Basins 01, 21, and 25. A copy of the stipulation is attached as Attachment A to the *Affidavit of Jerry Rigby In Support of Motion to Set Aside Partial Decree*.

As described in paragraph 7 of the stipulation, signatories to the stipulation agree that, as a term of settlement, the partial decrees in the above-captioned subcases should be set aside pursuant to Rule 60(b)(6) for the sole purpose of amending the combined use condition on the face of the partial decrees to include water right number 21-13193.

II.

STANDARD OF REVIEW

Rule 60(b)(6) authorizes modification of a judgment for “any other reason justifying relief from the operation of the judgment.” I.R.C.P. 60(b)(6). A trial court's dismissal of a Rule 60(b)(6) motion for relief is reviewed for abuse of discretion. *Berg v. Kendall*, 147 Idaho 571, 578, 212 P.3d 1001, 1008 (2009) “[A]lthough the court is vested with broad discretion in determining whether to grant or deny a Rule 60(b)[(6)] motion, its discretion is limited and may be granted only on a showing of ‘unique and compelling circumstances’ justifying relief.” *Miller v. Haller*, 129 Idaho 345, 349, 924 P.2d 607, 611 (1996) (quoting *Matter of Estate of Bagley*, 117 Idaho 1091, 1093, 793 P.2d 1263, 1265 (Ct. App. 1990)).

III.

ARGUMENT

Unique and compelling circumstances justify granting the Motion to Set Aside Partial Decree for the above-captioned water rights. Water right number 21-13193 was included as a pending subcase on the attachment to this Court's August 26, 2014, *Order Regarding Subcases Pending Upon Entry of Final Unified Decree*. As described above, signatories to the stipulation resolving the "fill" and/or "refill" issue for the storage water rights for on-stream reservoirs in Basins 01, 21, and 25 agree that, as a term of settlement, the partial decrees for the above-captioned subcases should be set aside in order to amend the combined use condition on the face of those partial decrees to include water right number 21-13193. For consistency and to avoid confusion in administration, it is necessary for the combined use condition on the face of the partial decrees for the above-captioned water rights to include water right number 21-13193

IV.

CONCLUSION

For the foregoing reasons, the North Fork Reservoir Company requests that this Court grant its Motion to Set Aside Partial Decrees.

DATED this ____ day of _____ 2014.

I, JERRY RIGBY, being first duly sworn upon oath, depose and say:

1. That I am the attorney of record for North Fork Reservoir Company.
2. Attached hereto as Attachment A is a true and correct copy of a stipulation resolving disputes regarding the “fill” and/or “refill” of the storage water rights for on-stream reservoirs in Basins 01, 21, and 25 that have arisen in various Snake River Basin Adjudication proceedings.
3. As described in paragraph 7 of the stipulation, signatories to the stipulation agree that as a term of settlement, the partial decrees in the above-captioned subcases should be set

aside pursuant to Idaho Rule of Civil Procedure 60(b)(6) for the sole purpose of amending the combined use condition on the face of the partial decrees to include water right no. 21-13193.

DATED this ____ day of _____ 2014.

Jerry Rigby
Attorney for North Fork Reservoir Company

SUBSCRIBED AND SWORN to before me this ____ day of _____ 2014.

<u>PURPOSE OF USE</u>	<u>PERIOD OF USE</u>	<u>QUANTITY</u>
IRRIGATION STORAGE	01/01 12/31	79,350.00 AFY
IRRIGATION FROM STORAGE	04/01 10/31	79,350.00 AFY

PLACE OF USE:

41098 ACRES TOTAL

Place of use for irrigation from storage is within the area served by North Fork Reservoir Company which includes Egin Bench Canals Inc., Salem Union Canal Co., and Consolidated Farmers Canal Co., located within Madison and Fremont Counties, Idaho.

Place of use for storage is Henrys Lake, provided, however, that water under this right may be temporarily held in the unoccupied space of any of the reservoirs upstream of Milner Dam, located at township 10S, range 21E, sections 28 and 29, when determined by the Water District 01 Watermaster [as supervised by the Director of the Department of Water Resources], the Water District 01 advisory committee, and the United States Bureau of Reclamation that such temporary storage will maximize the storage of water upstream of Milner Dam.

The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.

The rights listed below are limited to the irrigation of a combined total of 41,098 acres in a single irrigation season. Combined Right Nos.: 21-110, 21-111, 21-112, 21-2154, 21-2161, 21-12946, 21-12897, 21-12908, 21-12910, 21-12912, 21-12921, 21-12922, 21-12928, 21-12934, 21-12961, 21-12962, 21-12909, 21-12923, 21-12924, 21-13193, 22-428, 22-13342, 22-13343, 22-13344, 22-13347, 22-13349.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Decreed

Point of diversion is Henrys Lake Dam.

TRIBUTARY: COLUMBIA RIVER

QUANTITY: 95,200.00 AFY

Total reservoir capacity is 210,000 acre feet when filled to elevation 4245 and measured at the upstream face of the dam.

Water right nos. 01-219 and 01-10622 are limited to the total combined annual diversion volume necessary to allocate a total of 95,200 acre-feet of irrigation storage water per year to the consumers or users of the irrigation storage water.

PRIORITY DATE: 12/14/1909

POINT OF
DIVERSION: T09S R25E S1 NESW Lot 3 Within MINIDOKA & CASSIA Counties

PURPOSE AND
PERIOD OF USE:

<u>PURPOSE OF USE</u>	<u>PERIOD OF USE</u>	<u>QUANTITY</u>
IRRIGATION STORAGE	01/01 12/31	95,200.00 AFY
IRRIGATION FROM STORAGE	03/15 11/15	95,200.00 AFY

PLACE OF USE:

Place of use for irrigation from storage is within the following counties: Minidoka and Cassia.

Place of use for storage is Lake Walcott, provided, however, that water under this right may be temporarily held in the unoccupied space of any of the reservoirs upstream of Milner Dam, located at township 10S, range 21E, sections 28 and 29, when determined by the Water District 01 Watermaster (as supervised by the Director of the Department of Water Resources), the Water District 01 advisory committee, and the United States Bureau of Reclamation that such temporary storage will maximize the storage of water upstream of Milner Dam.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

1. The name of the United States of America acting through the Bureau of Reclamation appears in the Name and Address sections of this partial decree. However, as a matter of Idaho Constitutional and Statutory Law, title to the use of the water is held by the consumers or users of the water. The irrigation organizations act on behalf of the consumers or users to administer the use of the water for the landowners in the quantities and/or percentages specified in the contracts between the Bureau of Reclamation and the irrigation organizations for the benefit of the landowners entitled to receive distribution of this water from the respective irrigation organizations. The interest of the consumers or users of the water is appurtenant to the lands within the boundaries of or served by such irrigation organizations, and that interest is derived from law and is not based exclusively on the contracts between the Bureau of Reclamation and the irrigation organizations.

2. The allocation of storage to federal contractors and the location of that storage, including carryover storage, in the reservoir system shall be determined by the United States Bureau of Reclamation pursuant to federal reclamation law and contracts entered into between the United States and federal contractors. The Water District 01 Watermaster (as supervised by the Director of the Department of Water Resources) shall distribute the stored water in accordance with allocation instructions from the United States Bureau of Reclamation. "Reservoir system" shall mean all Federal reservoirs on the Snake River and its tributaries down to and including Lake Walcott, which store water for distribution pursuant to water right nos. 1-219, 1-2064, 1-2068, 1-4055, 1-10042, 1-10043, 1-10044, 1-10045, 1-10620, 1-10621A, 1-10621B, 1-10622, 1-10623, 21-2156, 21-4155, 21-10560, 21-13161, 21-13194, 25-7004, 25-14413A, and 25-14413B.

3. This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

4. This decree does not alter, amend, or modify the contracts entered into between the various federal contractors and the United States Bureau of Reclamation, as amended, including but not limited to the contractual storage exchanges, in connection with the Palisades project and the Minidoka project, which contracts remain binding among the parties.

5. The operation, use and administration of this water right is subject to the terms and conditions of the Settlement Agreement signed on February 14, 2006 with Minidoka Irrigation District, Burley Irrigation District, Twin Falls Canal Company, North Side Canal Company and American Falls Reservoir District #2.

NAME AND ADDRESS: UNITED STATES OF AMERICA ACTING THROUGH
BUREAU OF RECLAMATION
REGIONAL DIRECTOR PN CODE-3100
1150 N CURTIS RD STE 100
BOISE ID 83706-1234

SOURCE: SNAKE RIVER

TRIBUTARY: COLUMBIA RIVER

QUANTITY: 940,400.00 AFY

Total reservoir active capacity is 1,200,000 acre feet when filled to elevation 5620 and measured at the upstream face of the dam.

Water right nos. 01-2068, 01-10043, 01-10621A and 01-10621B are limited to the total combined annual diversion volume necessary to allocate a total of 1,200,000 acre-feet of irrigation storage water per year to the consumers or users of the irrigation storage water.

PRIORITY DATE: 07/28/1939

The United States, after consultation with the Watermaster and the Water District 1 Advisory Committee, may release stored water from Jackson Lake and Palisades reservoirs for the maintenance of power production at Palisades Dam powerplant and may store such water in American Falls Reservoir. The release of such water will be confined, however, when it appears to the Secretary that American Falls, Palisades, and Jackson Lake reservoirs will fail to fill, to not more than 1,000 cfs for minimum firm power production and that amount which can be stored in American Falls Reservoir; and no such release shall be made that will preclude the later delivery of water, by exchange or otherwise, to the upper valley entities entitled thereto. "Upper valley entities" shall mean those reservoir spaceholders diverting from the Snake River and its tributaries above American Falls Dam.

POINT OF
DIVERSION: T01S R45E S17 SENE Within BONNEVILLE County

PURPOSE AND
PERIOD OF USE:

<u>PURPOSE OF USE</u>	<u>PERIOD OF USE</u>	<u>QUANTITY</u>
POWER FROM STORAGE	01/01 12/31	940,400.00 AFY
POWER STORAGE	01/01 12/31	940,400.00 AFY
IRRIGATION STORAGE	01/01 12/31	940,400.00 AFY
IRRIGATION FROM STORAGE	03/15 11/15	940,400.00 AFY

PLACE OF USE:

Place of use for irrigation from storage is within the following counties: Fremont, Madison, Jefferson, Bonneville, Bingham, Bannock, Power, Minidoka, Cassia, Lincoln, Jerome, Twin Falls, Gooding, Teton and Elmore.

Place of use for storage is Palisades Reservoir, provided, however, that water under this right may be temporarily held in the unoccupied space of any of the reservoirs upstream of Milner Dam, located at township 10S, range 21E, sections 28 and 29, when determined by the Water District 01 Watermaster (as supervised by the Director of the Department of Water Resources), the Water District 01 advisory committee, and the United States Bureau of Reclamation that such temporary storage will maximize the storage of water upstream of Milner Dam.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

1. The name of the United States of America acting through the Bureau of Reclamation appears in the Name and Address sections of this partial decree. However, as a matter of Idaho Constitutional and Statutory Law, title to the use of the water is held by the consumers or users of the water. The irrigation organizations act on behalf of the consumers or users to administer the use of the water for the landowners in the quantities and/or percentages specified in the contracts between the Bureau of Reclamation and the irrigation organizations for the benefit of the landowners entitled to receive distribution of this water from the

respective irrigation organizations. The interest of the consumers or users of the water is appurtenant to the lands within the boundaries of or served by such irrigation organizations, and that interest is derived from law and is not based exclusively on the contracts between the Bureau of Reclamation and the irrigation organizations.

2. The allocation of storage to federal contractors and the location of that storage, including carryover storage, in the reservoir system shall be determined by the United States Bureau of Reclamation pursuant to federal reclamation law and contracts entered into between the United States and federal contractors. The Water District 01 Watermaster (as supervised by the Director of the Department of Water Resources) shall distribute the stored water in accordance with allocation instructions from the United States Bureau of Reclamation. "Reservoir system" shall mean all Federal reservoirs on the Snake River and its tributaries down to and including Lake Walcott, which store water for distribution pursuant to water right nos. 1-219, 1-2064, 1-2068, 1-4055, 1-10042, 1-10043, 1-10044, 1-10045, 1-10620, 1-10621A, 1-10621B, 1-10622, 1-10623, 21-2156, 21-4155, 21-10560, 21-13161, 21-13194, 25-7004, 25-14413A, and 25-14413B.

3. This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

4. The operation, use and administration of this water right is subject to the terms and conditions of the Settlement Agreement signed on February 14, 2006 with Minidoka Irrigation District, Burley Irrigation District, Twin Falls Canal Company, North Side Canal Company and American Falls Reservoir District #2.

5. This decree does not alter, amend, or modify the contracts entered into between the various federal contractors and the United States Bureau of Reclamation, as amended, including but not limited to the contractual storage exchanges, in connection with the Palisades project and the Minidoka project, which contracts remain binding among the parties.

Place of use does not include federal public lands unless authorized in writing by the United States Bureau of Reclamation.

Place of use for irrigation from storage is within the boundary of Fremont Madison Irrigation District pursuant to Section 43-323, Idaho Code.

Place of use for irrigation storage is Island Park Reservoir, provided, however, that water under this right may be temporarily held in the unoccupied space of any of the reservoirs upstream of Milner Dam, located at township 10S, range 21E, sections 28 and 29, when determined by the Water District 01 Watermaster (as supervised by the Director of the Department of Water Resources), the Water District 01 advisory committee, and the United States Bureau of Reclamation that such temporary storage will maximize the storage of water upstream of Milner Dam.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

1. The name of the United States of America acting through the Bureau of Reclamation appears in the Name and Address sections of this partial decree. However, as a matter of Idaho Constitutional and Statutory Law, title to the use of the water is held by the consumers or users of the water. The irrigation organizations act on behalf of the consumers or users to administer the use of the water for the landowners in the quantities and/or percentages specified in the contracts between the Bureau of Reclamation and the irrigation organizations for the benefit of the landowners entitled to receive distribution of this water from the respective irrigation organizations. The interest of the consumers or users of the water is appurtenant to the lands within the boundaries of or served by such irrigation organizations, and that interest is derived from law and is not based exclusively on the contracts between the Bureau of Reclamation and the irrigation organizations.
2. The allocation of storage to federal contractors and the location of that

storage, including carryover storage, in the reservoir system shall be determined by the United States Bureau of Reclamation pursuant to federal reclamation law and contracts entered into between the United States and federal contractors. The Water District 01 Watermaster (as supervised by the Director of the Department of Water Resources) shall distribute the stored water in accordance with allocation instructions from the United States Bureau of Reclamation. "Reservoir system" shall mean all Federal reservoirs on the Snake River and its tributaries down to and including Lake Walcott, which store water for distribution pursuant to water right nos. 1-219, 1-2064, 1-2068, 1-4055, 1-10042, 1-10043, 1-10044, 1-10045, 1-10620, 1-10621A, 1-10621B, 1-10622, 1-10623, 21-2156, 21-4155, 21-10560, 21-13161, 21-13194, 25-7004, 25-14413A, and 25-14413B.

3. This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

4. This decree does not alter, amend, or modify the contracts entered into between various federal contractors and the United States Bureau of Reclamation, as amended, in connection with the Palisades project and the Minidoka project, which contracts remain binding among the parties.
